NO. 320
RECEIVED

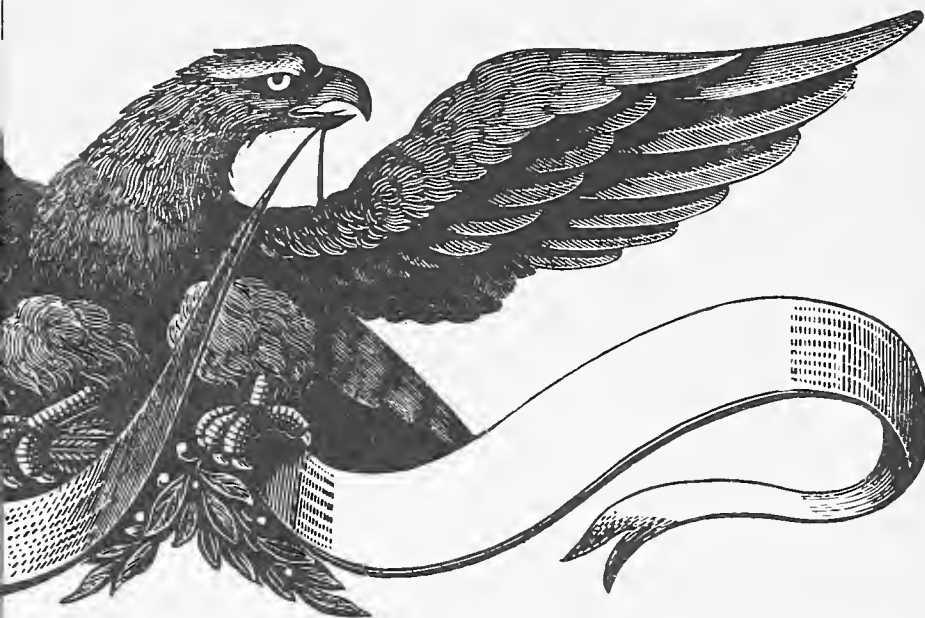

The story of a University . . .

On October 30, 1959 a major change effecting our school was enacted. Governor John Patterson signed a bill officially changing the name of the Alabama Polytechnic Institute. This bill read in part, "The Alabama Polytechnic Institute, formerly called the Agricultural and Mechanical College, a public corporation established pursuant to Section 266, Article 14, Constitution 1901, and Chapter 25, Title 52, Code 1940, is hereby renamed and designated Auburn University." As we move into a new era, we may be assured that our university will continue to meet her every responsibility as in the present and the past, for this is the Auburn Spirit!

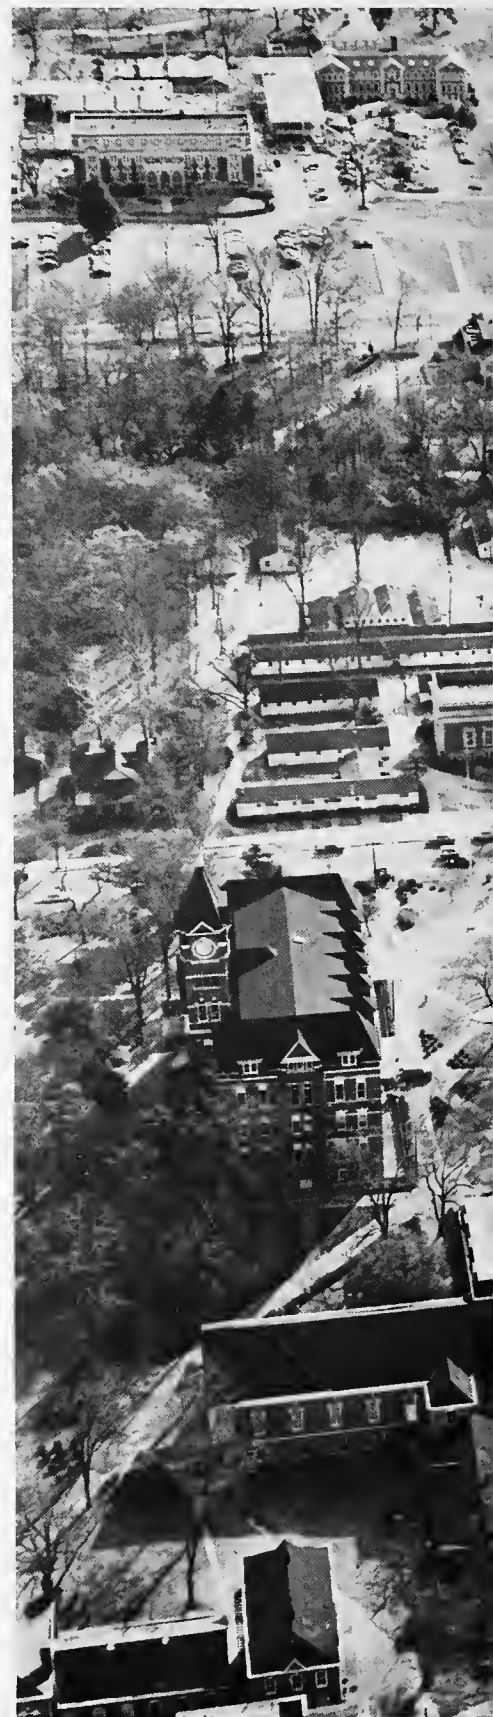

Mr. Paul Haley, President Ralph Draughon, Senator Rufus Barnett, and Mr. Jesse Harvey watch intently as Governor John Patterson signs the bill of name change.

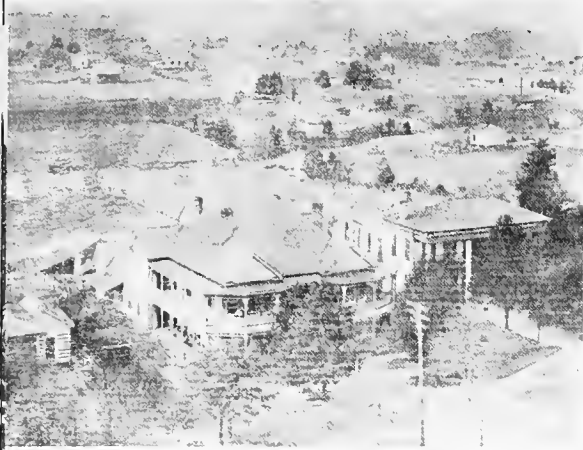

THE tradition of our alma mater is loaded in every rift with legends of a giant, ageless War Eagle which adopted Auburn, because it was "the loveliest village of the plains," as its personal and permanent domain. Of course no one knows whence came this benevolent godparent without permanent form, as is apparent from the many and varied tales of its first noticeable appearance. But we do know that the War Eagles must call Auburn home, and we may suppose that its omniscient spirit has looked, is looking, and will look down on us with real concern, swooping down to lend a helping hand whenever the honor or safety of Auburn is endangered. For years now our wise and powerful friend has brooded over the everyday world of Auburn and its struggles, defeats, and final victories. No history ever written about Auburn could compare favorably with the intimate knowledge the War Eagle has of Auburn.

Certainly the following brief account of our past would be more meaningful if the War Eagle would lend its private memories to the recountal. The War Eagle's help would be especially desirable in recalling our first ancestors and their labors in starting what turned out to be the greatest school in the South.

A town is founded . . .

ALTHOUGH little record exists of the early days, we know Auburn was founded in 1836 by Judge John T. Harper. As he and his son, Tom, were returning to Harris County, Georgia to bring their family and possessions, they chanced to stop for the night at the home of a Mr. Taylor. While a tentative name of "Geneva" had been proposed for the new settlement, no decision had been made as yet. Tom spoke of the matter to Lizzie, the fifteen year old daughter who was later to become his wife. "Won't you propose a name", Tom asked. "Auburn!", she exclaimed, "Name it Auburn! 'Sweet Auburn, Loveliest Village of the Plain'!" As the story has been handed down, straws were drawn for Geneva and Auburn, and Auburn was selected.

Because the state University of La Grange College was located in northwest Alabama, the people of this area began at first dreaming and then planning a male college for men to be built in East Alabama. In December, 1854, a delegation from Auburn presented to the Methodist Conference in Talladega a memorandum asking that body to consider the advisability of establishing a college for men in this part of the state. There was a definite need, so the conference approved the idea.

Auburn was chosen as the site of the new college because the railroad extending from Atlanta by way of Montgomery to Pensacola ran through the town. This site was also selected because there were no saloons in the town and this area was not served by a college.

CONSTRUCTION of the East Alabama Male College was begun in May, 1856. On October 1, 1859, the college opened under the presidency of the Reverend William Jeremiah Sasnett. There were five members on the original faculty. The college enrollment was 80 and 113 pupils attended the preparatory department.

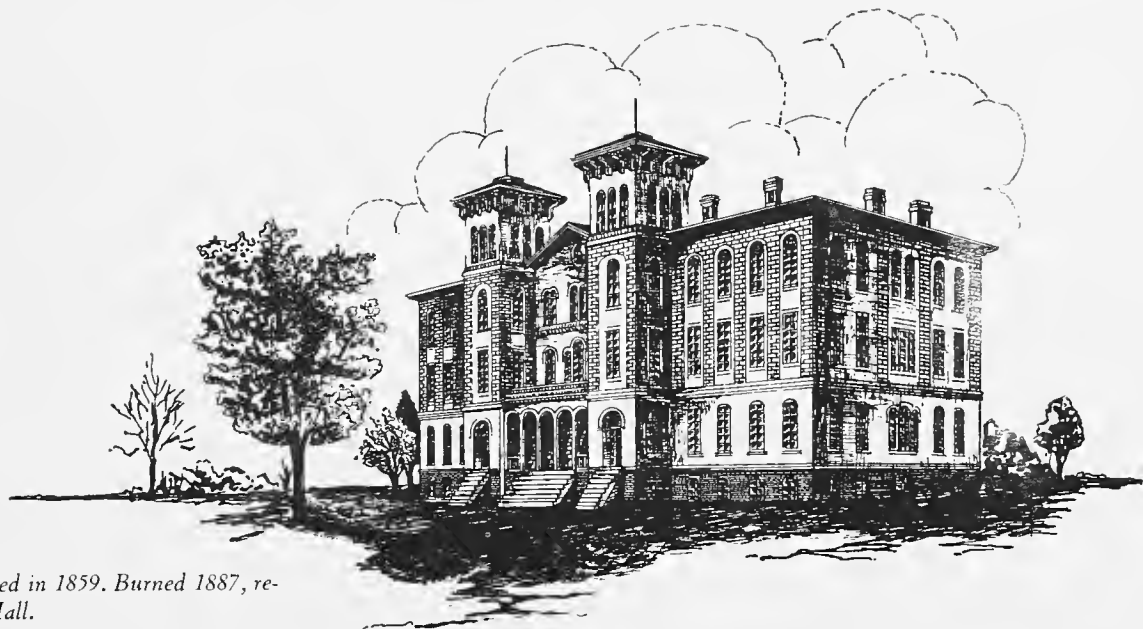

College life was made up of a liberal arts curriculum heavy on Latin and the classics, with social life centering around the "literary societies." These organizations fulfilled the function of fraternities, student activities, student competition, and every phase of extra-curricular activities. At that time there were two literary societies, the Wirt Society and the Websterian Society. Each had a suite of rooms on the third floor of College Building. Almost everyone belonged to one of the societies, which stayed in existence until the 1920's.

The college had barely begun when the Civil War started. Except for the preparatory department, the college suspended in 1861. Although Auburn was visited twice by raiding parties, the college building was never touched. From 1864 to 1866 this building was used as a hospital where sick and wounded soldiers were nursed by the women of Auburn.

A. & M. College of Alabama *founded under Land-Grant Act . . .*

HE war over, the college reopened with great urgency and carried on without adequate funds. The Conference's various plans to raise funds and increase enrollments were without success. For six years, under the presidency of Dr. James Ferguson Dowell, faculty and students sacrificed and carried on.

During this time events were pointing toward a solution to the college's dilemma. In 1868 the Alabama Legislature accepted the provisions of the Morrill Act, which provided a federal grant for support of a land-grant college in Alabama. The State had funds for support of a college, but none of a building; the Conference had a college, but no funds to support it. This Auburn transferred to the state as a land-grant college.

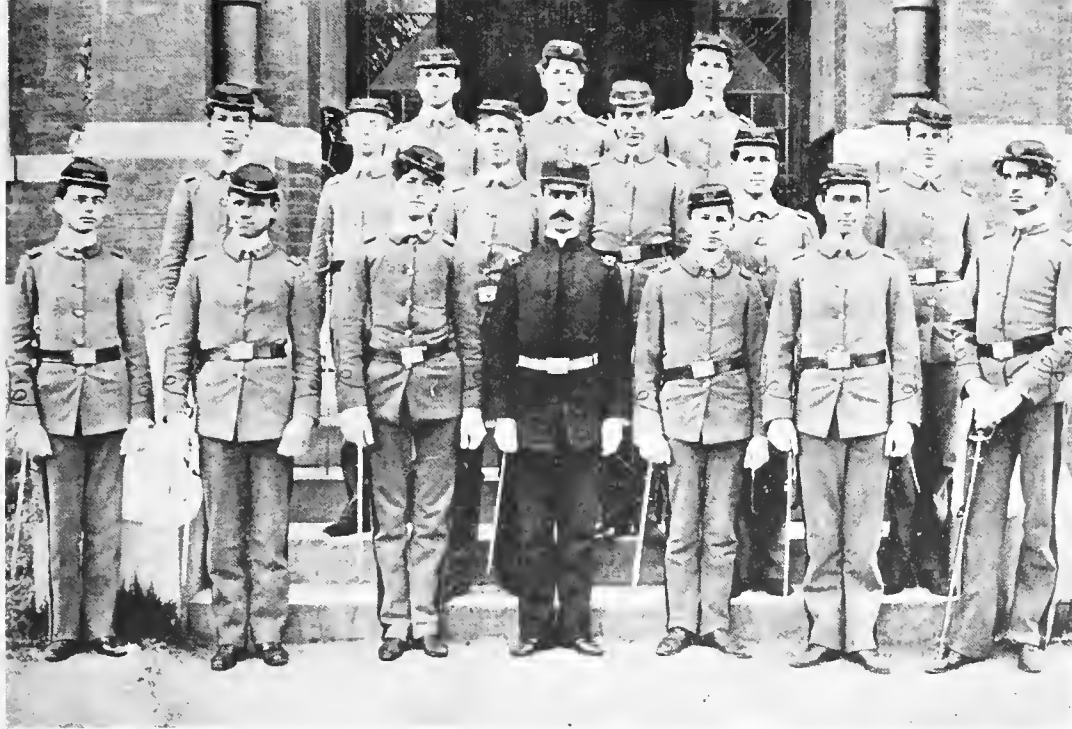

When the college opened in the fall of 1872, it was in its new role as the Agricultural and Mechanical College of Alabama. In this new role Auburn strived to be of service to the people of Alabama by helping them find better ways of living and working. The central purpose of the land-grant college act was: higher education for the industrial classes. This new type of education was not vocational training. It was academic and cultural. The new curricula included many subjects which emphasized good citizenship and the good life.

Coordination of the old liberal arts curricula with the new technical scientific aims was difficult. It proved an impossible task converting a college of the classical tradition into a genuine agricultural and mechanical college. To demonstrate the best methods in agriculture, farms were established at Auburn and in the Tennessee Valley.

Dr. William L. Broun was made president in 1882 on the resignation of Dr. Isaac T. Tichenor. His first year showed the difficulty that faced the college in trying to coordinate the old liberal arts and its new scientific-vocational aims.

BOYD
1883-1884

The first football team at Auburn was organized by Dean Petrie in 1892. The first game played was a 10-0 victory over the University of Georgia.

Among the extensive changes he recommended in the curriculum was the use of laboratory methods in the teaching of science. He resigned when these changes were not approved by the board.

The next president was Col. David F. Boyd. After one year he resigned and Dr. Broun was again elected president. His term of office lasted from 1884 to 1902. During these eighteen years the college at Auburn saw many changes. Dr. Broun's strong stand for scientific methods had won approval. He helped solve many of the problems in this new type of education. At the same time the liberal and religious elements of the earlier college were preserved.

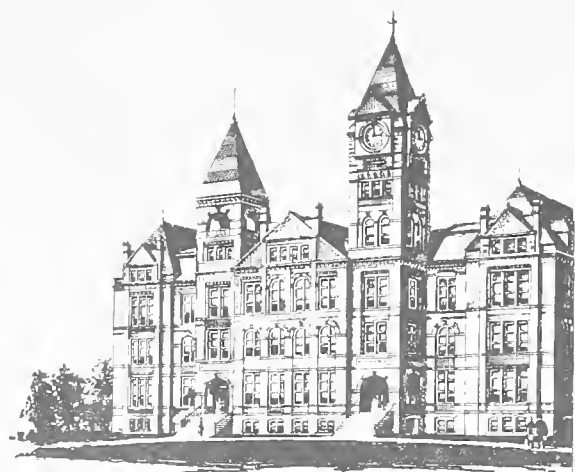

Auburn acknowledged its responsibilities to the Land-Grant idea by establishing an Experiment Station system. This system was started with revenue received from a state tax on fertilizers. This program was strengthened by the Hatch Act of 1887, which provided additional funds from the government.

In 1887 the main building was destroyed by fire, and the next year the Legislature appropriated funds for a new building, Samford Hall, and a chemistry laboratory, which was in the building now used by the Music Department.

The 1890's proved to be a progressive decade with the admission of women students, the introduction of football, and the formation of the Auburn Alumni Association.

The first football team to represent Auburn was coached by Dr. George Petrie, who organized his team in 1891 and practiced on the drill ground which was between what is now Samford and the gym. The first game was on February 22, 1892. In that game Auburn defeated the University of Georgia 10-0. Auburn's team of 1893 were undefeated champions of Alabama and Georgia. This year was the first time Auburn played the University of Alabama. There were two games between the arch rivals, and Auburn won both games. The next year, 1894, Auburn's 94-0 defeat of Georgia Tech was their only victory.

In this early era, rigid rules governed the men. They were awakened by drums from 5:30-6:00 in the morning and required to attend roll call if they lived within a mile of the college. Then they returned and waited for the drums again which signaled the beginning of the day's duties at 7:45. A bell at 6 p.m. signalled dismissal. No one was to retire before 9:30 or to be up later than 10. Fraternity men were allowed a time on Friday evenings for their meetings. No one could visit another student without special permission. On Sunday evenings only were men allowed to have dates.

State Legislature creates Alabama Polytechnic Institute . . .

Y an act of the Alabama Legislature, on January 27, 1899, the Alabama Agricultural and Mechanical College became Alabama Polytechnic Institute. The new name, often abbreviated API, became familiar to thousands through the years. The new API offered students nine courses of study: Chemistry and Agriculture, Civil Engineering, Electrical and Mechanical Engineering, Pharmacy, a 2-year course in Mechanic Arts, Agriculture and Pharmacy and a "General Course".

Six fraternities were on campus at the turn of the century. A "Hop" committee of 16, including five of the faculty, planned the school dances. The 16 coeds must have had a whirl! They, like the men students, stayed with townspeople until Smith Hall, the first women's dormitory, was completed. Alumni Hall was built for the men.

In 1918, under the Smith-Hughes Act, Auburn was named to train teachers of vocational agriculture.

During World War I, the entire API band, with typical Auburn spirit, volunteered as a unit and was the first American band to march into Berlin after the armistice. In 1946 the first women were admitted into the band as majorettes. Four years later they were allowed to play instruments.

Dr. L. N. Duncan became president of API in 1935. He had to deal with the financial problems of the depression years and ready the institution for its strategic role during and following World War II.

Dr. Ralph Brown Draughon, acting president in 1947 and president since 1948, has directed the institution during the period of its greatest expansion; enrollments have doubled, new buildings have been constructed, faculty has been strengthened and enlarged, research and graduate work has been re-designed to spark the state's expanding economy.

Today, instruction is being offered to more than 8,000 students. During the last two years an increase in staff members has resulted in the further development of the engineering school research program.

The Graduate School, a top university feature, had an enrollment of 829 students during the Fall of 1959. In addition to a Ph.D. in seven fields, a Doctor of Education degree is offered. The master's degree is offered in 29 departments.

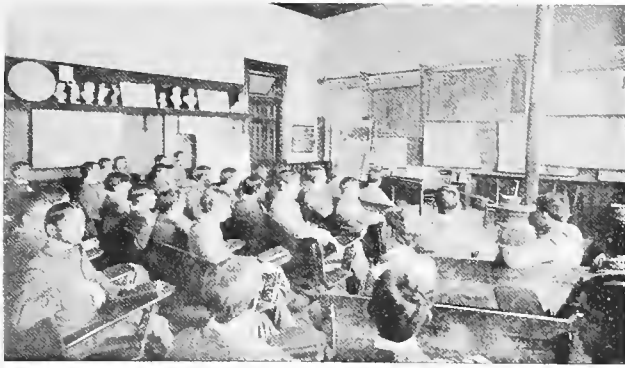

During the fall quarter of 1959, Auburn attracted students from twenty six foreign countries.

Auburn looks to the future . . .

ON January 1, 1960, the nation's newest university came into existence. The name of the Alabama Polytechnic Institute was officially changed to Auburn University, a title which more effectively recognizes the nature and scope of the institution.

Auburn is a town that was built on dreams, as well as hard work; the dreams of settlers for a new land; a poet's dream, from which the town derived its name; and Judge John J. Harper's dream of Auburn as an educational center.

Under the new name, Auburn University is undergoing one of the largest development programs in the history of the institution. Perhaps the most significant one during the year is the increase in financial support by action of the special session of the State Legislature in the fall of 1959. Because of these additional funds, a new library, which has been a project for the past 25 years, was thereby made possible.

The funds will also make possible construction of a Science Center that will house the school of chemistry and the departments of physics and mathematics.

In the early days of its history, Auburn sought to serve Alabama, principally an agrarian state, with those limited needs of Alabamians. The need centered on agriculture; mechanics was little more than in its infancy. If Alabama was to grow it had to keep pace. There had to be trained men to guide the state properly into the technological era. Auburn responded with educational facilities, teachers and equipment that could give the young Alabamian a chance for equal opportunity in a mushrooming world. Along with mechanics, agriculture was becoming a complex science.

Much has changed in the intervening years; new needs have arisen and Auburn has met them with splendid service. The history, growth, and progress of Auburn is not a unique thing in the annals of the world. Yet, because of its history, growth, and progress, Auburn has established itself an admirable institution. The hard work gone into services that Auburn offers, and the lives of those who put forth this effort are the true history of Auburn.

Out of the varied history of Auburn there has evolved that which has been deemed worthy to be called a university. This is an important milestone, but a milestone on an endless road. One can only speculate as to what milestones lie ahead. President Ralph B. Draughon expressed these sentiments when he wrote, "Auburn owes much to the past, but its great mission is such that its great debt must ever be the future."

DR. RALPH B. DRAUGHON

Dr. Ralph B. Draughon, through his inspiring and faithful service to Auburn, has truly made our university one of the outstanding schools in the nation during his thirteen years as President.

Under Dr. Draughon's guidance, Auburn has had one of its most profitable years. Two of the most important advances were the name change from Alabama Polytechnic Institute to Auburn University that became effective January 1, 1960, and the increased legislative appropriations, increasing Auburn's yearly income by over two million dollars. Other important improvements were: a hundred million dollar bond issue that provided \$6,860,700 for the construction of new buildings, approximately half of which will be used for the building of a badly needed library; construction started on over five million dollars worth of agricultural and veterinary research buildings; plans approved for a 13,118 seat addition to Cliff Hare Stadium; and a development program launched to raise money through private donations to increase library holdings and provide other needed facilities.

GOVERNOR

Governor John Patterson, by virtue of his office, is Ex-Officio Chairman of the Board of Trustees of Auburn University. In this capacity, the Governor works with the other trustees in assuming the ultimate authority and control over the University. Governor Patterson has taken an active interest in the budget of the school since his inauguration. He actively supported Auburn's new budget in the legislative sessions, when it was before the state legislature for passage.

The Board of Trustees is composed of representatives appointed by the Governor; two from this congressional district, one from each of the other districts, and the state Superintendent of Education. The present board has shown its sincere interest in the continued growth and development of Auburn by promoting the wonderful advancements and growth that Auburn has enjoyed in the past. From their meetings have come the progressive plans and clear-cut decisions that have raised Auburn to its present position among the colleges and universities of our nation.

SCHOOL OF AGRICULTURE

Existing for the purpose of the instruction of students in order to maintain and increase the efficiency of agriculture and related fields, The School of Agriculture, consisting of ten departments, provides trained graduates to fill positions as successful farmers and as business men in related industries. Agricultural graduates serve the nation's great forest industries, domestic and foreign research and educational programs, wildlife conservation programs, agricultural communication and in many other fields of agricultural science.

Agricultural engineering and administration are courses instituted to train men for progressive and profitable careers in industry or businesses indispensable to agriculture. The Bachelor of Science Degree program is designed to train students in six curriculums: Agricultural Science, Agricultural Administration, Agricultural Engineering, Forestry, Ornamental Horticulture and the Zoological Sciences. A major may be selected in one of many different fields within these curriculums. These include Agronomy and Soils, Animal Husbandry and Nutrition, Dairy Production, Entomology, Game Management, Fisheries Management, Forest Management, Wood Technology, Poultry Husbandry, Horticulture, Botany, Dairy Manufacturing and Zoology.

The modern agricultural graduate must be well trained in the sciences if he is to contribute to meeting the demand for a larger food supply, created by our increasing population and complex society.

SCHOOL OF ARCHITECTURE AND THE ARTS

Biggin Hall, one of the most modern buildings on campus, serves as headquarters for the School of Architecture and the Arts. Work in this school is concerned with the development of creative talents. The student is encouraged in the development of creative talents. The student is encouraged in the development of imagination and artistic ability by means of personal instruction.

The Department of Architecture is accredited by the National Architectural Accrediting Board, endorsed by the American Institute of Architects and is a member of the Association of Collegiate Schools of Architecture. Courses are offered in the school leading to a Bachelor Degree in Architecture and Interior Design. The Department of Building Technology offers the degree of Bachelor of Building Construction.

The Department of Art provides a choice of curriculums which include: Advertising Design, Industrial Design, Painting, Illustration and Fashion Illustration. All of these fields lead to the Bachelor of Applied Arts degree.

The Department of Dramatic Arts offers complete courses of theoretical study and practical work in drama to those interested in the various fields of the theatre.

A full program of study for Music majors is offered by the Department of Music. Courses are available in Applied Music, Music Literature, Music Theory and Composition and Interpretation.

SCHOOL OF CHEMISTRY

With powerful rockets roaring from launching pads and Sputniks, Explorers, and Vanguards circling the earth, the importance of training in Chemistry becomes of greater importance with every passing day. The School of Chemistry recognizes this importance both to the student and to the country as a whole and does all in its power to fulfill its obligation.

Consisting of the departments of Chemistry, Chemical Engineering, and Laboratory Technology, the school offers four-year programs leading to degrees of Bachelor of Science in Chemistry, Chemical Engineering, Laboratory Technology, and Medical Technology.

Working in the Ross Chemical Laboratory, the students have the excellent services of the Emerson R. Miller Library and fully equipped laboratories. The Chemical Engineering Department has excellent facilities located in Wilmore Engineering Laboratory.

A major source of strength in the School of Chemistry rests in the progressiveness of the faculty in research as well as teaching. This allows the faculty to present not only the basic fundamentals, but also new problems brought about by modern research. When this research is teamed with the instructor's knowledge of teaching, it enables him to train each student to solve the problems which will face him in the future.

SCHOOL OF EDUCATION

The function of the School of Education is to train men and women for school service in the professions of teaching, supervision, administration, and psychology. The faculty and students are constantly seeking ways of improving the programs of preparation for teaching in order to fill Alabama's growing need for teachers with better trained men and women.

In striving to overcome the problems of the educational system, students are trained to assume positions in our schools as elementary teachers, high school instructors, coaches, directors of recreation, reading specialists, guidance workers, school principals, superintendents of schools, psychologists, psychometrists, and personnel managers. The School offers degrees in Education with majors or minors in English, natural sciences, music, social sciences, mathematics, modern languages, dramatic arts, industrial arts, home economics, vocational agriculture, physical education, and psychology.

Graduate programs for the degree of Master of Education and the Doctorate in Education are also provided, as well as a second year of graduate work in preparation for the AA certificate.

The students trained in Auburn's School of Education will take their places among the future educators of our nation and apply their newly-acquired skills toward the promotion of modern, diversified education.

SCHOOL OF ENGINEERING

America's many growing industries call for more well-educated engineers each year. To meet this demand, Auburn's School of Engineering offers an educational program designed to meet the rigid and exacting requirements of modern industry. The School requires that a student be fully prepared to meet these high standards and be capable of assuming responsibility in our modern industry upon graduation.

The School offers the Baccalaureat Degree in Aeronautical Engineering, Civil Engineering, Electrical Engineering, Engineering Physics, Industrial Management, Mechanical Engineering and Textile Management. The Department of Textile Technology also has a special curriculum that provides a certificate of proficiency upon completion.

Since the fundamentals of engineering are common to all branches of the profession, the first year of study is incorporated into a Pre-Engineering program, in which all students follow the same curriculum. This provides the student with ample time to select the particular field of engineering in which he wishes to specialize.

Outstanding engineering students are recognized by initiation into various honorary fraternities such as Chi Epsilon, Eta Kappa Nu, Phi Psi, Pi Tau Sigma and Tau Beta Pi.

SCHOOL OF HOME ECONOMICS

The college woman of today tends to combine a professional career with the all important career of homemaking. The School of Home Economics provides a program especially suited for this dual role of the modern woman. Although training for homemaking is the immediate aim of the school, it also trains women for positions in business, industrial and community life.

Using the home as the basic ideal, the programs have been organized accordingly. A Bachelor's Degree is offered in any of five different fields: Clothing and Textiles, Foods and Nutrition, Home Management and Family Economics, Family Life and Early Childhood Education and Nursing Science. A Master of Science or a Master of Home Economics degree may be obtained in any of these fields by completing advanced work on the graduate level.

The curriculum is the same for all students for the first two years, giving a basic knowledge of Home Economics for further courses. The student is then better prepared to choose the field in which she wishes to specialize at the end of this time.

Homemaking is a profession. Each year it is becoming more and more exacting. It is the purpose of the School of Home Economics to train their young women so that they can reach the requirements necessary to become a successful homemaker, career woman or both. A major in Home Economics provides family security and job insurance, which in turn will make for a stronger culture and a better heritage.

SCHOOL OF PHARMACY

Auburn's School of Pharmacy, with its standards set to meet the requirements of Pharmacy today, has gained recognition as being one of the leading schools in the nation. In this modern school, the pharmacy student strives to meet the standards of his chosen profession.

The School of Pharmacy was originally planned with the purpose of training men and women for the field of retail and wholesale pharmacy. The course of training has now been expanded so that today Auburn's pharmaceutical graduates may be found at work as hospital pharmacists, public health technicians, research workers, and analytical chemists in large pharmaceutical plants.

A pharmacist must not only be able to fill prescriptions accurately and have knowledge of the nature of diseases, but he must also possess the professional ideals and those psychological and ethical traits which are of particular importance to his profession.

Beginning with the freshman class of 1960, the present four year curriculum will be expanded into a five year course. This will allow more social sciences and humanities to be added to the present course of study.

SCHOOL OF SCIENCE AND LITERATURE

During their education at Auburn all students become acquainted with the School of Science and Literature, the oldest school on the campus. A "liberal" education is stressed and broad knowledge, insight, and wisdom are emphasized over restricted expertness and mastery. "How to live" is stressed as much as "how to make a living."

The program and instruction in the School of Science and Literature serves two main purposes. The curricula are designed to lead to specialization as businessmen, accountants, statisticians, secretaries, linguists, mathematicians, historians, physicists, journalists, speech therapists, and sociologists. Professional instruction is given prospective doctors, lawyers and dentists.

The school also serves as the main service division for the professional schools of the University. Whatever curriculum a student may select, technical or otherwise, he must take certain fundamental courses such as English, history and mathematics, which are offered only in the School of Science and Literature. This eliminates unnecessary and costly duplication of courses in the other schools.

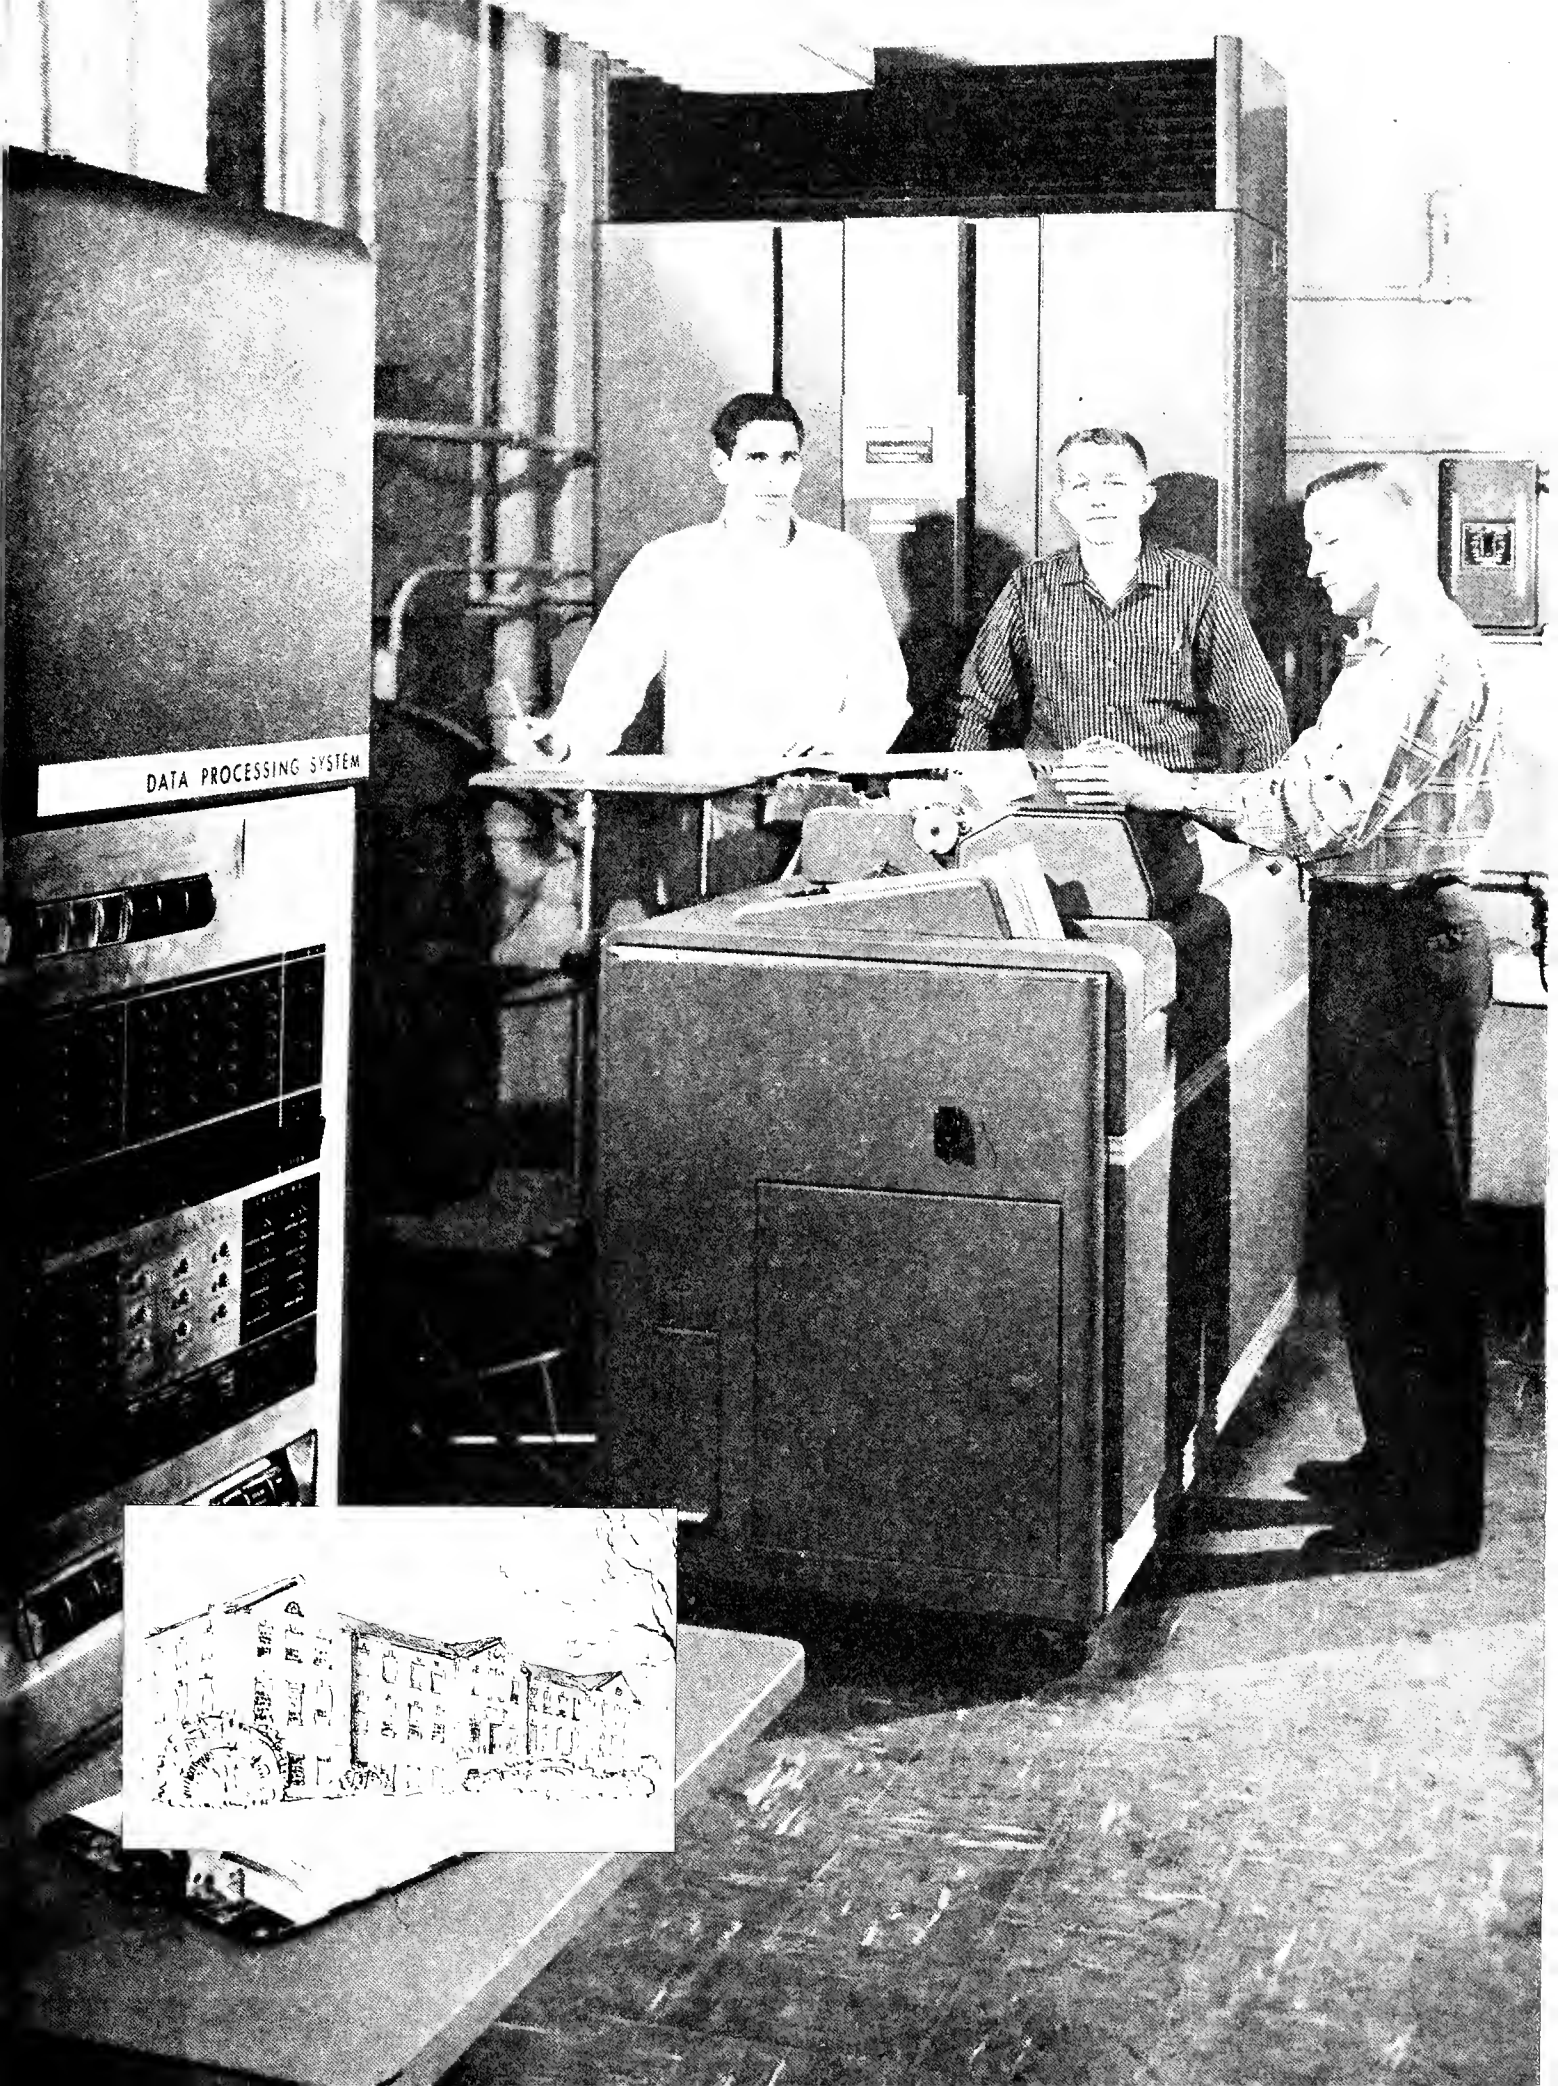

A student who has not yet chosen his particular vocation would be wise to use the facilities of this school as a guide. If he decides later to go into a technical or professional course, he can then transfer to that particular school.

SCHOOL OF VETERINARY MEDICINE

One of eighteen such schools in the United States, Auburn's School of Veterinary Medicine has been contributing to the development and progress of the South since 1892. The School first started as a department of veterinary science in that year and expanded into the South's first School of Veterinary Medicine in 1907, offering its first degree of Doctor of Veterinary Medicine in 1909. The continued advancement and enlargement of this school has upheld its reputation as being one of the finest in the nation.

The road leading to a degree for a veterinary student is long and the hours many. Before a student is eligible for admission to the school, he must have completed two years of pre-veterinary work with good standing. After admission to the school, four calendar years of professional training is required to complete requirements for a degree.

The students who do obtain admission to the School of Veterinary Medicine are select; this is one of the primary factors that makes the school so highly rated. Admissions are restricted to a definite quota of students from Alabama, Florida, Mississippi, Tennessee and Kentucky.

With the fine facilities that the school offers, the faculty is confident that Auburn can keep the lead that it has accomplished in this field and continue to meet the demands for more scientifically trained veterinarians.

GRADUATE SCHOOL

Auburn's Graduate School provides the courses and facilities that are needed for a student's continuing search for knowledge. The Graduate School is dedicated to providing the requisite courses and research facilities, under a faculty of recognized competence, to meet the needs of those students seeking the benefits of graduate training. More and more students every year are realizing the importance of an advanced degree and are entering upon a program of graduate work as soon as it is possible.

The Auburn Graduate School encourages research interest among the faculty and trains superior students in research techniques. It also offers advanced training and work leading to a Master's Degree in most major fields, the Doctor of Education Degree and the Doctor of Philosophy Degree in Agronomy and Soils, Animal Husbandry, Botany and Plant Pathology, Chemistry, Mathematics, Poultry Husbandry, Zoology and Entomology, and an interdisciplinary program for Agricultural Engineers.

Along with the honor and freedom of being a graduate student must come the ability to recognize and accept responsibilities. The graduate student is thrown upon his own resources and is expected to demonstrate his capacity and willingness for intensive and critical study and for original investigations.

ARMY ROTC

The mission of the Army ROTC at Auburn is to train officers for the Regular Army and the Reserve, and to have ready at all times a corps of educated, well-prepared leaders.

Auburn has one of the best military departments in the South; this is due in part to the fact that all qualified male students are required by law to receive two years of basic military instruction. Many of these people choose the Army as the branch in which to serve. In the basic courses the fundamentals of tactics, weapons, and equipment of the various components of the Army are taught. Training is planned to place the utmost stress on the development of leadership in the student.

The advanced course may be entered by any student that has completed his two years of basic ROTC and can fulfill the scholastic, leadership, and physical fitness qualifications. The advance student specializes in one of the four different branches of the Army; Artillery, Armor, Corps of Engineers, or Signal Corps. He also receives a regular monthly monetary allowance.

Upon successful completion of the advanced course and a six-week summer camp at an Army post, cadets are eligible for commissions as Second Lieutenants in the Officers Reserve Corps.

AIR FORCE ROTC

Instituted at Auburn in September of 1946, the Air Force ROTC has been effectively carrying out its purpose of molding the future officers of the United States Air Force.

The Air Force ROTC program is divided into the basic and the advanced program, each of two years duration. Instruction during the first two years provides the cadet with an overall knowledge of Air Power, with all its capabilities and employment. Emphasis is placed on leadership and scholarship.

Selection for the advanced course is based upon leadership, aptitude, academic achievement, and physical fitness. Courses are offered for cadets in the fields of Leadership and Air Power Concept, Administration, and Aircraft Maintenance. Advanced cadets are required to attend a four-week summer camp at an Air Force Base between their junior and senior years. This is for the purpose of supplementing the cadets classroom training with practical application and acquainting him with an Air Force atmosphere and environment.

In addition to the Air Science classroom presentations, opportunities are provided for the cadets to participate in other activities, including an Air Force Rifle Team and a special Honor Flight. Advanced cadets may also be selected for membership in the Arnold Air Society.

NAVAL ROTC

The Naval Reserve Officers Training Corps was established at Auburn in 1945, and it granted its first commission in September, 1947. The Auburn unit is one of fifty-two such units located throughout the country. It is the task of these units to produce the trained leaders of our Navy and Marine Corps.

Only in the NROTC may your choice for future military service be so varied. Auburn graduates from this unit may be found serving on ships at sea, submarines under the sea, in the air as Naval Aviators, in Fleet Squadrons and on sea and shore as officers in the Amphibious Forces of the United States Marine Corps.

Trainees pursue degree courses of their own choosing together with required courses in Naval Science and Tactics, either as regular or contract students. Regular students are furnished books, tuition, and a monthly allowance, and upon completion of their training agree to serve four years of active duty in the U. S. Navy or Marine Corps. The students under contract pay their tuition and books, and receive a ration allowance their last two years. After completion of their training they are given reserve commissions and must serve two years on active duty.

Regular NROTC students take a summer cruise to different parts of the world each year of their enrollment. Contract students take a cruise only between their junior and senior years.

STUDENT GOVERNMENT

Auburn's Student Government is a vital force in the administrative organization of AU. Under the able leadership of Boolie Hill, President, the three branches of SGA; Executive, Judicial, and Legislative, coordinate student activities and encourage better student-faculty relationships. Elections are run smoothly, Auburn spirit is kept at its peak, and organizations function efficiently as a result of its capable supervision.

The Executive Branch is composed of the president, vice president, secretary, and treasurer, but in addition enjoys the cooperation of thirteen cabinet members who serve in an advisory capacity to the president. The Legislative Branch is composed of fifteen senators. The seven member Jurisprudence Committee serves the Judicial Branch of SGA.

Besides presiding over the Executive Branch of SGA, the president appoints cabinet members as well as members of special committees. Charlie McArthur as vice president is the president's right hand man to take care of any problems which may arise. His number one job is serving as president of the Senate. Secretary, Robbie Robinson, keeps all Student Government records as well as taking minutes for Senate meetings. Finances are under the supervision of Jimbo Rogers, Treasurer.

EXECUTIVE

The fourteen cabinet members are responsible for various segments of Auburn Student life. Superintendent of Religious Affairs, Don Worthington, helped promote Auburn's Religious Emphasis Week with the theme "Science and Religion" and helped coordinate activities of all the religious groups. Molly Sarver serves as superintendent of Campus activities which includes social affairs and organizations. Pete Dunn, as president of Magnolia Hall Dormitories, works with men's housing problems in his office of Superintendent of Men's housing. Chairman of Village Fair, Bobo Starke appoints committees and heads the list of those students work-

ing for the success of the occasion that attracts hundreds of high school students to the Plains each spring. Auburn's WSGA president, Sydna Roton, is Superintendent of Women's Affairs. Other cabinet members are Superintendent of Finance, Ronnie Seigler; Superintendent of Campus Drives, Ray Duncan; Superintendent of Political Affairs, Jerry Max Barnes; Superintendent of Spirit, Kenny Schultz; Superintendent of Public Relation, Gene Driver; Superintendent of Union Activities, Larry Hanks; Superintendent of Student Welfare, Trajen Carney; Superintendent of Intramural Sports, Bill Culver. A new cabinet position, Superintendent of Safety, is held by Ronnie McCullars.

FIRST ROW: Boolie Hill, Sydna Roton. SECOND ROW: Jimbo Rogers, Ronny McCullars, Bill Culver, Trajen Carney, Kenny Schultz, Molly Sarver, Robby Robinson. THIRD ROW: Ronnie Zeigler, Bobo Starke, Gene Driver, Ray Duncan, Pete Dunn, Don Worthington, Larry Hanks, Jerry Max Barnes.

JUDICIAL

The students and the faculty are both represented on the Jurisprudence Committee which is composed of seven justices. Faculty Representative and Presiding Justice is Professor A. B. Metzger of the History Department. The six associate justices are student representatives: Bobo Starke, Dick Roll, Eddie Kern, Bill Jones, Joe Ed Voss, Pat Gentry.

To interpret motions passed in the Student Senate which might conflict with those recognized in the Constitution is the main job facing this group. As Auburn's highest court, the Jurisprudence Committee functions like a Fire Department, that is, it acts only when the occasion arises to require action.

A. B. Metzger, Pat Gentry, Eddie Kern, Joe Ed Voss, Bill Jones, BoBo Starke, Dick Roll.

LEGISLATURE

The main function of the Legislative branch of Student Government is to represent our student body. Any complaint or suggestion made to a Senator is brought before the Senate and considered. If the complaint or suggestion will make any improvement in our student body, action is taken. ACOIA, Auburn Conference on International Affairs, is presented to the Auburn campus through the leadership of Auburn's Senate.

Fifteen senators make up the Legislative branch of

the government. As the U. S. Senate must pass on all presidential appointments, so too must Auburn's Senate. The Senate is composed of Fifth Year Senator, Phil O'Berry; Senior Senators, Bill Ham, Gayle Jones, Don Watkins, Bryant Harvard, John O'Brien; Junior Senators, Rod Richardson, Jimmy Morrow, Burt Prater, Ann Hoffhaus; Sophomore Senators, Missy George, Mabry Huggins, John Morgan; Freshman Senators, Boolie Beck, Bert Hitchcock.

FIRST ROW: Missy George, Gayle Jones, Bill Ham, Charlie McArthur, Robbie Robinson, Ann Hoffhaus. SECOND ROW: Jimmy Morrow, Phil O'Berry, Bryant Harvard, Rod Richardson, John O'Brien, Don Watkins, Bert Prater, Bert Hitchcock, Boolie Beck. NOT PICTURED: Mabry Huggins, John Morgan.

OFFICERS. FIRST ROW: Sydna Roton, Eva Mae Jernigan, Sue Ward. SECOND ROW: Anita Griffith, Lila Nolan, Leah Hubbard.

WOMEN'S STUDENT GOVERNMENT ASSOCIATION

JUDICIARY. Seated, Left to Right: Judi Smith, Ann Sullivan, Gail Haynes, Carolina Maenza, Sydna Roton, Sue Ward. Standing: Sally Marshall, Sue Barrett.

Women's Student Government Association is an organization of which every student at Auburn is a member. The purpose of W.S.G.A. is to encourage a sense of individual responsibility and to further a spirit of unity among the women students.

The W.S.G.A. is composed of four councils: Executive, Legislative, Judiciary, and dormitory House Committees. The Executive branch is made up of all the elected presidents of the dormitories and elected officers; each spring this committee holds an annual workshop to evaluate rules and make any changes which are necessary. Each woman represented in this organization has a part in making these rules. The Judiciary Council functions in a disciplinary capacity and is made up of six appointed members, the Chairman of Judiciary, the President of W.S.G.A. who serves as an ex-officio member. All problems and cases which cannot be handled by the dormitory officers come before this council. The House Committee is composed of the President, Vice President, Devotional Chairman, Head Desk Girl, Hall Monitors, Head Resident, and W.R.A. representative. This committee handles infractions of house rules.

The W.S.G.A. was led ably this year by President, Sydna Roton; Vice President, Eva Mae Jernigan; Secretary, Sue Ward; Treasurer, Lila Nolan; Town Representative Leah Hubbard, and Social Chairman, Anita Griffith.

JIM WILLIAMS
Editor

With the distribution of the 1960 GLOMERATA, over a year has passed since the first steps were taken in the preparation of this book. The first move may have been the election of Editor and Business Manager and their appointment of staffs or it may have been even earlier when pictures were taken of Village Fair and spring sports. The serious work probably began immediately at the close of spring quarter when Editor and Business Manager journeyed to Nashville, Tennessee, the home of Benson Printing Company. With the indispensable assistance of Mr. Ralph Langreck, an Auburn alumni there, plans were formulated and page by page layouts were drawn up. Then with the beginning of fall quarter 1959, the GLOMERATA office became a beehive of activity. There were pictures to be taken (and retaken) by the hundreds; copy to be written, read, and rewritten, there was sorting, cropping, typing, checking, and worrying to be done. Then with the arrival of October 30, came the announcement of the change in name of our university. It was decided that a commemorative, historic opening section was in order. The original opening section was discarded, and in January complete new layouts were designed and work began anew. From front cover to back, Alabama Polytechnic Institute became Auburn University.

Problems arose by the hundreds and telephone lines to Nashville were kept busy, but as the staffs worked into the night the book began to take its final shape. Finally all pictures were taken, all copy written, and all proofs read, and at last the book was here. We hope you like it.

Top name on "The Plainsman's" Masthead is Dick Roll, Editor. Boyd Cobb holds the second position as Business Manager. Managing Editors are Bob Jennings and Jim Phillips. These students spend many a sunny afternoon, sacrifice a few good parties and work many a long, sleepless night in order to put out a paper once a week. These students, plus a staff of dedicated workers, strive to print the very latest news. At practically every event connected with our University there is a member of "The Plainsman" staff taking notes, summarizing, organizing, and preparing material to give something informative and interesting to the Auburn student.

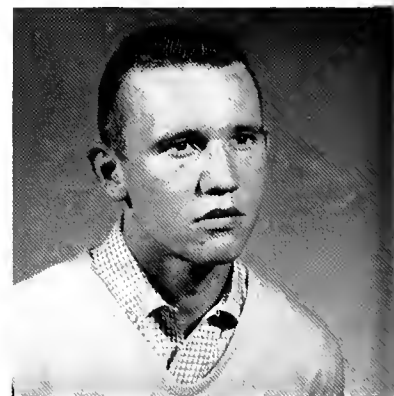

"The Plainsman" is distributed each Wednesday morning. By four in the afternoon, four-fifths of the Auburn students have read one of the best college-published papers in the South. Putting out a college paper is quite a job, but a lot of fun.

Editorials, features, news, photography—all add up to one fine job for a fine staff for 1959-1960.

TIGER CUB

The "Tiger Cub" or the Student Handbook is an Auburn Freshman's best friend. It helps him complete his growing acquaintance of his new life as a part of the Auburn Student Body. Although this publication is mainly for new students, almost everyone uses it, including the faculty.

The "Cub" is a condensed cross-section of campus life. It includes sections on the Schools and Administration, Student Activities, Organizations, Greeks, Sports,

and Rules and Regulations of Auburn University.

The Editor of the '59-'60 "Tiger Cub" was Jim Phillips. Serving as the Business Manager was Buddy Pittman. Other members of the staff were Peggy Forehand, Ed James, Stan Sikes, Peggy Wilson and Mac Golson.

The goal of the '59-'60 Staff is that each student will become thoroughly familiar with his "Tiger Cub" until he feels the full responsibility of being a loyal and active Auburn student.

Left to Right: Jim Phillips, Peggy Forehand, Mac Golson, Ed James, Buddie Pitman, Stan Sikes.

AUBURN ENGINEER

"The Auburn Engineer," a monthly publication subscribed to by engineering students, furthers the unification of the various schools of engineering. The magazine is also sold to engineering alumni and industries, and is sent to many Alabama high schools and engineering colleges.

Sponsored by the Engineers Council, the magazine provides research information as well as alumni news

humor, campus news, plus an Engineering Eyeful. The magazine has proved to be very successful and has aided many engineering students with technical reports. This well rounded approach has given students a better understanding of the various types of engineering.

Fred Stewart does the editing, and Sidney Lanier, as Business Manager, handles the finances.

Left to Right: Fred Stewart, Carolyn Wilson, Sidney Lanier, Paul Scholl, Claude Holifield, Tom Lynch, Bobby Green.

AUBURN VETERINARIAN

A professional publication, the "Auburn Veterinarian," is a scientific journal published by the students of the Auburn chapter of the American Veterinary Medical Association.

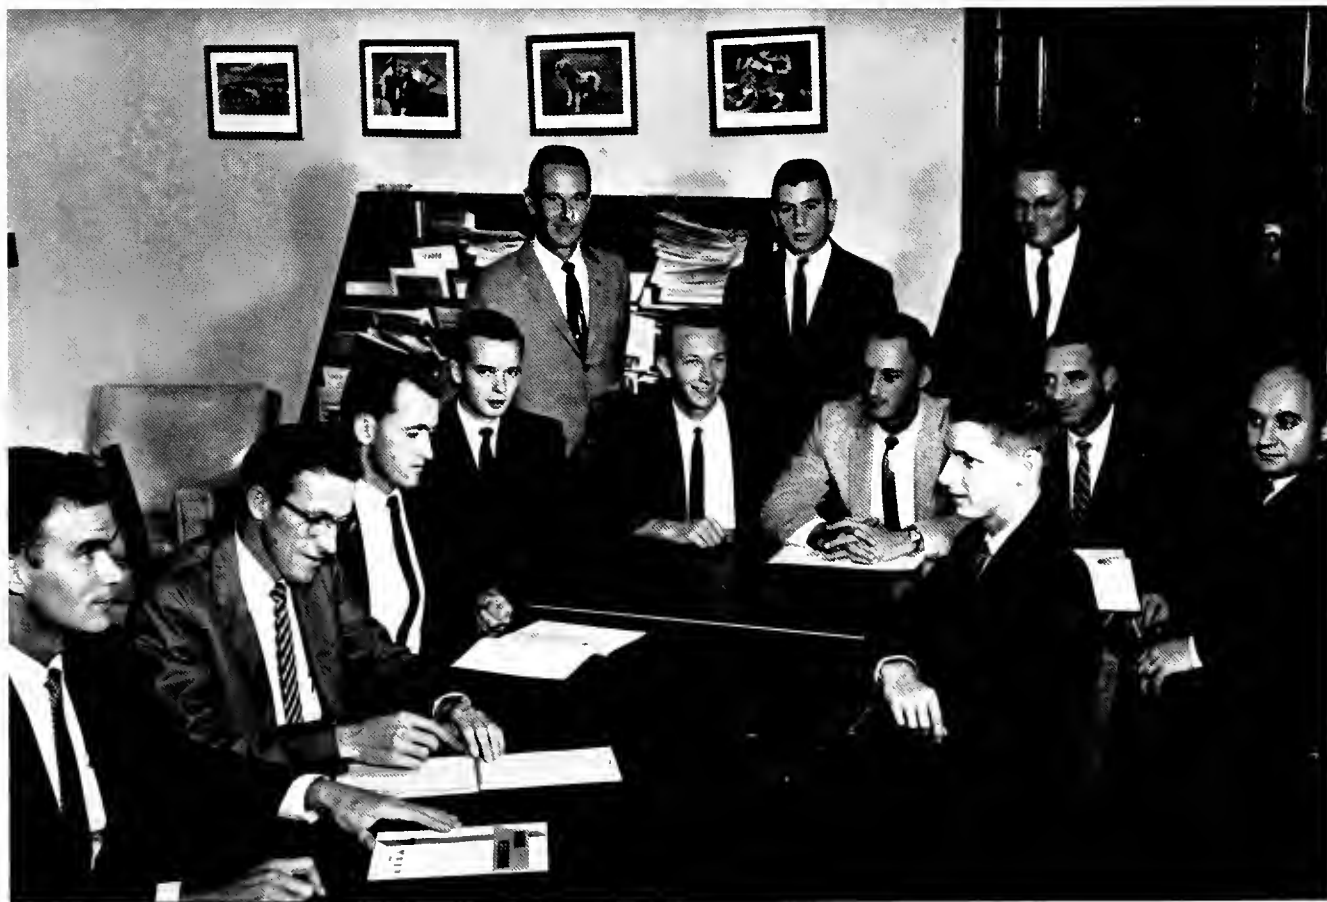

Its purpose is to disseminate advances in veterinary science and to serve the veterinary practitioners in the Southeast.

The articles are, for the most part, written by members of the Veterinary School's faculty. Senior students, under faculty supervision, write some of the main articles and case reports.

The magazine was originated in 1954 and has since grown and gained stature among leading veterinary publications. The circulation is nationwide and also includes fifteen foreign countries.

The magazine is produced once each quarter. On occasion, special issues are published as the need arises. This year the Editor is Lewis Serrano; and the Business Manager is Jack Goodman. Other staff members include: Bill Bone, Jim Neville, Ed Franklin, Bill Petty, Aubrey McMillian, Vencil Senseman, Harvey Gosser, Pat Crutcher, Allen Carb, and John Sadila.

Blue Key National Honor Fraternity, founded at the University of Florida, was established at Auburn on March 11, 1926. The members are selected from the most outstanding men in the junior and senior classes on the basis of their past achievements and potential. They have as their goals: to study, discuss, and strive to further the best interest of Auburn University; to foster intercollegiate relations, to promote national collegiate relations, and develop a national collegiate spirit by placing their stamp of approval on college leaders, making it possible to recognize them wherever they may be found.

A.U. chapter of Blue Key lists in their annual efforts: freshman orientation, sponsorship of the Miss Homecoming contest, decorations and Most Valuable Player competitions for Homecoming, Skit Night, and Bruce Greenhill Scholarship award for journalism students.

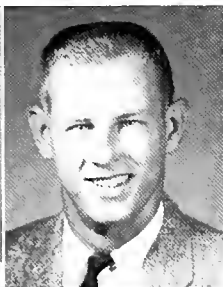

Officers are: President, Bill Ham; Vice-President, Phil O'Berry; Secretary-Treasurer, Bill Jones; Corresponding Secretary, Joe Ed Voss.

Omicron Delta Kappa was founded at Washington and Lee University in 1914. ODK's purposes are three-fold: first, to recognize men who have attained a high standard of efficiency in collegiate activities and to inspire others to strive for outstanding attainments; second, to bring together the most representative men in all phases of collegiate life and thus create an organization which will help to mold the sentiment of the institution on questions of local and intercollegiate interest; third, to bring together members of the faculty and student body on a basis of mutual interest and understanding.

Omega Circle, which was founded in 1928, annually sponsors the ODK Wilbur-Hutsell Cake Race, awarding a trophy and a huge cake to the winner. Socially, ODK offers the campus the ODK-GLOMERATA Beauty Ball each fall. In addition, the Circle in conjunction with the University of Alabama circle, presents a trophy to the winner of the Auburn-Alabama football game.

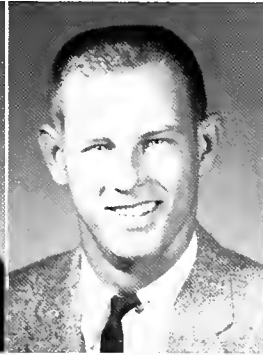

Officers this year are: President, Bobo Starke; Vice-President, Jim Williams; Secretary-Treasurer, Jerry Max Barnes.

Each spring ten outstanding junior men are tapped for membership to Spades, highest campus leadership honor fraternity. These ten new members which constitute the membership of Spades for the following year, are tapped by retiring members. To wear a Spade is a goal which all underclassmen may seek as "The highest honor an Auburn man may attain."

MORTAR BOARD

The highest honor that can come to a senior woman at Auburn is membership in Mortar Board. Requirements for membership include an overall B, or above, scholastic average and leadership and service qualifications.

Skit Night, sponsored by Mortar Board in conjunction with Blue Key, is a campus activity of winter quarter. Each Spring Sphinx Sing is presented. The winners of this inter-Greek competition are awarded cups in each of these events.

Other projects of Mortar Board include: the mum and boutonniere sale on Homecoming week-end, three scholarships presented annually to qualified coeds, the annual award to the sophomore girl with the highest overall scholastic average, a gift given to Susan Smith Cottage, and a picnic given to Foreign students in the spring.

Officers this year are Ann Sullivan, president; Jane Wade, vice-president; Faith Langley, secretary; Judi Smith, treasurer.

Sandra O'Kelly

This years beautiful "Miss Auburn" is Sandra O'Kelly of Chattanooga, Tennessee. Sandra was selected for this, the highest honor an Auburn co-ed can receive in a campus-wide election from a field of five finalists. She is a senior in Home Economics and a member of Chi Omega sorority. Sandra has been a true credit to Auburn, and was justly recognized by being included in "Who's Who Among Students in American Colleges and Universities." She was also elected "Miss Second Division" by the soldiers at Fort Benning. Sandra's picture last year graced the pages of the GLOMERATA as one of the eight Beauties. The honor of being "Miss Auburn" is a wonderful highlight in the college career of a lovely Auburn co-ed.

ODK GLOMERATA BEAUTY BALL

The eight Auburn beauties featured on the following pages of the 1960 GLOMERATA were chosen from over forty candidates representing sororities, fraternities, dormitories, and the independent and honorary groups on campus. Judged on beauty, personality, activities, appearance, and overall impressions, these women epitomize the ideal Auburn Co-ed. Interviews with the

judges were held, and twenty semi-finalists selected. The 1960 ODK GLOMERATA Beauty Ball of November 20 was a fitting climax for the presentation of the beauties. Following the leadout featuring the twenty semi-finalists, the eight 1960 beauties were announced. Music and entertainment for the evening was provided jointly by the Auburn Knights and the Cavaliers of the University of Alabama.

The 1960 GLOMERATA Beauties: FIRST ROW: Charlotte Hopkins, Martha Young, Carolyn Wilson, Sydna Roton. SECOND ROW: Gloria Gayden, Miriam Park, Carole Meadows, Jill Judkins.

PAN-HELLENIC COUNCIL

Left to right: Harriet Jenkins, secretary; Miss Delony, Sandra Ross, President; Dean Cater.

The Panhellenic Council consists of representatives from each sorority who work together to maintain better fraternity life and interfraternity relations with the college.

This year Auburn's Panhellenic had the honor of receiving the trophy awarded by the National Panhellenic Council. This was the first time the trophy has been awarded; and it was given on the basis of our achievement in the past two years in loyalty, friendship, and cooperation.

The Junior Panhellenic Council consists of the president and one delegate of each pledge class. Their purpose is to help train them for Senior Panhellenic, teach cooperation among sororities, improve rush, and to encourage intellectual accomplishment.

After a highly successful rush Beta Omega Chapter set out to match the honors received last year and to recapture the "Outstanding Sorority Trophy." Celebrities among the group; sweethearts, Susie, Judy, and Dianne; treasurer of WSGA, Lila Nolan, who also received the outstanding freshman award; Jeanette and Snookie, members of Omicron Nu; Gloria, one of the ODK-Glom beauties. Several others are in Cwens, Angel Flight, Alpha Lambda Delta, Women's Octet, and the Freshman Advisory Council.

Wesleyan College, Macon, Georgia was the site of our founding. On the fifteenth of May, 1856, our founders were united into a national organization. Beta Omega Chapter was established in 1939. Pale blue and white are our colors; the violet, our flower. Presiding officers are Martha Singer, President; Dianne Richardson, 1st Vice President; Betty Cobb, 2nd Vice-President; Anne Coggan, Secretary; Ann Hoffhaus, Treasurer.

Martha Singer, President; Dianne Richardson, Vice President.

We're the Alpha Gams'; we're the smartest gals in the quad. Just to prove it we've monopolized the scholarship trophy for the past nine quarters—'cept for one (That's fate!). Results—we have members of Mortar Board, Cwens, Alpha Lambda Delta, Phi Kappa Phi, Omicron Nu, and Phi Mu Epsilon.

And we can match all this with a little beauty, for example, Sydna Roton, Glom Beauty for the past two years. We rate with the military, too. Our four sponsors Anita, June, Kay, and Martha prove that.

Margaret Moore brought home the honor of being selected the first Rat Cap Queen during the All Campus Fund Drive.

W.S.G.A. just couldn't do without Sydna as president, and Anita, who takes care of the social affairs. Just think, wouldn't it be terrible without a good, efficient W.S.G.A.!

Nationally, we were founded at Syracuse University in May, 1904; locally, at Auburn in 1938. Our colors are red, buff, and green; our flower is a rose of the same. Leading the organization are Anne Little, President; Charlotte Rawls, Vice-President; Carolyn Schaefer, Secretary; Olivet Summers, Treasurer.

Ann Little, President; Charlotte Rawls, Vice President.

These are the girls with the talent! Could it be we topped Sphinx Sing because we love to sing? Some of our members like it so well they sing all year for the Women's Octet. Then there are those who use their voices cheering our teams to victory. Ophelia fits into this category.

The Greeks have favored us as sweethearts and Ivy was chosen Greek Goddess for 1959.

You can find our members on the rolls of Cwens, Mortar Board, Omicron Nu, S.G.A., Delta Omicron, and Kappa Epsilon. From this you can understand why our national organization recognized us with an achievement cup for accomplishments on campus in the past two years.

Social events include our formal, Founder's Day Banquet, Pledge Tea, and Mother's Club. As our local philanthropy, we visit the old folks home in Dadeville.

A.O. Pi was founded on January 2, 1897, at Bernard College, New York. Red and white was adopted as our colors and the red rose as our flower. The local chapter was founded in 1946, and the present officers are Barbara Saunders, President; Pat Sweet, 1st Vice-President; Judi Smith, 2nd Vice-President; Judy Mollay, Recording Secretary; Pat Craddock, Corresponding Secretary; and Carolyn Sellers, Treasurer.

The Owls have it! Our chapter won the OTS Treasure Hunt, WRA Basketball Championship, second place in Sphinx Sing, WRA participation trophy, and found time to place fourth in scholarship for the year. Our members collected a few sweetheart trophies thanks to Peggy, Nancy, Mary Helen, and Katie. The best Owl is Miss Auburn, Sandra O'Kelley. She was chosen for Who's Who and as a Senior personality. The Army also favored Sandra by selecting her as Miss Fort Benning. Campus elections chose Glenda as Vice-President of the School of Home Economics. Cwens tapped Pat and Chris. Glenda and Ann spent "some" time working as section editors on this GLOM—if not satisfied, call them. We will never be without music and song since the pledges surprised us with a "small" stereo set at Christmas.

Social events were launched in the Fall by a pledge tea, followed by a homecoming tea. The year was climaxed by a White Carnation Formal, Spring Quarter.

Chi Omega began making history in 1895 at the University of Arkansas, in Fayetteville, Arkansas. She was founded at Auburn in 1923 as Alpha Beta Chapter. The white carnation is our flower, and cardinal and straw are our colors. Officers are Joy Smith, President; Rebecca Wetmer, Vice-President; Glenda Plunkett, Secretary; Catherine Brazelton, Treasurer.

"Don't try the others, Tri-Delt!" That's our battle cry. Successful too, say during rush, for getting dates, and just anywhere on campus. We're the only girls that go equipped on dates with our own moon and a trident to keep the boys attentive at all cost. Proud? I should say so! Look who's out in front of the Auburn Knights. Why it's our vocalist, Toni! Boo and Merle do their part to help the Auburn Players.

Speaking of honors, Harriet's in Alpha Lambda Delta, Molly's Treasurer of Mortar Board, and Mary Ann attends Delta Omicron and Cwens meetings.

Thanksgiving eve is an important date for Tri Delta, because this is when we were founded in 1883 on the Boston University Campus. Silver, gold, and blue were adopted as the colors, and the pansy as the flower. We came to the Auburn Campus in 1954. At the head of our group is Molly Earnest. Alice Prather is second in command. Mary Ann Hargett keeps the records, and Tootsie Foy, the funds.

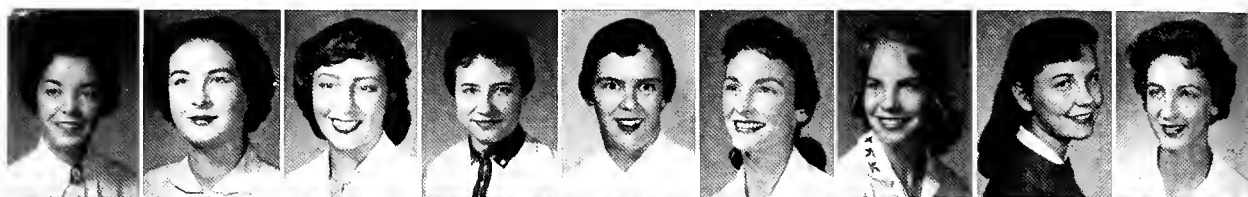

Alice Prather, Vice President; Molly Earnest, President.

The Aladdin Lamps burned late in Harper Hall as the girls of Beta Xi put their heads together to plan another year for DZ on the Auburn Campus. Results—our candidate, Rex Frederick, won A Phi O's "Ugliest Man on Campus" Award. Sandy out-smiled all the other candidates and was elected Miss Homecoming. Barbara Meshad got her wings and became a member of Angel Flight. Also marching was Barbara Robinson, our majorette. Sandra Stacy's picture appeared as a Calendar Girl and as Miss Auburn Engineer. Mortar Board tapped Jo Ann and Linda. Other members found their way into Cwens, W.S.G.A., Alpha Lambda Delta, and Who's Who.

We'll never forget our annual hayride Fall Quarter (almost rained out this year, but not quite!). Also, during the fall, Mom and Dad were honored with a special weekend. Then came our Christmas Party for the needy, and in the spring, a dinner dance.

Miami University, Oxford, Ohio, was the site of the founding in 1902. Beta Xi was founded in 1940. Old Rose and Vieux Green are the colors with Killarney Rose, the flower. Diane Shepard serves the chapter as President; other officers are Sandra Stacy, 1st Vice-President; Joan Cason, 2nd Vice-President; Ann Joiner, Recording Secretary; Olivia Kinig, Corresponding Secretary; Judy Farkas, Treasurer.

Success—the only alternative when we launched our kites only four years ago above the loveliest plains. Organized! That very first year the volleyball trophy was captured and hasn't been relinquished! Next we adopted scholarship as our project and—the scholarship improvement trophy became ours.

Other honors came—Harriet was tapped for Mortar Board and Who's Who; Alpha Lambda Delta chose Margie and Carol; Barrye "stole the show" with her lead in "The Boy Friend"; Tharpe marches with Angel Flight. You'll find Annette in Omicron Nu and Mortar Board.

Going, going, gone—that's the cry heard at our annual Slave Auction held each fall to raise money for the All Campus Fund Drive. Our slaves are hard workers, so bids run high. They get practice cooking spaghetti suppers for the chapter each month.

Members also enjoy their traditional formal weekend.

Gamma Omega Chapter was founded at Auburn in 1956. Theta had its beginning in 1870 at De Pauw University and since that time has grown to become an outstanding national sorority. Black and gold were chosen as the colors and the flower, a pansy, of matching colors.

Leading the group is Annette Nall, President; Harriet Hollifield, Vice-President; Genette Whatley, Secretary; Olga Hamilton, Treasurer.

"Perfect young ladies are we!" (Quite a job!) Where to begin? At the top of course . . . Janice furnished the spirit, Jill, the beauty, and Mary Ruth, the brains. Put together we came out with Cele as Vice-President of the School of Chemistry (We had lots of other girls running in elections—but not quite fast enough!); second in campus scholarship with the pledge class winning first among the other pledge classes; Missey introduced a feminine word to the Senate; Callie swam to the Presidency of the Dolphin Club. Honoraries nodded our way when they chose Madeline and Linda for Cwens, Judy for Alpha Lambda Delta, Jane for Rho Chi, and Mary Ruth for Mortar Board. Carol succeeded herself as Sweetheart of SAE. Our marching force consists of Liz as Army Engineers Sponsor, and Carol, Kathleen, and Eleanor in Angel Flight. Ruth was chosen TKE Sweetheart, and several others as favorites, etc.

We were honored by national for top magazine sales, our national project, and honorable mention for scholarship and merit.

Kappa Delta pioneered the way for other sororities at the Loveliest Village. She arrived in 1922 only twenty-five years after her national founding in 1897. The White Rose, olive green, and white mean a lot to Kappa Delta.

Carol Covey serves the chapter as President; Molly Sarver, Vice-President; Jane Lowry, Secretary; Joy Patterson, Treasurer.

Just look around campus and who do you see: Carol and Betty in Angel Flight; Miriam and Carol, GLOMERATA beauties. Who's Who? Judi, Gail, and Eva Mae, that's who; now what's what—senior senator, Mortar Board, and President of the School of Education, Cwens, and Alpha Lambda Delta, that's what. You'll find Nancy leading cheers in Cliff Hare Stadium with Gail helping sometimes. We're athletic too—last year we won first in Co-Rec Volleyball and second in Basketball.

The highlight of our social year is a breakfast with the Alpha Gams, and then there's a formal weekend and a Christmas party, not to mention the Greek Socials.

We build floats too—remember Village Fair? Missed on the bulldog this time, but just you wait until next year.

Last, but of course the most important to any gal, is that the boys rather like our Phi Mu grin; consequently, we have our share of fraternity sweethearts, pinnings, and such.

Wesleyan College, Macon, Georgia, was the campus on which Phi Mu was founded in 1852. Rose and white were recognized as the colors, and the enchantress carnation became the flower.

Serving Alpha Mu Chapter as President is Betty Glenn; Vice-President, Gayle Jones; Recording Secretary, Linda Mitchell; Corresponding Secretary, Ann Woodall; Treasurer, Judi Buchanan.

During our short sojourn at Auburn, we Golden Arrow girls have grown and grown and . . . We now have a voice in Dolphin Club, Omicron Nu, Alpha Lambda Delta, Cwens, Pi Mu Epsilon, and Delta Omicron.

Charlotte looked as pretty as she could at the ODK-GLOMERATA Beauty Ball. Maybe that's why she's in the beauty section. Miss Pat "Sadie Hawkins" Henley and Tennis Champion, Margie Dixon, are also in the ranks of the Pi Phi house. Spring Show couldn't help but be a success with Joy Quinn as assistant director.

If you are ever in the Smokies, drop in on our Pi Beta Phi Settlement School at Gatlinburg. We sponsor the school as our national philanthropy. Locally, we make needy children around Auburn happy at Christmas time with gifts of toys.

Remember all the excitement whenever we found a candle burning in the hall?

We have the distinction of being the first national fraternity established for college women. Pi Beta Phi was founded on April 28, 1876, at Monmouth College, Monmouth, Illinois. Pi Phi Gamma appeared on the Auburn campus in 1956. The colors are wine and silver-blue with a corresponding wine carnation as our flower. Officers serving are: President, Janice Saur; Vice-President, Chris Barrett; Secretary, Ruth Fuqua; Corresponding Secretary, Laurel Spurlin; and Treasurer, Linda Rowe.

Zeta Tau Alpha Fraternity—not sorority—but no boys are allowed. We are a “girls fraternity,” at least that’s what our charter states.

Service—that’s most important in our books. We support a program against cerebral palsy with a foundation fund and publicity on the subject. And then there’s the scholarship we offer for education majors.

“Bulldogs Built!” If interested, contact—well, any of us will do, we’re all good. Qualifications?—Our trophies for first place in “Burn the Bulldog Contest.”

Socially, we sponsor a White Violet Formal, our Zeta Mother’s Weekend, and Zeta State Day.

On campus you’ll find our members in A.A.U.W., Mortar Board, A.C.S. (where incidentally we have the president, secretary, and treasurer), and Cwens. You’ll find Gay on the favorite’s page and she was one of the “Loveliest of the Plains.”

Zeta was founded at Longwood College, Farmville, Virginia, on October 15, 1902, as a fraternity, a legal corporation by the State of Virginia. Colors adopted were steel gray and turquoise blue, and the flower, the white violet. Gamma Rho Chapter was founded in 1951. Officers serving this year are Judy Gaertner, President; Shirley Lewis, Vice-President; Margaret Lang, Recording Secretary; Ann Simmons, Treasurer.

Judy Gaetner, President; Shirley Lewis, Vice President.

GAMMA RHO CHAPTER

INTERFRATERNITY COUNCIL

Auburn's I.F.C. ranks as one of the foremost of the nation. Activities diverge into three phases: service to the school, service to the community, and service to the member fraternities. Numerous honors have been bestowed on the I.F.C. for outstanding achievements.

The I.F.C. controls rush week, supports a foreign child through the Foster Parents Plan, awards trophies for intramural sport winners, promotes scholarship, and supports a foreign student in school. Each freshman receives a book entitled "Your Guide to Efficient Study" which is published by I.F.C. They also award trophies

for high scholarship and one for the greatest improvement.

I.F.C. together with Pan-hellenic, in February, sponsors Greek Week. The event is dedicated to furthering the ideals and principles for which Greeks stand. The 23 members join in an effort to exhibit, to the school and to the public, the services, purposes, and ideals which Greeks accomplish and uphold.

The I.F.C. is the law-making body of the member fraternities. It regulates activities and promotes well-being. Elected officers are president, vice-president, and secretary, and treasurer. Each fraternity is represented by one member.

At Claypool Hotel, Indianapolis, Indiana, in April, 1908, Alpha Gamma Rho came into being. In the same month, eleven short years later, Xi became our War Eagle chapter. Since this time the Alpha Gamma Rho's have played a big part in our agriculture school. This year they have the president and treasurer of the School of Agriculture. Every year they award a scholarship trophy to the outstanding freshman agricultural student.

Clinton Hardin is the big wheel, followed by spokes, Charles Cobb and Robert Langston. Don Cannerday handles the cash, while Dave Huxford calls roll and Alvin Bigger pushes a pen. Miss Mittie Gates keeps them all in line.

Besides agricultural activities, they are active in sports, politics (a sophomore senator), and participate in 8 campus honoraries. The Widget party and the Pink Rose formal show that the Alpha Gamma Rho's are active socially.

Just wait until the remodeling job is completed!

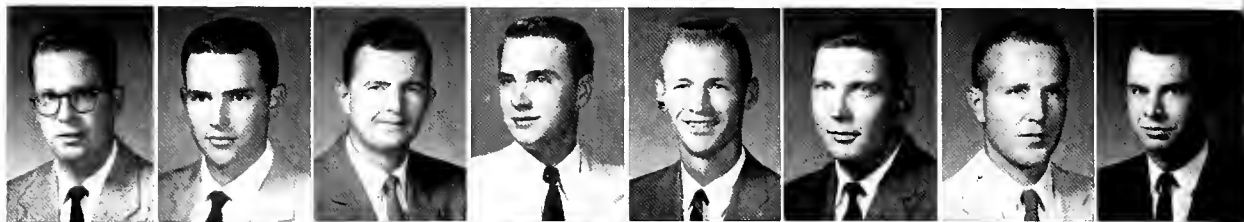

Chuck Cobb, John C. Hardin, H. M. Mrs. Mittie Gates.

Omega of Alpha Psi is one of seven national chapters with 120 members in the local branch. Since the Auburn founding in 1912, five years after their national founding at Ohio State, they have been very close to the top in scholarship on the campus.

They are a professional fraternity and were organized to create a greater interest in veterinary medicine, and to establish a stronger bond between veterinary medicine schools.

They have the president and vice-president of the School of Veterinary Medicine, a fifth year senator, and members in Spades, ODK, and Who's Who. Their social calendar is highlighted by the Beatnik party and the Cowboy and Indian party.

Head surgeon is H. B. Smith, his assistants are Jim Neville and Ricky Becker. Their housemother is Mrs. Blount Trammell.

"No north, no south, no east, no west, but one great nation heaven blessed."

With this goal in mind, three ex-Confederate soldiers, attending V.M.I. shortly after the war, founded Alpha Tau Omega.

The "Taus" became Auburn's third fraternity with the chartering of Alpha Epsilon in December 1879. Since this time they have played an active part in campus activities. Presently, they are represented in Blue Key, ODK, Squires, the GLOMERATA staff, and Arnold Air Society.

Not only are they active in politics, but also they have a sporting heart; the second place "all sports trophy" is their evidence.

Scoutmaster, Dave Crosland, is their fearless leader, followed by Charlie Davis, Wayne Posey, and Jim Davis. At chapter meeting Toby Savage, Frank Lockridge, and Buddy Adams are able assistants.

Up in the ivy league in 1890 Delta Chi was founded. Sixty-one years later, they came to Auburn. Delta Chi is one of the younger fraternities on campus. Despite their late start they have attained a high position in campus activities.

The Delta Chi house proudly sports many trophies being taken in sports and other competitions. Members represent the fraternity in Squires, ODK, and Who's Who.

The boys on West Glenn have their share of parties—starting with football week-ends in the fall and climaxing with the Florida house-party in the spring. Their finest social event is the White Carnation ball.

Lewis Byrd, Buster Smith, and Lance Hearn govern the chapter. The housemother is Mrs. Mary Webster.

Kappa is the third oldest Delta Sigma Phi chapter, being founded at Auburn in 1908. This is only nine years after their national birth at City College, New York. Delta Sigma Phi now has 90 active chapters.

Presently, Kappa has 40 members. These 40 are governed by Ronny Taylor, Dennis Turner, Joe Tuggle, and Don Sansing. Mrs. Helen Drawbaugh looks over the whole lodge. Auburn's Delta Sigs have always been excellent debaters, and last year placed first in the debate contest. Members are represented in all phases of campus activities, sports and politics.

Also socially inclined, the Delta Sigs have a good time all year round—highlights are: the French Party, Shipwreck Ball, and the White Carnation Ball.

Bethany College, Virginia, in 1859 was the scene for the founding of DTD. Since then the Delts have grown to 88 active chapters, one of which is Auburn's Epsilon Alpha.

The purple, white, and gold represent one of Auburn's younger fraternities. Nevertheless, they rank high in campus activities. The Delts are represented in ODK, Blue Key, and Spades. Although they took home no hardware, they had a fine football team this year.

Delta Shelter has been the setting for many social events, this may be verified by some of their parties—Polynesian, Roaring Twenties, and Delta Carlo.

Mrs. Miriam Carroll is their housemother. She is assisted by Dewitt Burns and Kenneth Stephens.

This past summer, we recognized a new colony on our campus—Delta Upsilon. With the reputation they maintain on the national level, we are expecting big things from them.

Delta Upsilon was organized at William's College, Williamstown, Massachusetts in 1834. With 80 national charters they are now shooting for 81. Auburn's I.F.C. accepted their petition for colonization fall quarter, 1959. After a period of time we hope they will become one of our campus fraternities.

To the people who know them they have brought sincere hospitality and warm friendship. We are grateful for the honor of their presence.

Their officers for this year are Deward Sisson, President; Fred Richmond, Vice President. The housemother is Mrs. Olive Gunnison.

A group of "Rebels" in 1865 formed an organization to keep the spirit of the old south alive. They took the name of Kappa Alpha Order and spread like fire under the Mason-Dixon line. They planted the Confederate flag at Auburn in 1883.

KA's are always in the thick of campus activities. They are represented now in Squires, Spades, and ODK. The President of the I.F.C. and the Treasurer of the Student Body are among their ranks. Always a stalwart team on the athletic field, they finish close to the top every time.

"Old South Ball" is the biggest social event held by the KA's. The commanding officer in charge is Bill Johnson; his subordinates are: Jimbo Rogers and Sam Ligon. Mustn't forget the belle of the ball, Mrs. Lilly Carter.

In December 1869, at the University of Virginia in Charlottesville, Kappa Sigma Fraternity was born. With the lily of the valley and colors of scarlet, green and white, they began a journey which stopped through the plains in January, 1900. Auburn's Beta Eta is now one of 132 national chapters.

It seems that the Kappa Sigs are musically inclined. They won Sphinx Sing this year and, as a matter of fact, they have taken home first place for the past 7 out of 8 years. Don't underrate them on the athletic field, though they have no glowing victory, they are always in the running and remain a constant threat. With all their many talents and activities, they still find time for campus politics.

Mrs. J. P. McLaughlin, housemother, is helped by the front man Paul Kolb who is backed by Don Watkins, Bill Owen, Richard Joiner, and Jay Grandy.

This year marks the Golden Anniversary for the Lambda Chi's. November 2, 50 years ago, they were founded at Boston University. Six short years after the national founding, Omega Zeta was chartered here. They became one of 153 national chapters.

In the tropical atmosphere of their house, Boyd Cobb reigns supreme. He is assisted by Jim McGinnis, Bob McLaurin, and Tom Lynch. Mrs. Clara McClendon, who incidentally was elected best LXA housemother last year, also has a bit to say in the chapter organization.

Lambda Chi's are active in all phases of campus activities. Last year they won first place in Skit Night competition and second in Sphinx Sing.

OTS holds a unique achievement among the Auburn Greeks. The fraternity has held the highest scholastic average on campus for the past eight consecutive years. With this record one would expect to see the "midnight oil" burning constantly at the OTS house, but this is not the case—the Treasure Hunt and Homecoming Jubilee prove that the fraternity is popping socially.

In 1906, OTS was founded at the University of Pennsylvania as an organization dedicated to the advancement of veterinary medicine, through brotherhood and professionalism. In 1940, Zeta chapter was at Auburn to become one of eight national chapters.

Zeta is a proud example of OTS. Members are active in all phases of campus life. Mrs. Minnie Hamil looks over the animal doctors. Bob Crow is the "Big Dog" with Ed Franklin, Dick Featherston, and H. P. Thrasher as his able assistants.

Alabama Beta was founded in 1879, 31 years after their national formation at Miami University (Ohio).

Now, the Phi's occupy a high position in campus activities. This year they started off with a very successful rush and consequently a good pledge class. They copped the presidency of the School of Architecture and the School of Science and Literature. They are represented in Blue Key and have a member in the student body cabinet. It's rumored that brother Zeke Smith is quite a good football player.

They have been known to have exciting parties—such as the Bowery Ball and the Roman Party. The chapter is in good hands under the leadership of Mrs. William Bradford, housemother. Glenn Northcutt and Happy Myers keep things running in smooth order.

On March 17, 1906, Phi Kappa Tau was founded at Miami University (Ohio). Twenty-one years later they came to Auburn with Alpha Lambda.

The Phi Tau's are always out on the athletic field trying to win the intramural sports trophy, or taking part in the student union functions.

The Phi Tau's can always be spotted at football games by their traditional red and gold caps. The red and gold is prominent at their parties also.

They are led by Haywood Gay, Bill Culver, and Steve McCutcheon. Their housemother is Mrs. Jean Thomley, better known as "Momma Jean."

Pi Kappa Alpha had its beginning at the University of Virginia in March, 1868. While sowing chapters over the country-side, Upsilon was planted on the Auburn plains. One hundred and seventeen strong, they are the largest social fraternity on the campus. "Pikes" are always contributing time to different campus activities. Currently, there are two members in Spades and an equal number in Squires. PiKA took home the all-sports trophy captured first in homecoming decorations.

Every fall the Plainsmen Pikes have their big blast, the Bohemian Brawl, and also a useful party—the Christmas party for underprivileged children.

Mrs. Helen Dixon is their housemother, Kim Kimbrough, president; Henry Averyt, vice president.

"Nothing shall tear us asunder." This was the motto chosen when Pi Kappa Phi was founded in 1904 at the College of Charleston. Twenty-two years later, Alpha Iota came to Auburn.

Since then Alpha Iota has been strong in all campus functions. This year they won the "Wreck Tech" float competition. They are represented in Squires and have as a member the secretary of I.F.C.

The beatnik party was a Pi Kappa Phi original with real imported beatniks. Man, like the highlight of their social world is the Red Rose Formal (that's the reddest rose that grows).

The 50 local members are governed by Jack Cumbee, Charles McDanal, and Mickey Feltus. Their favorite rose is their housemother, Mrs. M. J. Heath.

The long-awaited unveiling of the SAE house has finally taken place. With the help of determined pledges, the woods were cleared and the house can now be seen by all. Of course, this is hard on the lion, he is an easy target in the open.

The first chapter of SAE was founded at another university in this state in 1856. A few years later Alpha Mu was located at Auburn. Since this time the SAE's have made a good name for themselves on our campus. Their members are active in ODK, Spades, and Squires. As usual, they won the intramural swimming meet.

The barnstormers are led by Lewis Cholston and Bobby McCord. The paint scrapers, by Ed Walker and Jack Parker. They are all quietly fostered by Mrs. Margaret Prevost.

The blue and gold arrived on the loveliest village in March 1934, with the founding of Gamma Sigma. Since that time they have paid heed to their motto: "In this sign we conquer," and have done a good job living up to it.

The president of the student body stands in their ranks. They are represented by a member in Squires. Also, they are do-or-die boys on the athletic field.

Mrs. John Peavy, better known as "Mother Dev," is their housemother. She presides over the Derby parties and also seems to enjoy the Florida houseparty quite a bit.

Big "Sig" is George Wilson, ably assisted by John Daniel Reaves. Louis Brown is master of the roll, and Bill Long juggles the books. The pledge class this year is helped to tow the line by lovable pledge trainer, Ed Brinson.

The Beta Thetas won intramural football, the cake race, and softball. They are represented in Arnold Air Society, Blue Key, S.G.A., and have the superintendent of spirit.

Since the founding of Beta Theta in 1890, the chapter has had a similar array of activities. Ask any Dixie Darling about their social attitude. Or better still, look in on their Hobo party or Shipwreck party. The "Snakes" also have a unique party, the Sweetheart Banquet, honoring girls pinned to brothers.

The Black and Gold which came to Auburn is now one of 128 national chapters. The 73 local members are governed by Tommy Whitman, commander; Kenny Schultz, Lt. Commander; Tommy Sims, Recorder. Their housemother is Mrs. Kathryn Raulston.

The snakes have a new cry which can be heard in all corners of the campus: "Wait 'till next Governor's Day."

Having initiated 850 men since November 8, 1907 when they pitched camp on the plains, the 76 members of Alabama Alpha are ranked the fourth SPE chapter in total membership. The national chapter was founded six years prior to this date.

An orderly chapter, of course, with the Secretary of the student body, what else? Don't sell Mrs. James Wallace, their housemother, short on this order. The mothers' and wives' club kinda helps to.

The SPE's marched through their red door this year with a good bit of intramural loot—first place in horse-shoes, and second in their league in basketball, football, and volleyball.

They may have distant plans for a new house, who knows? Possibly a new setting for their Waikiki party, or the Hobo party, or maybe for the Sweetheart Formal.

Phil Sutton is "spe" king; John Steinhauer is his stand-in; Robby Robinson calls roll and George Nash signs requisition orders.

At Vincennes University in Indiana, Sigma Pi was organized in 1897. The 26th day of a very cold February in 1926, they were placed on Auburn's fraternity roll with the chartering of Alpha Delta. Since then they have gained a high position in campus events. They are represented in Who's Who, Spades, Squires, ODK, and Blue Key.

Being strong in politics and sports, they maintain a full trophy case. The old white house has been known to rock with such parties as the Bamboo Switch or South Sea Island party.

Mrs. Carrie Clay, better known as Doll, is their capable housemother. She has some helpful aid from James Yates, and Pete Whidbee.

Since Alpha Lambda Tau fraternity became Beta Lambda of TKE in 1947, a sparkling record has been kept. Beta Lambda is now part of the largest national fraternity consisting of 160 chapters.

The present resembles the past; TKE had the highest scholarship and the most improved scholarship in 1958-59. They don't study all the time—they took second place in 1959 Homecoming decorations.

If you've ever wondered where the fire is at football games, "double check the sidelines" and you'll see the "Tekes" ringing their spirit bell.

"Alma Mater first," with this in mind Theta Chi was founded April 1856 at Norwich University in Norwich, Vermont. April a little later (1918) Chi chapter was founded at Auburn, becoming one of 125 national chapters.

With the red carnation planted on the plains, Theta Chi started a record leading to a present membership of 80. They are represented in politics by a Freshman Senator. They are a big tough match on the athletic field.

They've been known to have a party or two. Good times were had by all at the Christmas party, Florida's houseparty, and the Dream Girl Formal.

The executives are Tom B. Ward, Neal Winters, Doug Glover, and John Rowell.

Theta Xi first appeared on the 29th of April, 1864, at Rensseler Polytechnic Institute in Troy, New York. Beta Zeta was founded on the plains February 25, 1954.

Beta Zeta has been one of Auburn's most progressive younger fraternities by interest and participation in all fields of campus life. They were reserve champions in intramural basketball, and have the president of the Society for the Advancement of Management among the brothers.

Theta Xis have an active social calendar with their Frenchman's Ball, White Carnation Formal, and Florida houseparty.

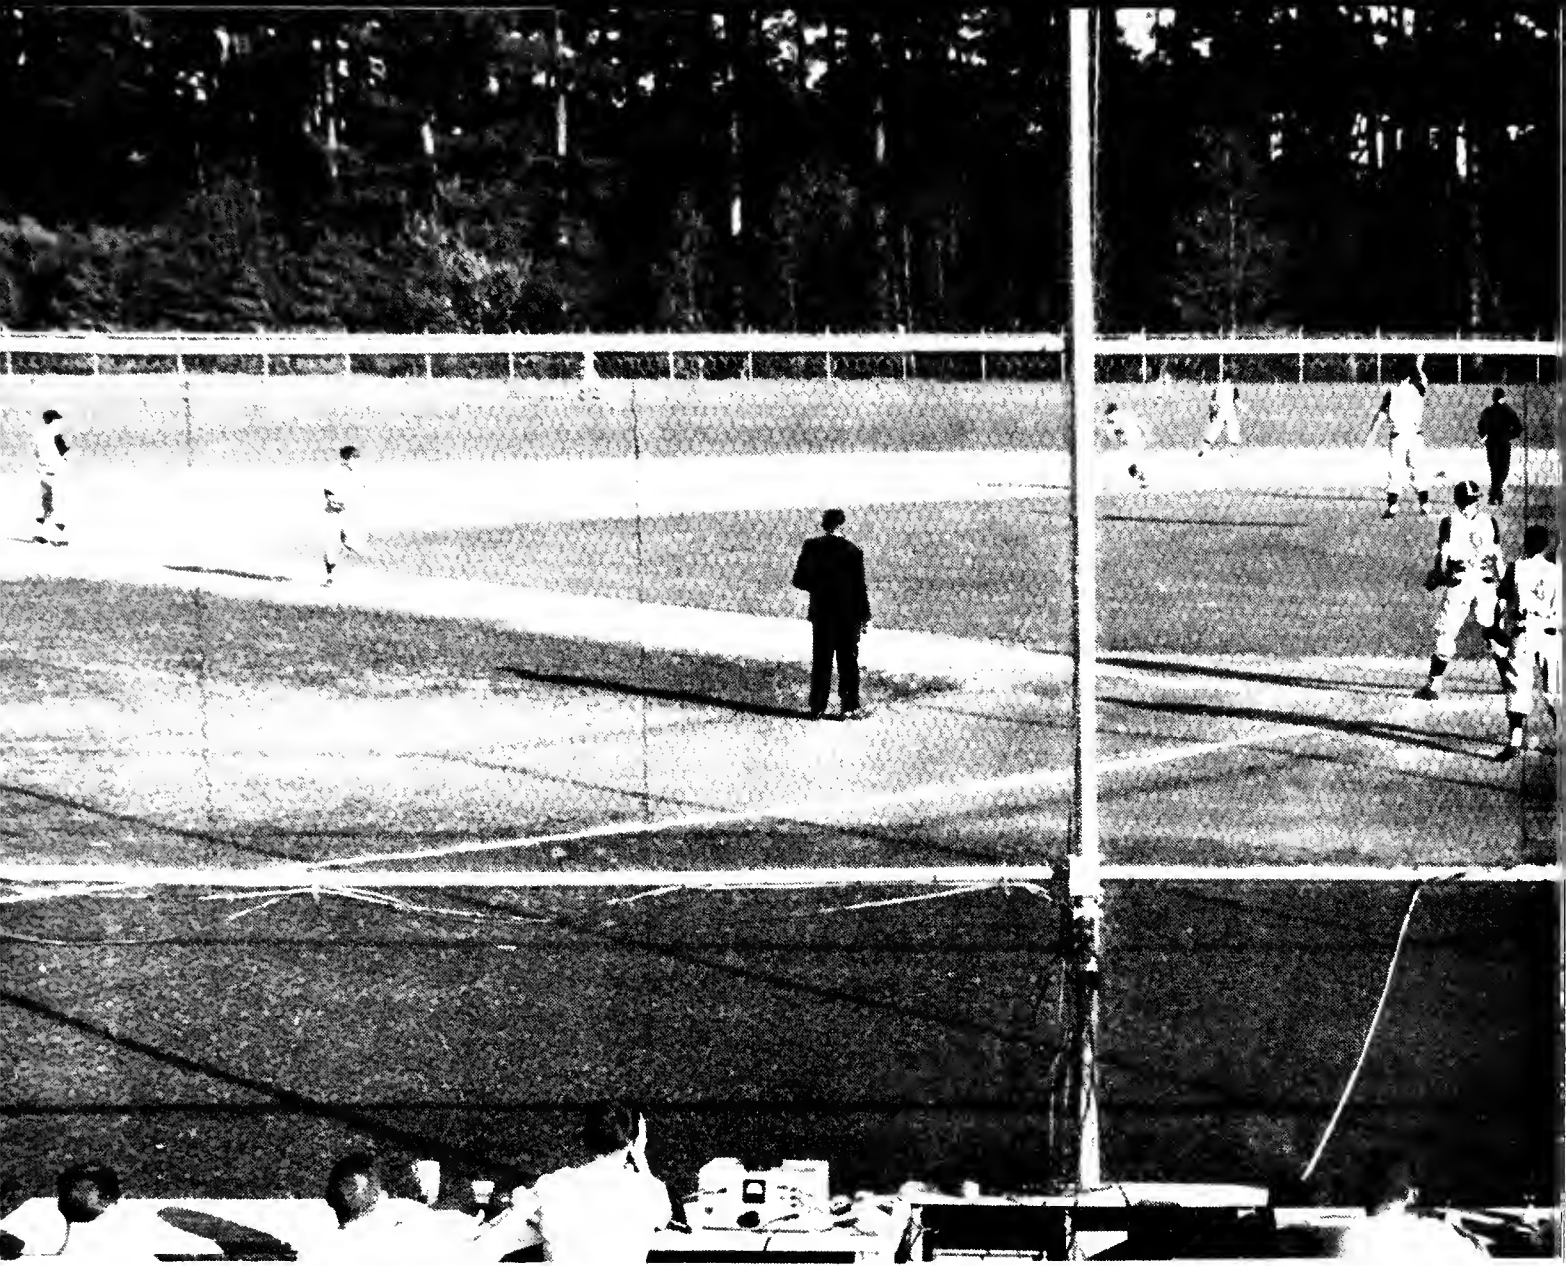

The executive branch is controlled by Lucian Paul, Richard Tingle, and Francis McKinney. Their house-mother is Mrs. Lenice Stuart.

The athletic department at Auburn has again demonstrated a high quality of success in organizing and direction of all sports. To make this statement, it is necessary to go further and give credit to the backbone of the program—the athletic staff.

Every phase of the athletic staff, from coaches to publicity agents, has lived up to the highest expectations.

The athletic department is under the direction of Jeff Beard. Since Beard joined the staff in 1951, athletics at Auburn have improved to become one of the strongest powers in the Southeast. Auburn excels in virtually every sport offered by the school—a fitting tribute to a fine staff.

This year's sports have added more laurels to the already long list. To these men we express our gratitude and appreciation.

AUBURN • 0 TENNESSEE • 3

Tennessee, always an opportunist team, was even more so playing on their own home field in the season's opener as they fought out a hard 3-0 victory. Tailback Billy Majors called a great game and ran and kicked beautifully as the Vols cut Auburn's undefeated string at 24 games. The winning margin was provided on a 9-yard second quarter field goal by end, Cotton Letner.

A deep first period drive took Auburn to the Tennessee 7 yard line where a penalty nullified some line throwing by Tiger quarterback, Richard Wood. An intercepted pass, the first of four by the alert Volunteer defense, started the ball rolling to the Auburn 15 where Tiger end, Bobby Wasden deflected Letner's first attempt at a field goal.

A wild pitchout set up the opportunity for the only score of the game and the first half came to an end with Auburn bottled up in their own territory. Interrupted passes kept the Tigers scoreless in the second half as Tennessee, now thoroughly aroused, fought to save the victory. The running of fullback Ed Dyas was the only bright spot of the day for Auburn.

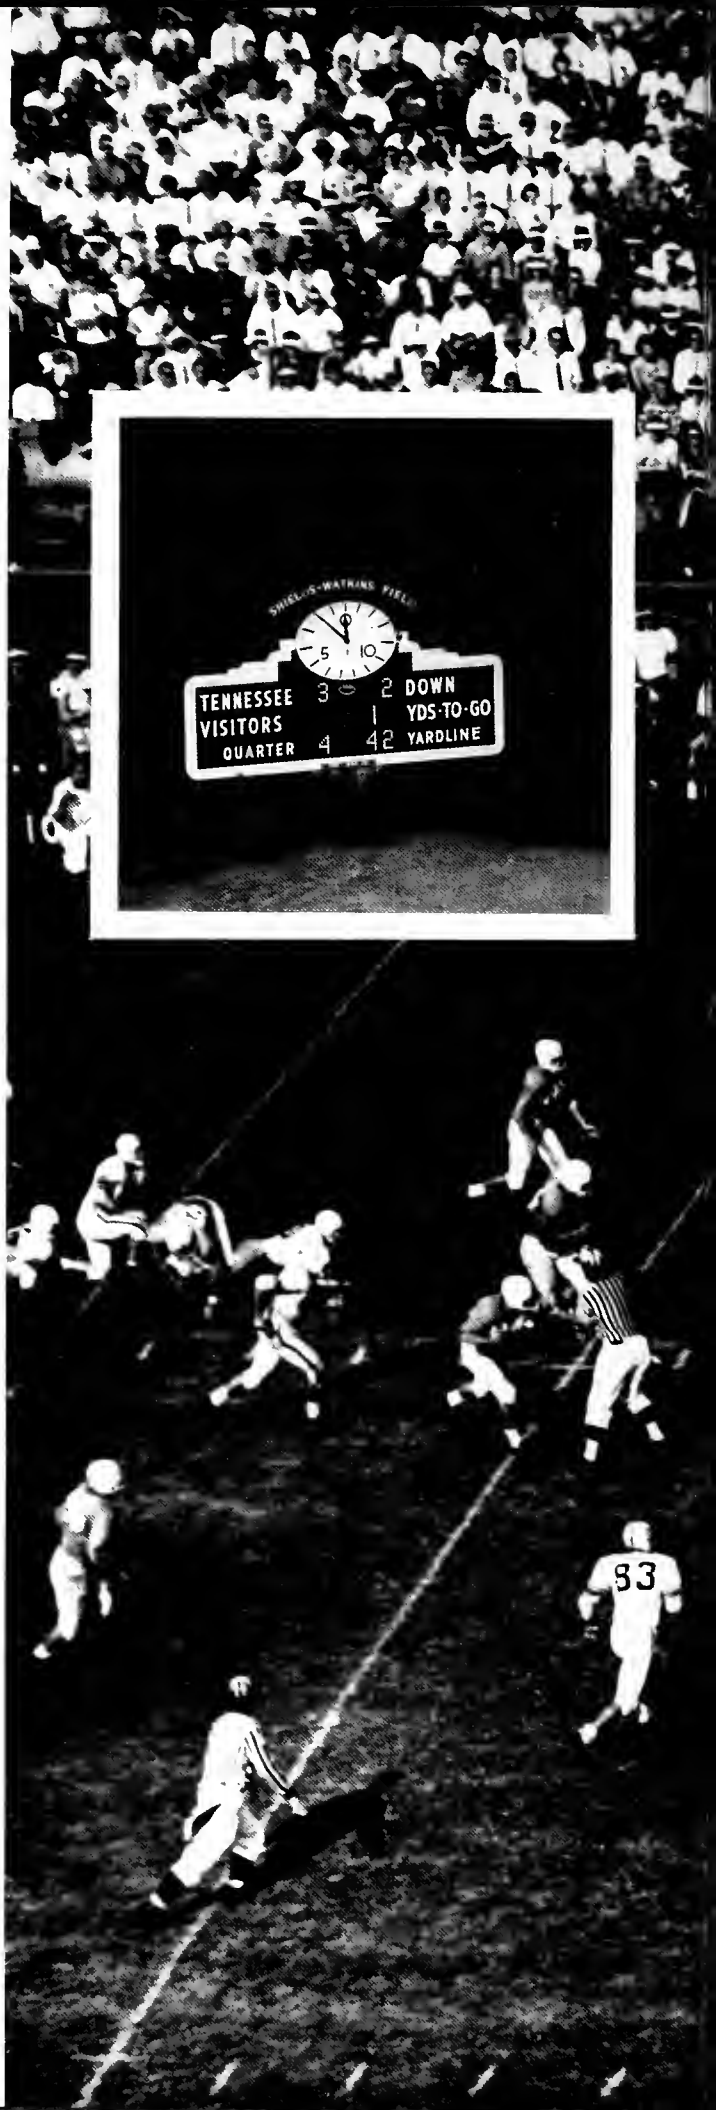

AUBURN • 35 HARDIN-SIMMONS • 12

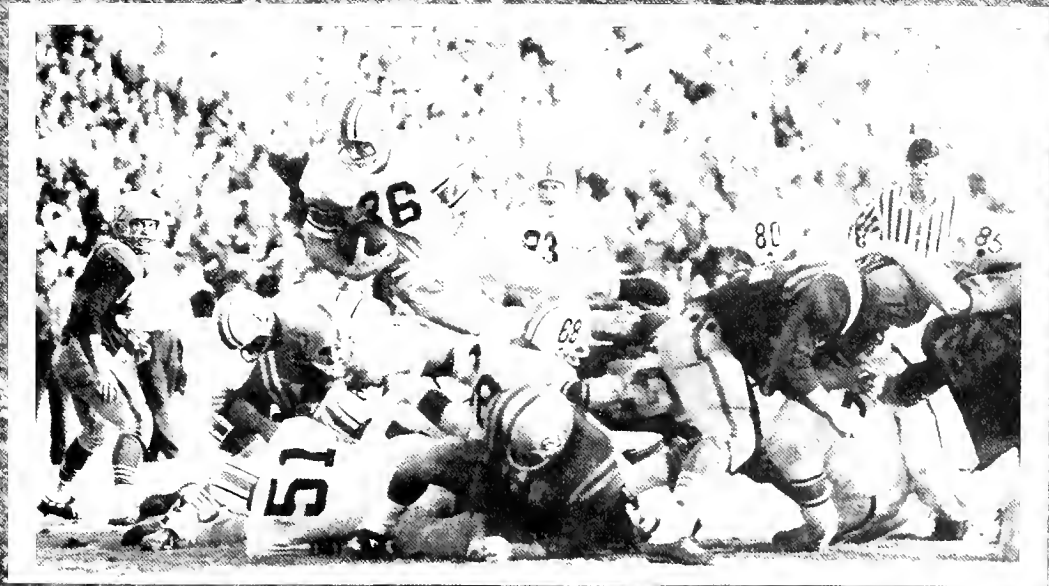

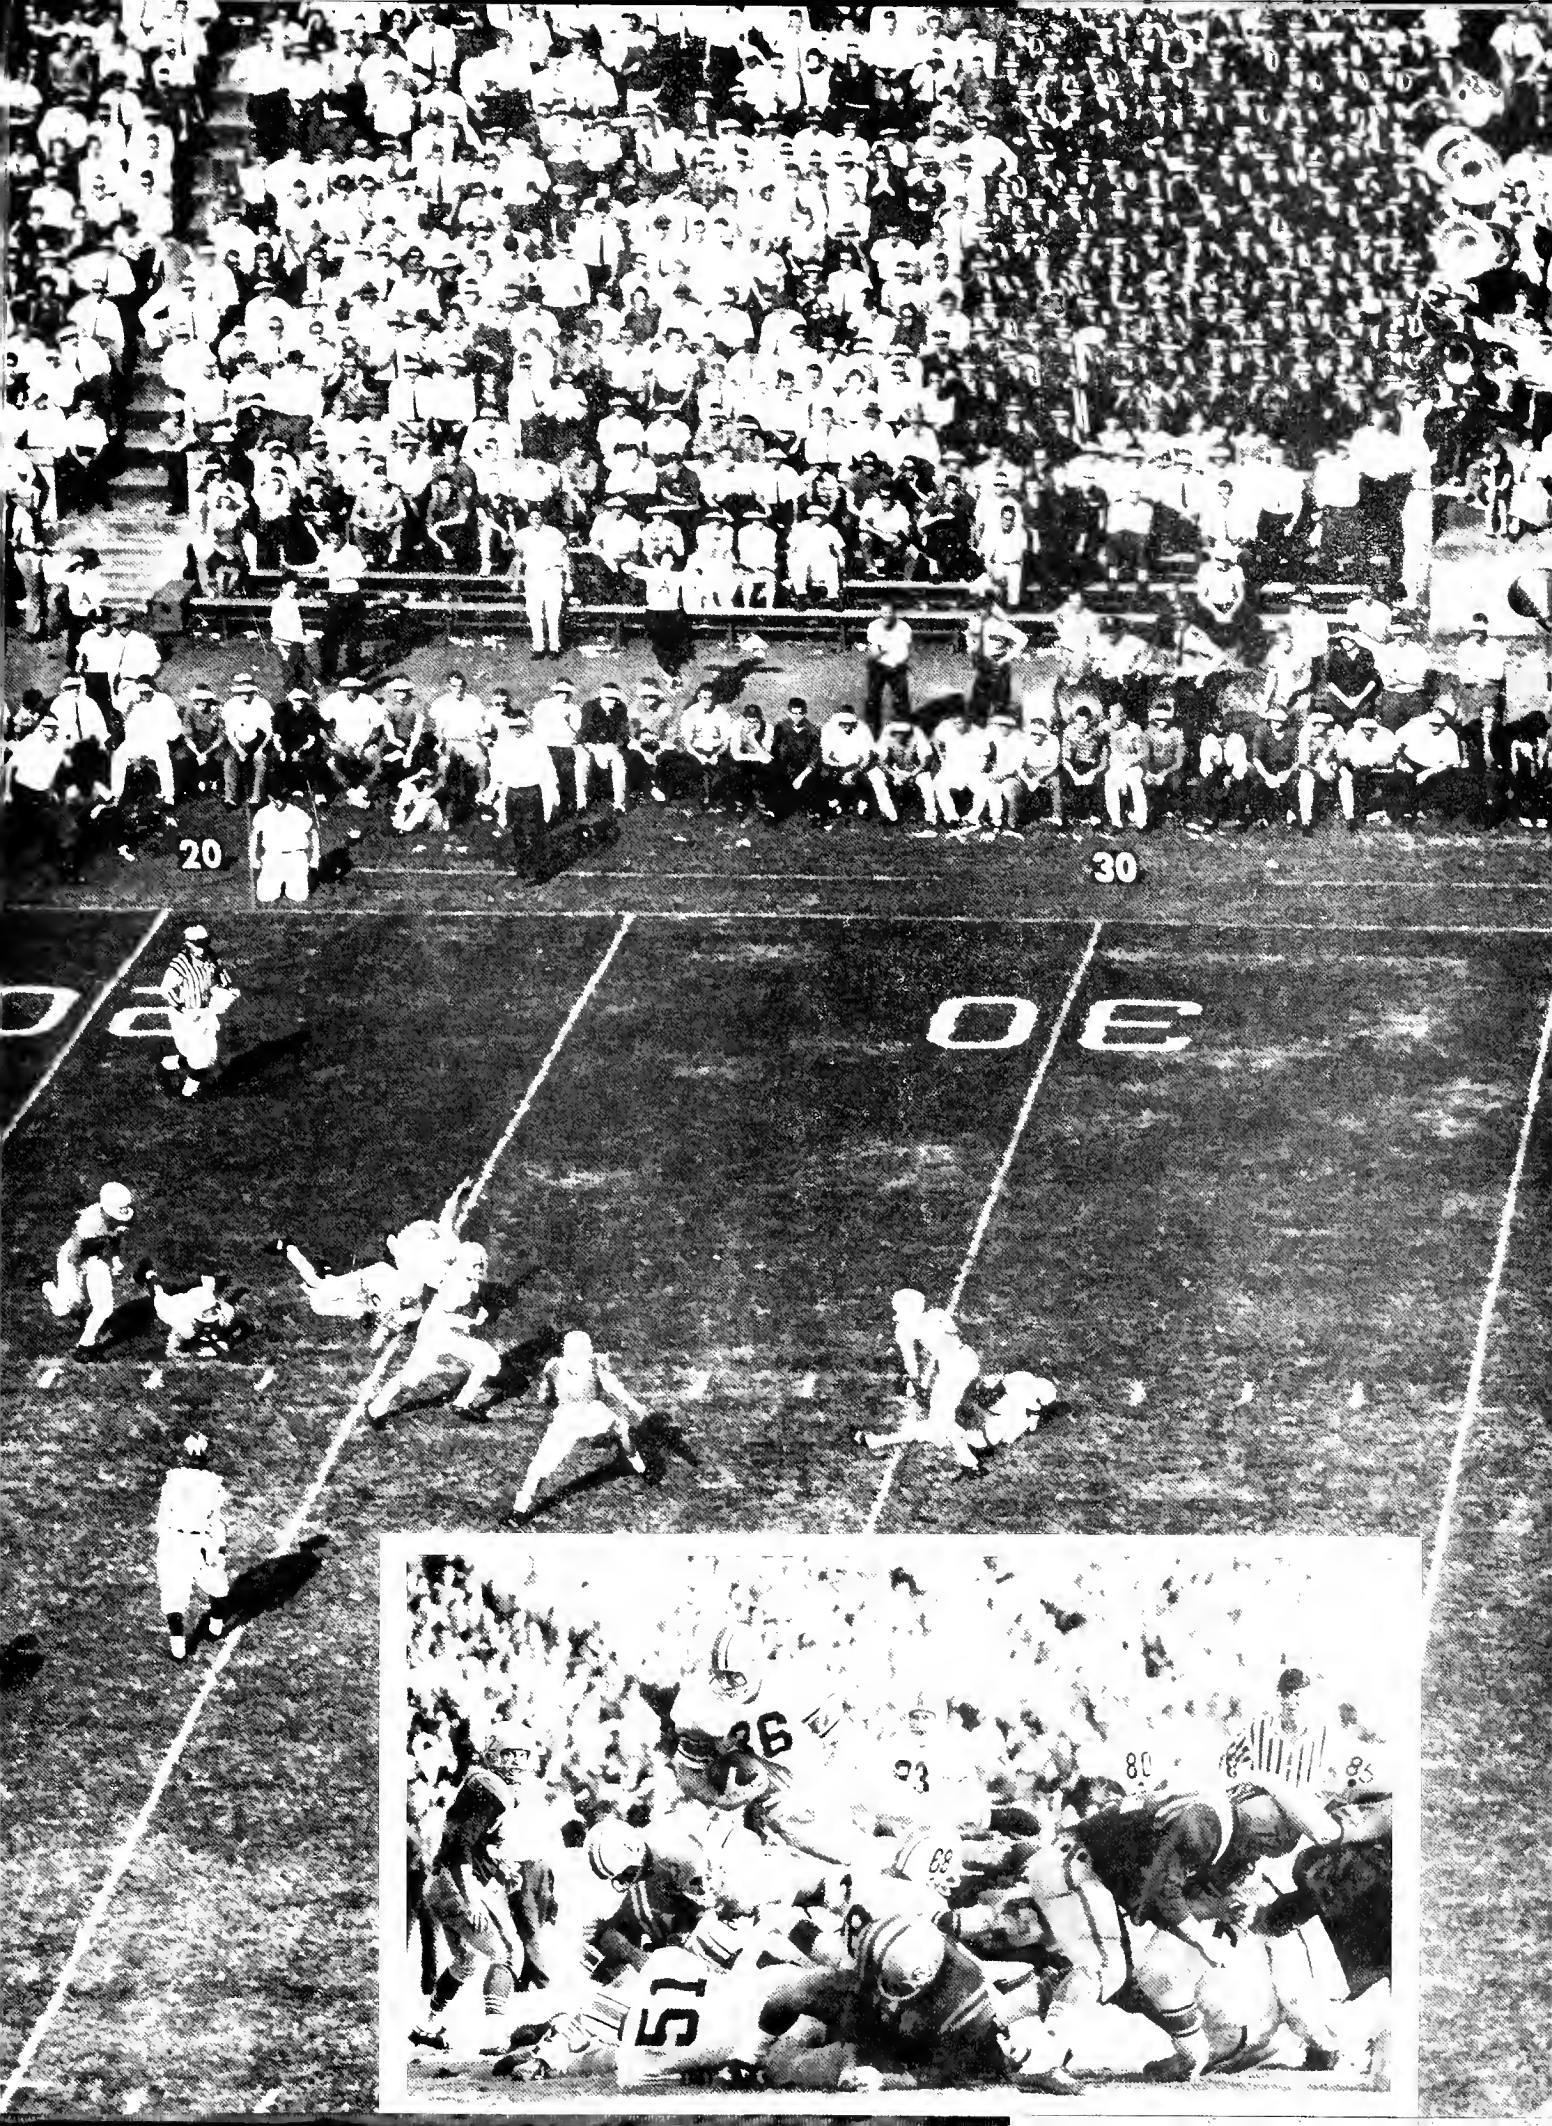

Quarterback Bobby Hunt, a newcomer to the Auburn backfield, and fullback Ed Dyas among others boosted the Plainsmen over an aerial-minded Hardin-Simmons team coached by the great Sammy Baugh. The Tigers had to shake off a third quarter lethargy to strike for their 35-12 win.

A 34-yard dash by Dyas climaxed a 68-yard first period drive that required only 5 plays. It appeared as if the game would be won without a struggle. In the next quarter Johnny Kern gathered in Richard Wood's pass and stepped into the end zone untouched to send the lead to 13-0. Wood set up the third score when he returned an intercepted pass 20 yards to the Cowboys' 21. There another aerial to fullback John McGeever added 7 points as the first half closed.

Defensive lapses let the Cowboys through twice in the third period and it looked for a while as if the Texans would do the impossible and pull it out of the fire. With the gap closed to 7 points, sophomore Hunt directed the Tigers back into the game in the final stanza. Dyas plunged for a tally and McGeever added the final score to complete the rout.

This game marked the emergings of Hunt, McGeever, halfback Don Machen, and tackle Billy Wilson, all sophomores, as outstanding players and future stars.

AUBURN • 33 KENTUCKY • 0

A soggy crowd had hardly filled Cliff Hare Stadium to watch Auburn battle Kentucky before the fireworks began. Halfback Jimmy Pettus gathered in the opening kickoff on the 12 and scampered untouched through the entire Wildcat team for a touchdown. This play broke the game, which was predicted to be a close one, wide open for Auburn.

Before the day was over 4 more touchdowns and a field goal had been added to make it 33-0. The great offense was overshadowed by an even greater defense led by All-Americans Jackie Burkett, Zeke Smith, and Ken Rice.

Ed Dyas' field goal, set up by fine running on the part of Bobby Hunt and Richard Wood's aerial to Joe Leichtnam, put the Tigers in position for Hunt to score again.

In the next quarter Auburn drives were successful by surges on the part of Hunt and Don Machen to provide a momentous 27-0 lead as the teams parted for the half.

Kentucky tried hard late in the game, but couldn't recover as third stringers played the final minutes of the game for Auburn. Capt. Lamar Rawson galloped for the last touchdown on a 30-yard jaunt.

AUBURN • 7 GEORGIA TECH • 6

A new star shone in the Auburn sky after Joe (the Toe) Dolan kicked Georgia Tech off the deep end in another rain soaked struggle on Atlanta's Grant Field. Dolan punted 8 times for a 44.4 yard average and on a wet day; that's good on any field.

A fumble recovery on the Auburn 18 gave Tech a 6-point lead just before the half. Tommy Wells missed his first extra-point attempt of the season.

The Tigers came out after the half with blood in their eyes; Bobby Hunt sent Jimmy Pettus, Lamar Rawson, and Ed Dyas smashing through giant holes opened in the Tech line by Smith, Rice, and Burkett, and covered the last 6 himself for the score. Dyas then kicked the point that kept War Eagles ringing through Atlanta 'till dawn.

G. W. Clapp stopped one Tech drive when he grabbed a fumble on the Auburn 23, but the Tiger fans' nerves were on edge throughout the remainder of the game as the Yellow Jackets fought relentlessly. Two missed field goal attempts by Wells and a torrential downpour added spice to the final minutes.

Burkett and Maxie Baughan fought their private battle for All-American honors which both won. Smith and Rice also were rewarded for their outstanding play.

AUBURN • 21 MIAMI • 6

Auburn struck on the first play of the game and went on to down the Miami Hurricanes in a night game in the spacious Orange Bowl. The score was 21-6.

Bobby Hunt, a brilliant runner, came into his own as a passer and completed a knockout 78-yard Sunday punch to Lamar Rawson just after the opening bell. Miami could never recover from the blow, although the Hurricane's mighty mite, Fran Curci, fought long and hard. For the night Hunt, who prior to this game had completed only 2 passes, hit 6 of 8 for 162 yards and a touchdown.

Three Auburn fumbles and a multitude of penalties, totaling 125 yards, kept the Plainsmen from scoring more than they did and killed a 60-yard punt return by Bryant Harvard. Exchanges of fumbles and a Hunt to Leightnam pass put Auburn in position for another score which Hunt chalked up on a 7-yard carry. Some razzle-dazzle by Curci put Miami 6 points closer after another exchange of fumbles had left the Miamians within striking distance of the goal on the Auburn 29.

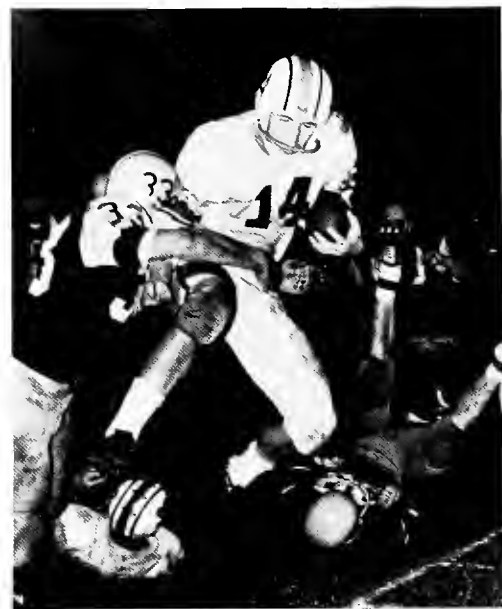

In the third quarter Zeke Smith recovered a fumble which led to a 61-yard drive engineered by Harvard. Ed Dyas chipped in with runs of 18 and 20 yards and Harvard went the last 20 alone to complete the scoring for the day.

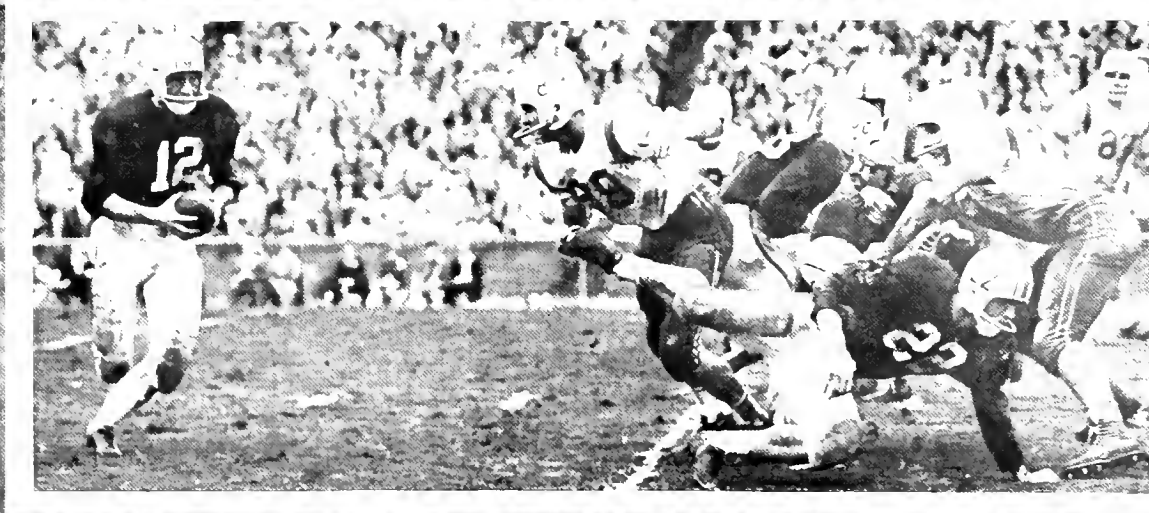

AUBURN • 6 FLORIDA • 0

A "hero a day" backfield came up with the most underrated player in the SEC in the person of Co-Captain Lamar Rawson to save Auburn's 67th homecoming with a 6-0 triumph over the University of Florida. Rawson gained 113 yards during the afternoon and scored the clincher after a recovered fumble had left the Plainsmen 40 yards from paydirt. Defense was most of the show on a dreary afternoon that saw rain right up to game time, but left 35,000 fans looking anxiously at both the sky and the field throughout the contest, Auburn's 24th straight win in Cliff Hare Stadium.

Both teams missed field goal attempts during the first half that showed strong defensive play on the part of both teams. The wet turf increased the effectiveness of Auburn's massive forward wall and cancelled most wide running plays and passing. Zeke Smith, Jackie Burkett, G. W. Clapp, Wayne Frazier, and Ken Rice kept Florida at bay.

The punting of Florida's Bobby Joe Green shoved Auburn deep in their own territory early in the contest and throughout the game. A 70-yard dash from scrimmage by Rawson pulled the Tigers from a tight spot in the opening stanza and took the initiative away from a battling Gator eleven.

AUBURN • 31 MISSISSIPPI STATE • 0

Sophomore Bobby Hunt ran circles in and around a bewildered Mississippi State and scored on runs of 42 and 51 yards as Auburn smashed to a 31-0 victory over the State Maroons. An icy crowd of 38,000 watched in Birmingham's Legion Field as Hunt gained 214 yards in 16 carries, exactly twice the 107 yard total State picked up as a team.

A scoreless first quarter saw a tough Maroon defense hold Auburn on the 6 after a 50-yard march and again on the 4 early in the second period, but Jackie Spencer, a soph Tiger back, rocked State on their heels with a 38-yard punt return all the way for a touchdown. An extra point and a field goal one second before the half gave the Plainsmen a 10-0 lead.

Then Hunt took charge and broke the game wide open with his dazzling runs, many coming when he was apparently trapped while back to pass. Johnny Kern interrupted a State pass and Bryant Harvard marched the second unit to the next score with John McGeever going over for the points. This touchdown was sandwiched in between Hunt's two scoring jaunts through the entire Mississippi team. The line heroes were the same, as Bobby Wasden and Leo Sexton combined with the All-Americans to shut out State's offense.

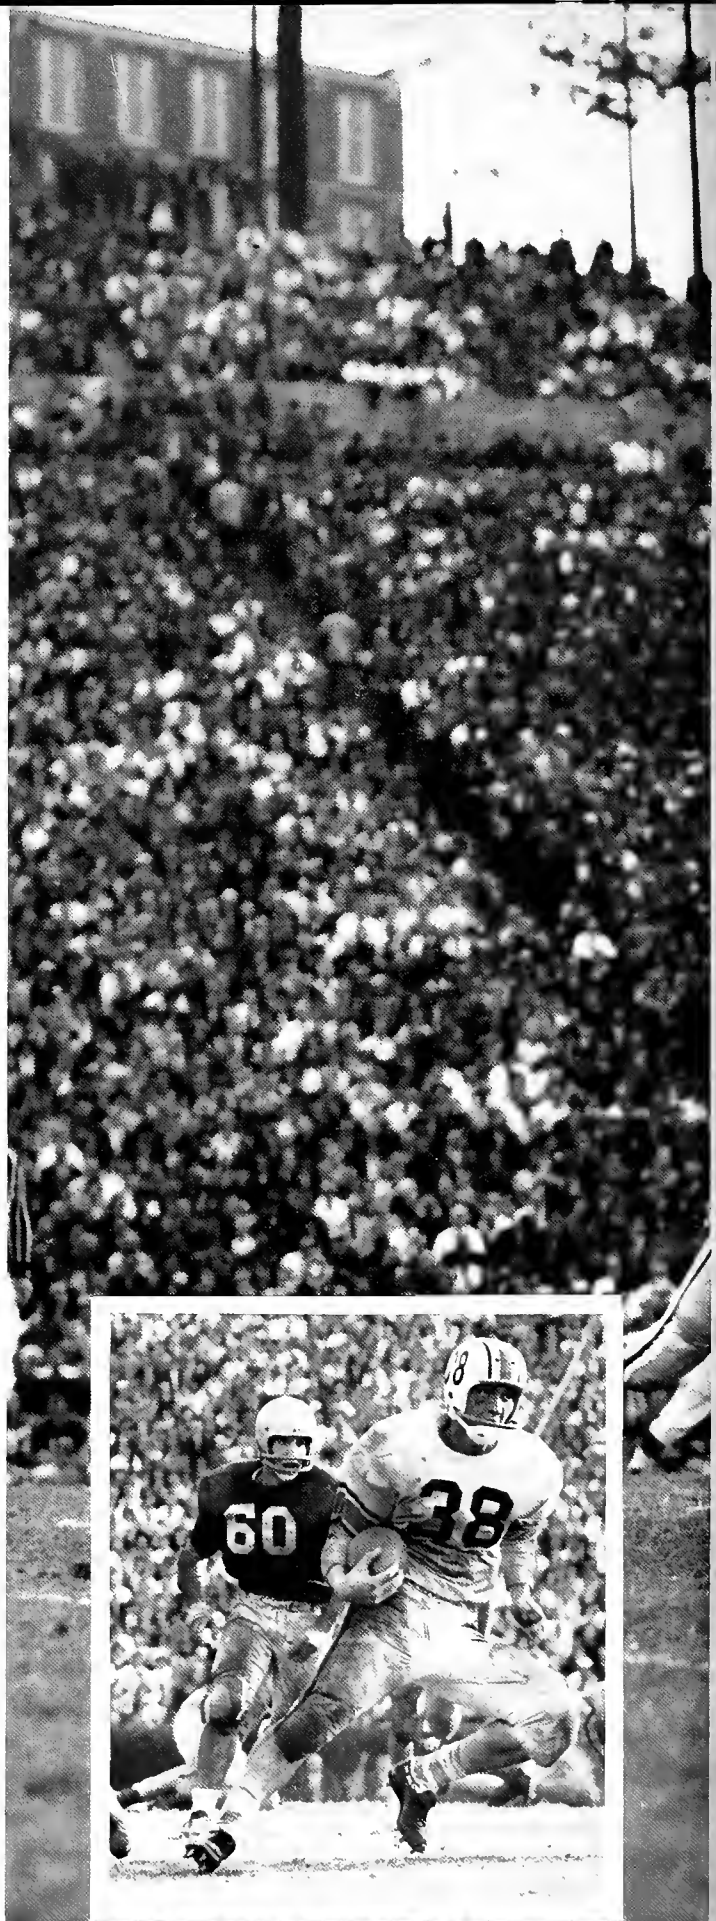

AUBURN • 13 GEORGIA • 14

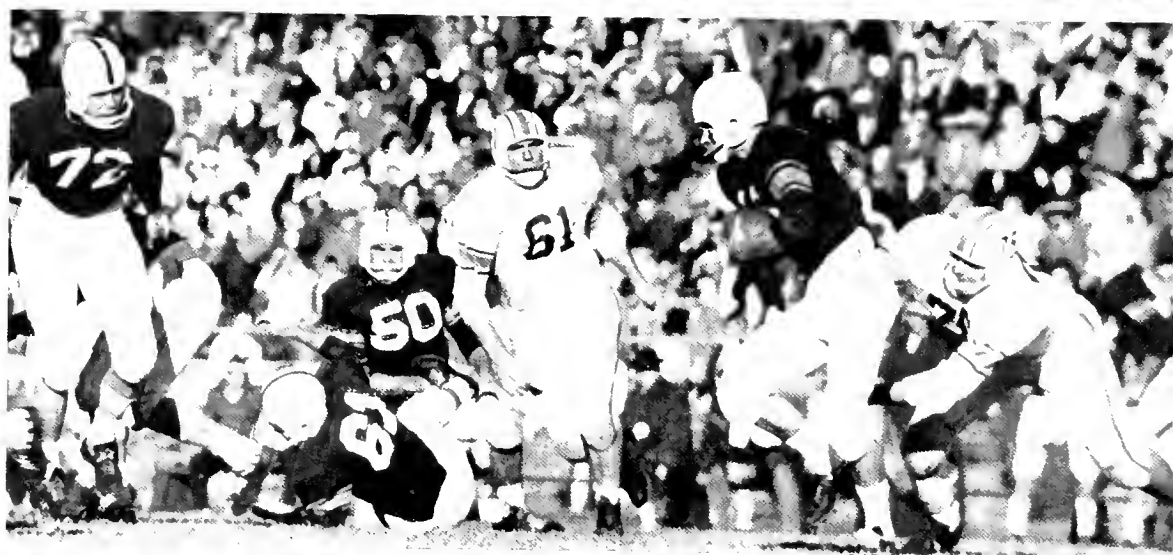

Georgia played their collective hearts out before a record crowd of 57,000 screaming fans and pulled out a wild 14-13 victory over Auburn in the closing seconds, a contest that was to produce the SEC champions.

Two tremendous field goals by Ed Dyas highlighted a first half that saw rugged play by both teams. A holding penalty against Georgia on an Auburn punt gave Dyas range and he booted his first three pointer, a sensational 43-yard kick. End Bobby Wasden set up the second Dyas kick when he covered a fumble on the Bulldog 34. This one went 34 yards.

A beautiful 39-yard punt return by Georgia's Charley Britt swung the pendulum in the other direction in the third quarter as the Bulldogs edged to a 7-6 lead, but a wierd break gave Auburn the ball deep in Georgia territory. Britt was shoved into his own punter and the punt attempt was blocked back to the 2 where end Joe Leichtnam covered it for the Tigers. Bryant Harvard took it over from there and Dyas' kick made it 13-7.

A Harvard fumble after Auburn had stopped a late fourth quarter Georgia drive set the stage for the game-winning play. Francis Tarkenton passed and ran the Bulldogs to the Auburn 15 where the Plainsmen held for three plays. However, the Bulldogs were not to be denied as Tarkenton completed the touchdown pass to Bill Herron with 30 seconds remaining and Durward Pennington kicked the game-winning point. The victory clinched the SEC title for the Georgians.

AUBURN • 28

MISSISSIPPI SOUTHERN • 7

A crowd of 20,000 fans viewed Auburn's 25th consecutive Cliff Hare victory as the Tigers marched over the Southerners from Mississippi Southern for a 28-7 decision.

A costly fumble and a pass interference penalty gave the Southerners an early touchdown, their only threat during the afternoon. The Tigers, aroused at finding themselves behind so quickly, went to work on the Southern defense. Sophomore end Dave Edwards, blocked a Mississippi punt on the 32 and then recovered it on the 6. Bobby Hunt went over and Ed Dyas' placement tied the score at 7-7.

Lanky Richard Wood clicked on 4 consecutive passes to spark a 46-yard drive for the Tiger's second touchdown. Joe Leichtnam took Wood's pass on the goal from the 8 and Dyas' boot made it 14-7.

The Plainsmen took the second half kickoff and marched 80 yards in 14 plays with Hunt and Jimmy Pettus eating up ground along with Dyas and Lamar Rawson to score again.

The final tally came as second and third stringers moved the ball late in the game. Billy Jordan scored this 6-pointer. G. W. Clapp, Dave Edwards, Teddy Foret, Haywood Warrick, Zeke Smith, Bobby Wasden, Ken Rice, and Wayne Frazier were all outstanding defensively.

ALABAMA • 10

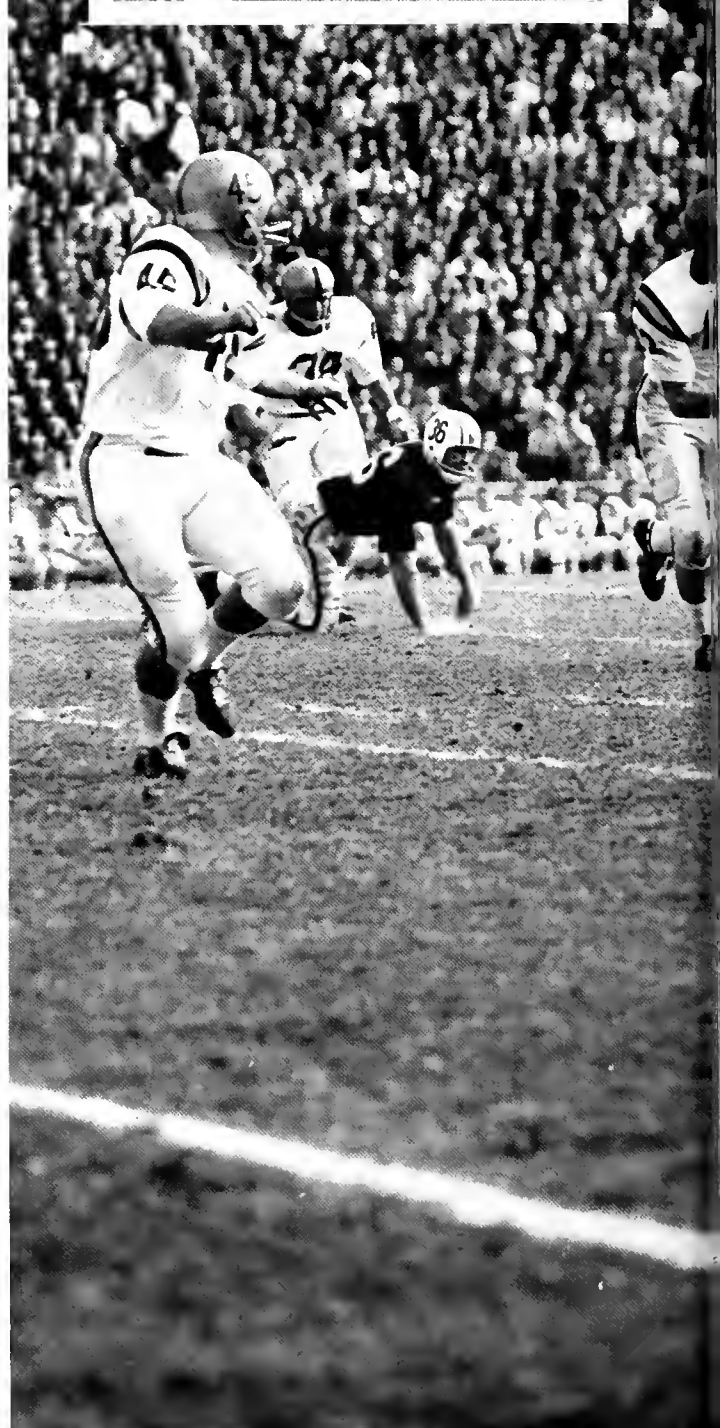

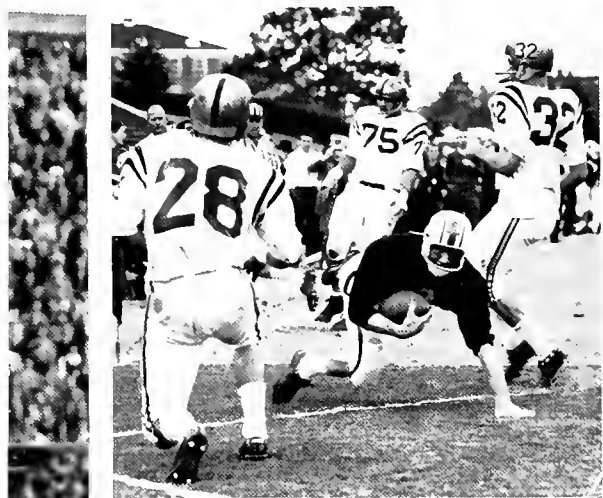

Auburn's cross-state rivals from the University of Alabama wrapped up a bowl-bound season, their best in recent years, with a 10-0 triumph over the Tigers, their first win in this traditional battle since 1953.

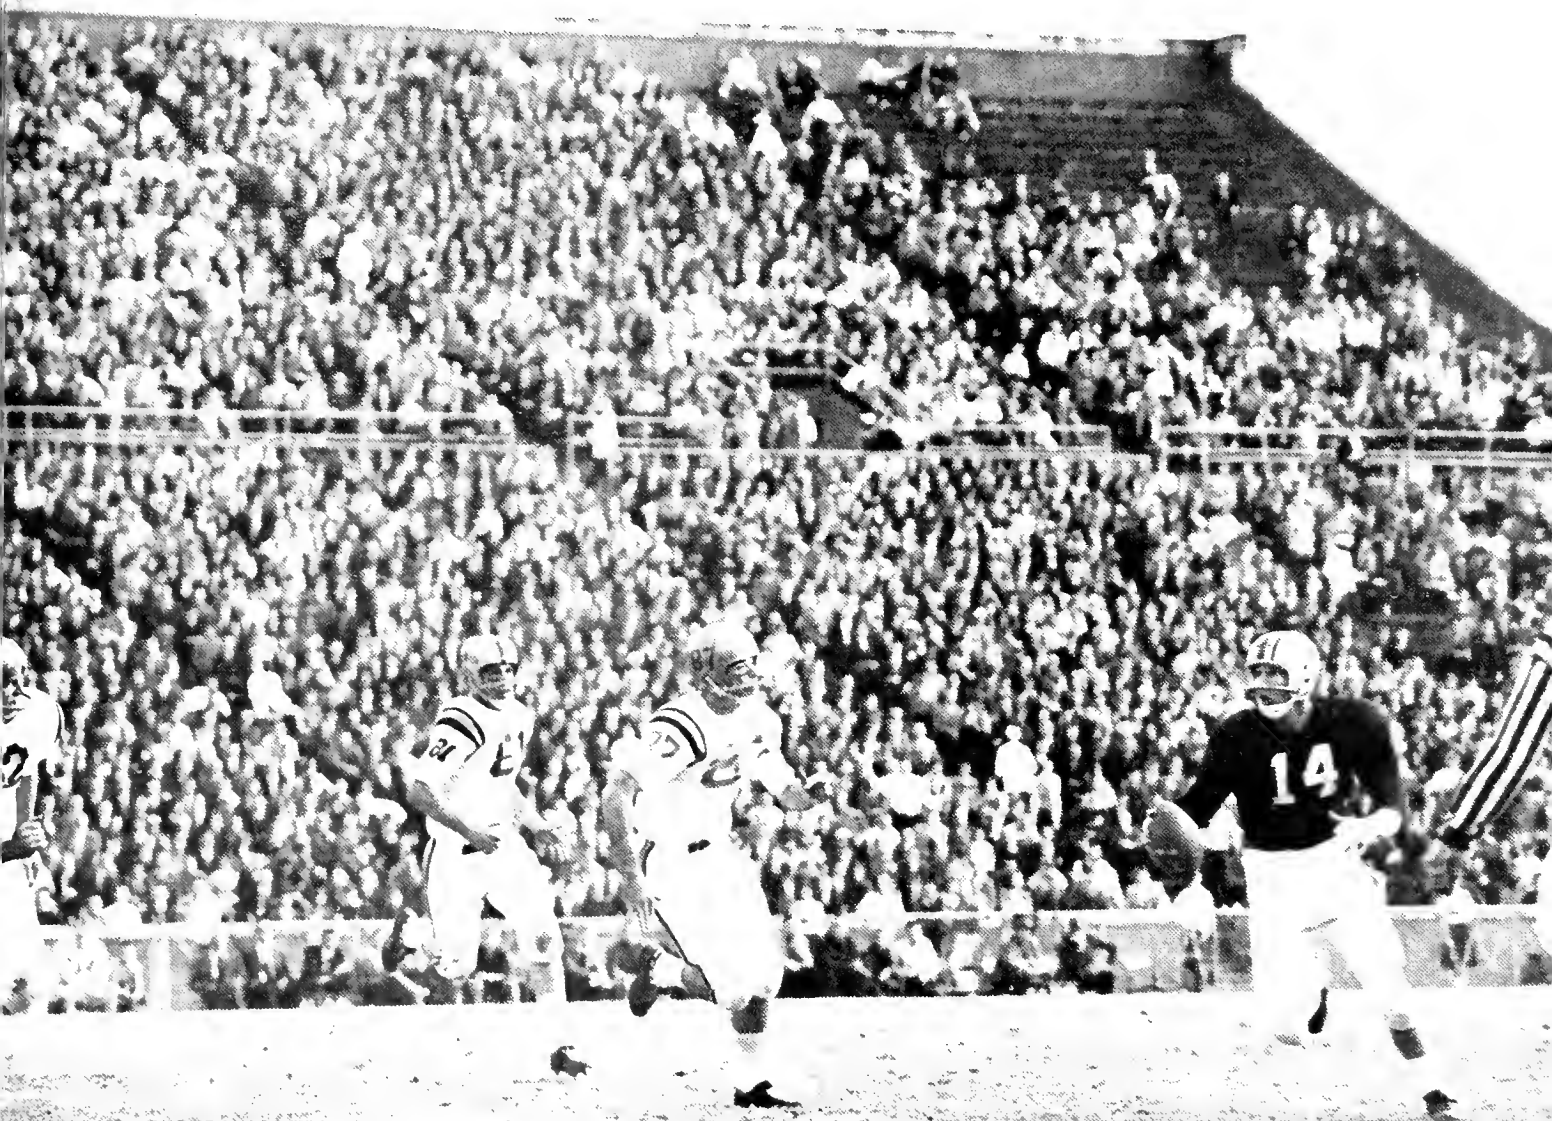

It was a fired-up Crimson Tide that warmed their deliriously happy supporters on a bitter cold afternoon in Birmingham. The surging Crimson Tide played as if their lives rested on the outcome of the match.

A lethargic Plainsman offense dominated by a crashing Tide defense began to open up only in the closing minutes of the game and an interrupted pass killed any Auburn hopes of a score.

A field goal by Tommy Brooker had given 'Bama a 3-0 half-time lead and the Plainsmen were not out of contention, but this was not to be a War Eagle day and Alabama never let up. In that third quarter the Tide marched again and Bobby Skelton hit Marlin Dyess with a pass in the flat which the speedsters carried 39 yards for a touchdown.

Zeke Smith finished his career at Auburn as an All-American as he led the Auburn defense. Bobby Wasden, Teddy Foret, Jackie Burkett, Haywood Warrick, Leo Sexton, Richard Wood, Leon Myers, Billy Jordan, Lamar Rawson, Jimmy Reynolds, also will be gone from the scene next season.

Zeke eyes wayward ball in State game.

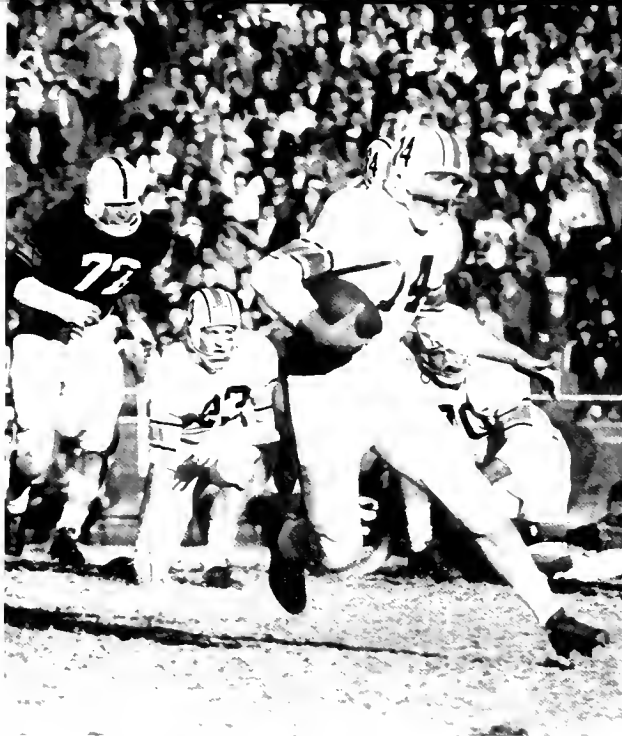

Burkett holds as Dyas prepares to convert.

BASKETBALL

The 1959-60 season of Coach Joel Eaves' basketball "dwarfs" marked up a volume of scores to post one of the best seasons on Tiger records. The Tiger cagers, short on height and depth, started slowly by losing to Navy and Ole Miss in the first part of the season, but jumped back to climax Auburn's greatest year.

Three standing records were tied and five were broken. The field goal average of 52.1% and the free throw average of 77.2% broke previous Auburn records of 48.7% and 73.9%. David Vaughn's 80.0% for free throws crashed another school mark. They finished on top in the SEC to pull down the first such championship ever to be held by the school. The team average of 52.1% for free throws established a national record breaking an even 50% mark held by George Washington University.

At the beginning of the season, only the most optimistic expected this Tiger team to show any conference competition. Such predictions did not take into account the stamina or the concerted effort exerted by the squad.

Once again, as in several previous years, the ability of Coach Joel Eaves payed off. Coach Eaves, a master of the hardwood, displayed a basketball enthusiasm which was undaunted by defeat. The now-famous "Eaves

Posey stretches over a Gator shoulder to gather in a loose ball.

Vaughn leads the pack against Bama.

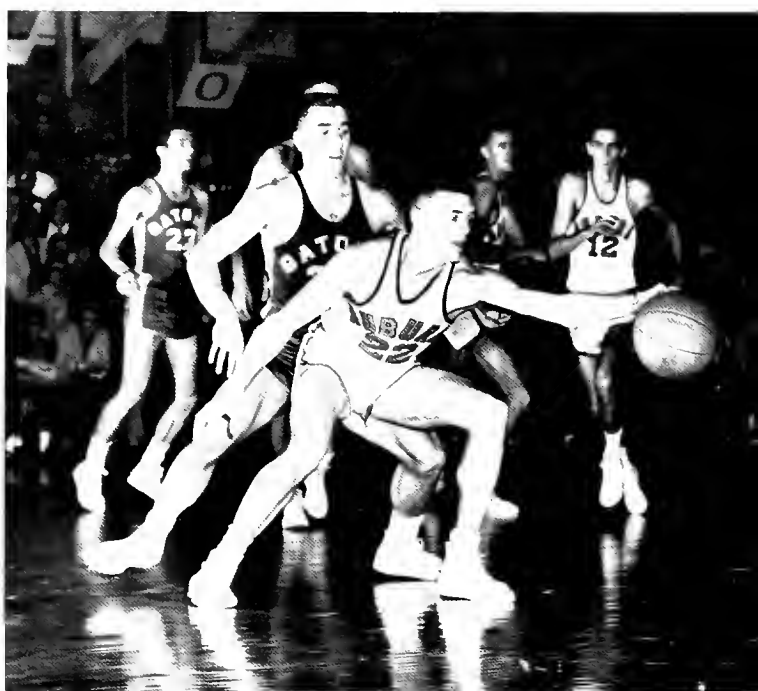

Shuffle" made Snow White and his "seven dwarfs" become the Cinderella team of the hoop.

The Tigers started the season with a sound 96-69 victory over Florence State and went on to down Troy State by a 72-46 count after a close battle at the beginning of the match. Howard suffered defeat at the hands of the Tigers 104-57 for the only 100 plus score by Auburn in the season. The last game before Christmas holidays found FSU at the losing end by a score of 62-58 to make it four consecutive wins. Then came the Birmingham Classic and the first defeat of the season. Navy pulled away to win 68-61, but the next night the Tigers recovered to trounce Alabama for the first of three times in the season. Next came a long road trip into Mississippi. Auburn snapped a 35-game home court winning streak for Mississippi State as the Maroons fell before the Tigers 64-68. The following night, in Oxford, the "Ole Miss" Bulldogs nipped the Plainsmen.

The Tigers next met Florida and restacked their cards to outbid the Gators by a score of 73-69.

The second game with the Tide was a repeat of the previous tilt with Bama driving late, but unable to overcome an early Auburn lead. The 69-66 defeat of the "Tuscaloosa Toddlers" gave the first hope of a conference championship. The next game, in Atlanta against

Georgia Tech, brightened the outlook still more as the Tigers managed to outmaneuver the Yellow Jacket scoring aces, Kaiser and Denton. They wrapped up a 66-59 victory over the nationally-ranked Jackets, in a non-conference match.

With the prospects of the championship the Tigers faced an aroused Georgia team and suffered their second conference loss. The Plainsmen returned to the campus to face Vanderbilt. This game was close all the way with both schools playing good ball. The final tally on the board showed Auburn ahead by the one point a characteristic of the close play all season. With a 55-54 win over Vandy the Tigers got set to face a return match with Ga. Tech. Again the fine Auburn defense showed well and Coach Hyder's men fell once more, this time by 48-45.

The slaughter of Georgia in a return match gave Coach Eaves and company much deserved revenge for the earlier disappointment. The defeat of Florida was a decisive win from the beginning.

The Auburn basketmen went visiting again to meet LSU and Tulane in Louisiana. LSU was toppled by 2 points, a 63-61 decision. The next night Tulane lagged by an equal margin, but only after an overtime and a last-second shot on the part of Porter Gilbert to win by 53-51.

Next on the schedule was the much-publicized Kentucky tilt. The televised contest was tight all the way with the lead changing hands some 40 times with never more than a 4 point score spread. In the last 4 seconds

Gilbert gives the ball a once over and Hart gives the Oilers trouble.

Jorge finds a hole in the Georgia defense and drives for a goal.

Now son, there's no fire down there. Just take it slow and easy.

Gilbert eases past a Gator and gets the shuffle going against Florida.

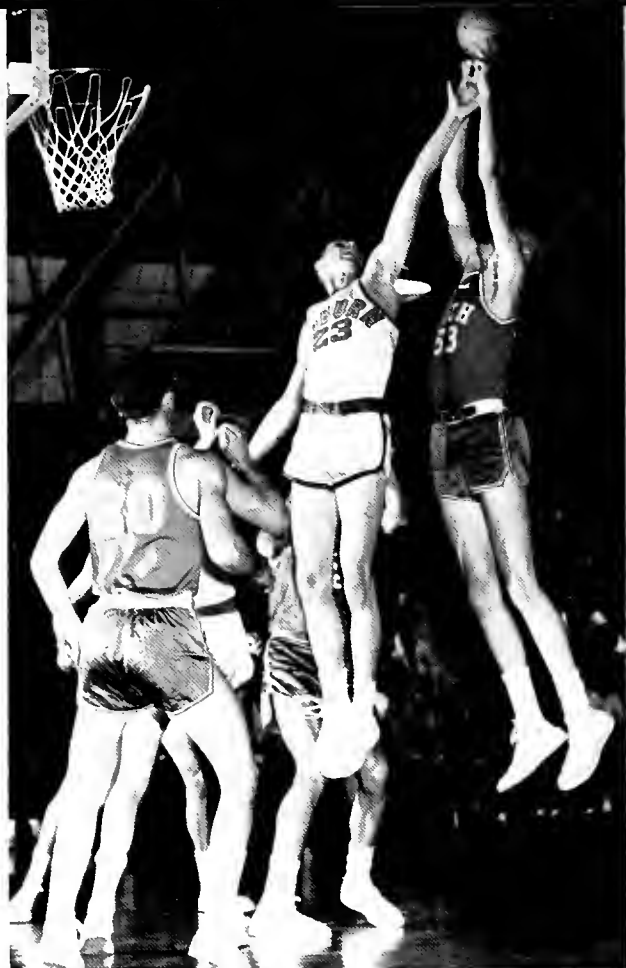

Jimmy Fibbe dumped in 2 free throws, but the Wildcats almost turned an Auburn win into a fatal loss. Some fast back-stepping and a layup block by Soph. John Helmlinger saved the game and made it 61-60, favoring the Tigers.

In the home stretch now, the Tigers had only Tennessee and Alabama in the way of their first conference title. The Vols were dropped, going down by a 72-63 count and Auburn went into the final game of the year tied with Georgia Tech for the league's top position. Montgomery Coliseum was the stage and some 7,000 fans witnessed the climax of Auburn's greatest season. Tied with Alabama 54-54 at the end of the regulation period the Tigers heard of Tech's loss to Vanderbilt and battled to win 63-61 on Ray Groover's last-second shot. The deliriously happy throng hoisted Henry Hart, All-SEC guard and one of Auburn's best ever, Coach Eaves, and all the supporting cast to their shoulders in a fitting salute.

As in most Auburn sports, virtually every member of the team proved outstanding and should receive commendation. Captain Henry Hart fought a knee to become one of Auburn's "greats." The starters—Hart, Fibbe, Vaughn, Groover, and Gilbert—all deserve praise for great performances. Vaughn, out with a bad ankle for several games, was replaced primarily by Soph.

with a 15-11 overall won-lost record and with an 8-4 SEC slate.

Lefty Lloyd Nix, borrowed from the gridiron, proved to be the mainstay of the Tiger mound staff with an impressive 6-0 record. Nix, though often hit hard, was exceptionally tough in the clutch and won several close games. Pitcher Alan Koch had a sub-par year on the hill, but batted a fine .419 to head the Plainsmen in that department. Porter Gilbert, Gerald George, and Ben Catchings contributed heavily to Auburn's offensive attack while Centerfielder Charlie Carlan was a defensive standout.

Early season miseries found the Tigers with five losses and a tie before they could scratch the win column. However, an 8-5 win over Georgia started the ball rolling for Coach Russell's men and from there they enjoyed a very respectable year.

A journey to Nashville produced three wins over Vanderbilt, and back in Alabama, an 8-6 triumph over Alabama put the Tigers in a good spot to take the title. But a head-on clash with Division leader, Georgia Tech, showed only one win in a trio of games and the Plainsmen were relegated to second spot.

Coach Wilbur Hutsell, Dean of Conference Coaches, guided Auburn's thinclads to another winning season on the cinders. Auburn went undefeated in four dual meets and finished a respectable third in the conference.

Montgomery's indoor Coliseum Meet, a proving ground for many athletes, gave notice of things to come for Auburn as weightman Richard Crane, a Tiger sophomore, hoisted the shot 53 feet 6 inches for a new Auburn record. Crane carried his performances on into the Florida relays where his victories in the shot and discus gave Auburn its only firsts in the encounter.

In the first of four dual meets, Auburn met Georgia at Athens and came away with a 73-63 win. Crane gave the trackmen a new record in the shot and set dual meet records with both the shot and discus. Another meet record was filled by Auburn's 440-yard relay team.

Alabama was next in line as the Plainsmen escaped with a 67.6-63.3 win in the day's last event, the mile relay. Paul Krebs, running in third position, sparked the team to a new dual meet record and victory with a blazing quarter. Joe Leichtnam was a double winner in the high jump and javelin. Richard Crane again took both the shot and discus, setting a new Auburn and

meet record in the former with a 53 foot 11.5 inches.

Florida fell next before the Tigers flashing spikes by a count of 65.2-60.6. Jimmy Morrow in the 100 and 220 yard dash and Crane in the shot and discus were double winners.

Both Crane and Morrow won their specialties to lead Auburn to its most convincing triumph, 77-54 over Georgia Tech. Crane's 55 foot shot put effort, established once again a new Auburn record.

LSU's powerful Bengals ran away with the SEC title, but Auburn pulled enough points to take third, a point behind Georgia Tech. Tommy Waldrip, who was elected team captain at the end of the season, picked up a first in the 440. Richard Crane climaxed a fine season by smashing the SEC shot put mark with a 55-foot 1-inch throw. Third place ties went to—Tom Hollingsworth, broad jump—Gene Carter, pole vault—Joe Leichtnam, high jump.

In the freshmen events Cocky Frost took first in the high hurdles and second in the broad jump. Jim Bonner second in the low hurdles, Jim Dozier second in the 880, and Ron Burke second in the 100 and third in the 220 were the others placing.

The 1960 Tiger wrestlers, under the direction of Coach "Swede" Umbach, captured their fourteenth consecutive SEIWA crown, still holding the monopoly they have claimed since the formation of the league. Earlier in the season they compiled a 4-2 record by defeating Birmingham-Southern, Emory, Maryville, and Knoxville "Y". They fell to the powerful teams of the University of Chattanooga and VPI.

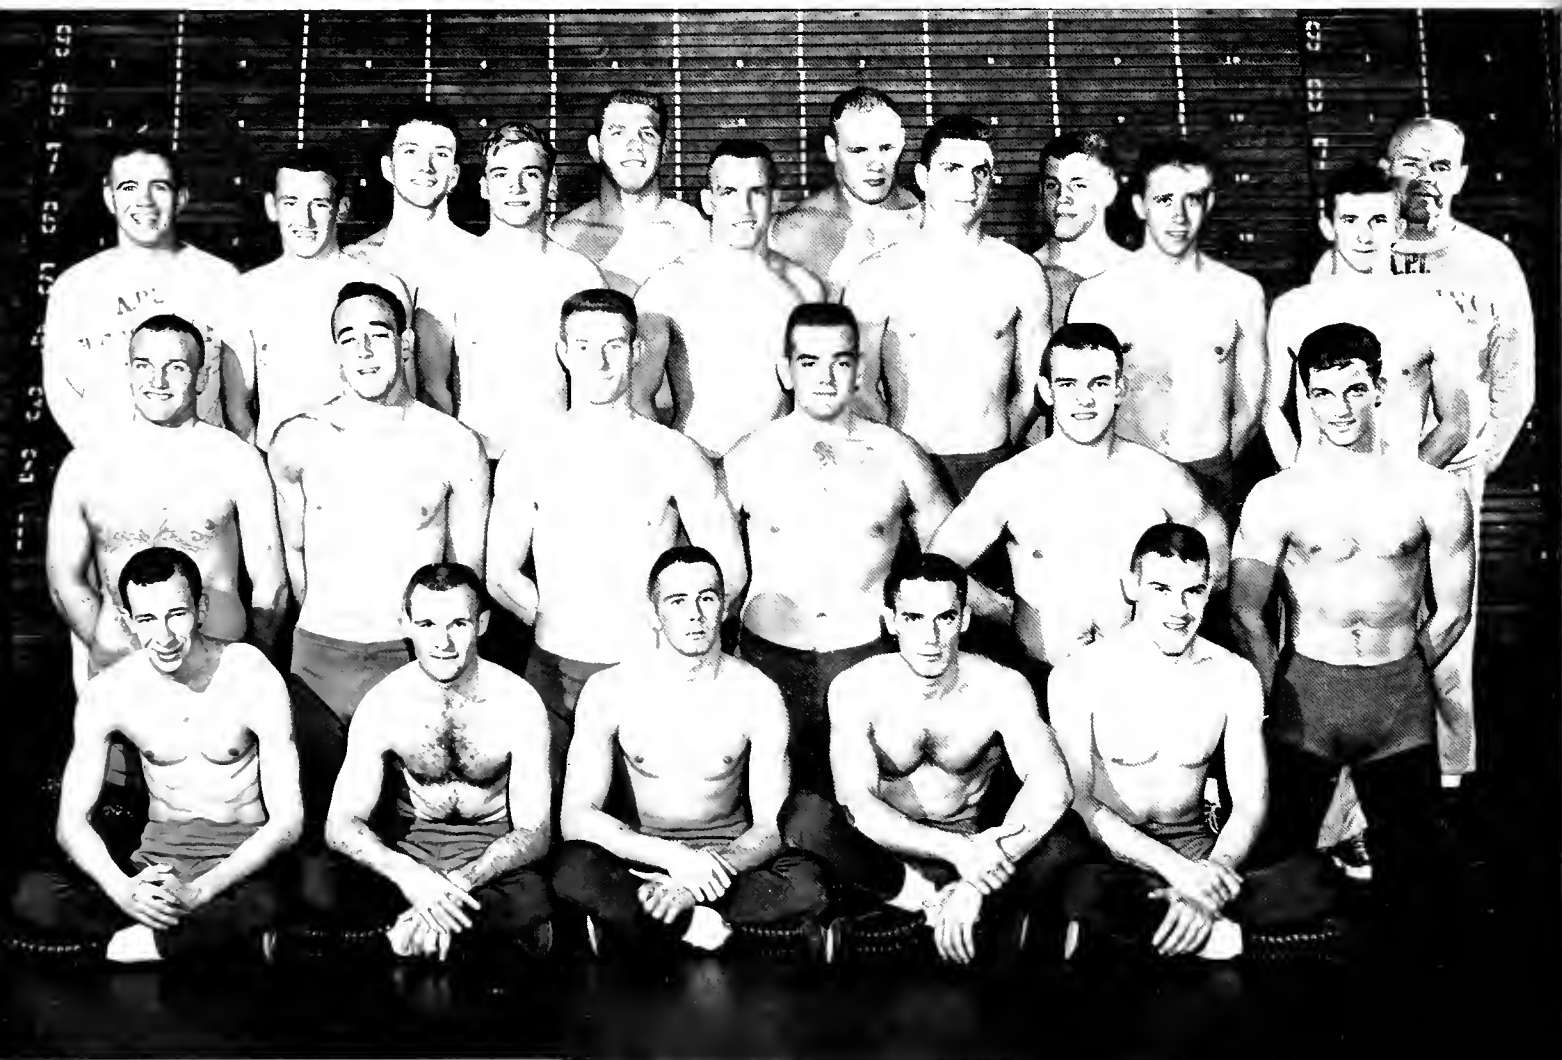

This year Auburn loses three champion wrestlers: George McCreary, Felton Hastings, and Marx Branum. McCreary and Hastings won first place titles in the SEIWA meet along with Dick Thompson, Garner Hastings, and George Gross. James Patrick and Marx Branum were in reserve positions. Herbert Boyd placed fourth in his class. Garner Hastings retained his championship for the second year and was voted the outstanding wrestler for the meet. During this event Auburn amassed a total of 85 points, 21 points higher than the nearest competition.

TENNIS

Coach Luther Young's tennis charges wrapped up the 1959 season with a .583 record. They won two and lost four in the SEC, but hold a 7-5 record.

The leading Tiger on the court was sophomore George Bagwell. Playing the doubles were Bagwell and Wilson accompanied by Lyon and Anderson.

The Auburn raquetteers are a rapidly rising team having come from 1-10 and 6-6 records respectively for the two previous seasons. Hampered by lack of funds for tennis scholarships, the school is potentially a big power in the SEC.

GOLF

For the first time in Auburn's history the golfers finished fifth in the Southeastern Intercollegiate Tournament, being one among 23 competing clubs. The team climaxed a successful season by placing third in the SEC.

Coach "Sonny" Dragoin led the Tigers to a 5-1 record at home, but reversed this record on the road.

Bryant Harvard was low man by averaging 73 on 18 holes for the season and shooting 66 for 6 under par against Ga. Tech in the final match.

Johnny Gross and Lewis Ray were close behind with a 74.5 average. Johnny led in the point bracket with 25.7, while Bryant was second with 24.2 and Lewis third with 22.5.

We are proud of the record which Coach Dragoin and his team established for Auburn.

FRESHMAN FOOTBALL

The 1959 Tiger freshman gridders tallied a record of one loss and two wins. Coach Erskine Russell, in his second year as head of the freshman squad, showed another good season.

Jimmy Burson at halfback and Bill Burgess at fullback turned in the best performances for the backfield; while Julius Sitterlee and Jim Price at center and Steve Osborn and Bill Burgess were stalwarts of the line.

In the first game of the season the Florida Gators emerged victorious by a score of 14-7. Burson scored the only Tiger TD.

Against the tough Georgia Bulldogs in the second game the Tigers turned the tables as they took the air. Kent passed to Fletcher on a 70-yard play for the first TD and Marshall connected with McCain for the other. The Tiger defense held the Bulldogs to one score to make the final tally 13-6.

Burgess and Southard defend against Alabama.

Bill Duty closes in on a play from behind.

The final game, with our cross-state rival, Alabama, kept the Tigers playing defense most of the afternoon. Bad breaks and the tough Tide squad held the Tigers scoreless while the Tide tallied a TD and a field goal to make it 9-0.

This freshman squad showed several good prospects for forthcoming Tiger squads.

FRESHMAN BASKETBALL

The Auburn freshmen under the tutelage of ex-Tiger, Rex Frederick, raced to one of the best seasons in years. In his first year as a coach Frederick guided the baby Tigers to a striking 10-2 record and provided fans with a lot of promise for future Auburn stars.

Georgia products, Layton Johns, a 6'7" center, and John Salter, a 6'5" forward, sparked the team throughout the season along with Billy Tinker, Butch Ware, and Larry Chapman. The team's only losses came at the hands of a powerful St. Bernard squad and the Georgia Tech freshmen, a defeat which they later avenged. The season's highlights were two close wins over the Alabama frosh.

softball went to Dormitory 8.

The women's intramurals program gives the girls an opportunity to exhibit their athletic skills in many sport activities, including baseball and softball. A new director, Jane B. Moore, has proved to be quite capable and under her supervision the various events have been most successful.

Kappa Alpha Theta took volleyball championship.

MEN'S INTRAMURALS

The men's intramural department, under the direction of Coach R. K. Evans, covers many fields of sports endeavor and provides a healthy diversion for fraternities, independents, and dormitory groups. This year Sigma Nu dominated fraternity play with Pi Kappa Alpha close behind. For the second year in a row the Florida Five proved masters of the independent groups with Auburn Hall leading the dormitory competition. A new sport, foul shooting, was introduced this year and Auburn Hall led the scoring in that category.

SPORTS HONORS

On these pages we honor the men who in competing in Auburn athletics have highly distinguished themselves. During the past few years, many Auburn stars have achieved greatness and have been nationally recognized.

This year we add more names to the scrolls and look to the future, envisioning no end to this list. However, we not only honor these men for the glory that is theirs, but also for the glory through them that is Auburn's. They, by their physical efforts and well-mannered competitive attitude, have reflected the character of all the students, have displayed that great Auburn Spirit, and have shown the results of excellent coaching and guidance, and have made us prouder to be part of Auburn.

The cheerleaders who played such a vital role in supporting and directing the school spirit throughout the year proved again their worthiness to the students and the school.

Head cheerleader for the past year was Jerry Max Barnes who capably led Joe Ed Voss, Nancy Walker, Ophelia Jones, Ray Duncan, Kenneth McCloud, Janice Hipsch and alternates, Tommy Crawford and Gayle Jones.

ORGANIZATIONS

The dust flies at spring practice. Spring football drills are climaxed by the annual A-Day Game and the selection of Miss A-Day, sponsored by the Auburn A Club.

The Auburn "A" Club cabin is the center of the group's activities.

Don Stone, manager of the Tiger Theater and Tom Hamlin, Auburn sportscaster, present the Most Valuable Player Award for 1959-60 to Tiger great Zeke Smith.

"A" CLUB

The A-Club is an organization composed of men who have earned letters in one of the four major sports or as a cheerleader for at least three years. As members, these men enjoy the social life of a club and at the same time are offered the opportunity to support worthwhile campus activities.

The A-Club sponsors the annual "A" Day festivities, highlighted by an intra-squad game which climaxes the football spring training. The selection of an Auburn coed to reign as "Miss A-Day" is handled by the club, and she is presented at halftime of the game. Half of the proceeds from the spring training game goes to the band scholarship fund, while the other half is used for various athletic projects.

Another annual function of the A-Club is the presentation of a handsome 25-inch trophy to the "Most Outstanding Senior Athlete."

The A-Club cottage, located in Graves Center, offers members games, television, and comfortable easy chairs for relaxation.

ALPHA EPSILON DELTA

Founded at the University of Alabama in 1926, Alpha Epsilon Delta is the national honorary society for pre-medicine students. The purposes of the society are to encourage excellence in pre-medical, pre-dental, and lab-technological work by furnishing a goal towards which the student may strive during the early quarters of his or her college career and to bind together the similarly interested students. An annual award is presented by AED to the sophomore in pre-medicine, pre-dentistry, or lab-technology who maintained the highest average for his or her freshman year.

ALPHA PHI OMEGA

Alpha Phi Omega, a national service fraternity, was founded at LaFayette College, Easton, Pennsylvania, in 1925. Auburn's chapter was organized in 1927 and is the third oldest, but due to technicalities, it was designed Delta. The membership is composed of students who have had previous association with scouting as scouts or as scout leaders; who have the desire to render service to their fellow men and community, and have a sufficient scholastic average.

Alpha Phi Omega aims to produce active, educated citizens by promoting and developing friendship, leadership, and cooperation among its members.

This year, as usual, Alpha Phi Omega operated the Student Book Exchange. Among other services rendered by A-Phi-O were helping during Freshman Orientation, Homecoming, Village Fair, and the All Campus Fund Drive. They also sponsored the annual U.M.O.C. contest.

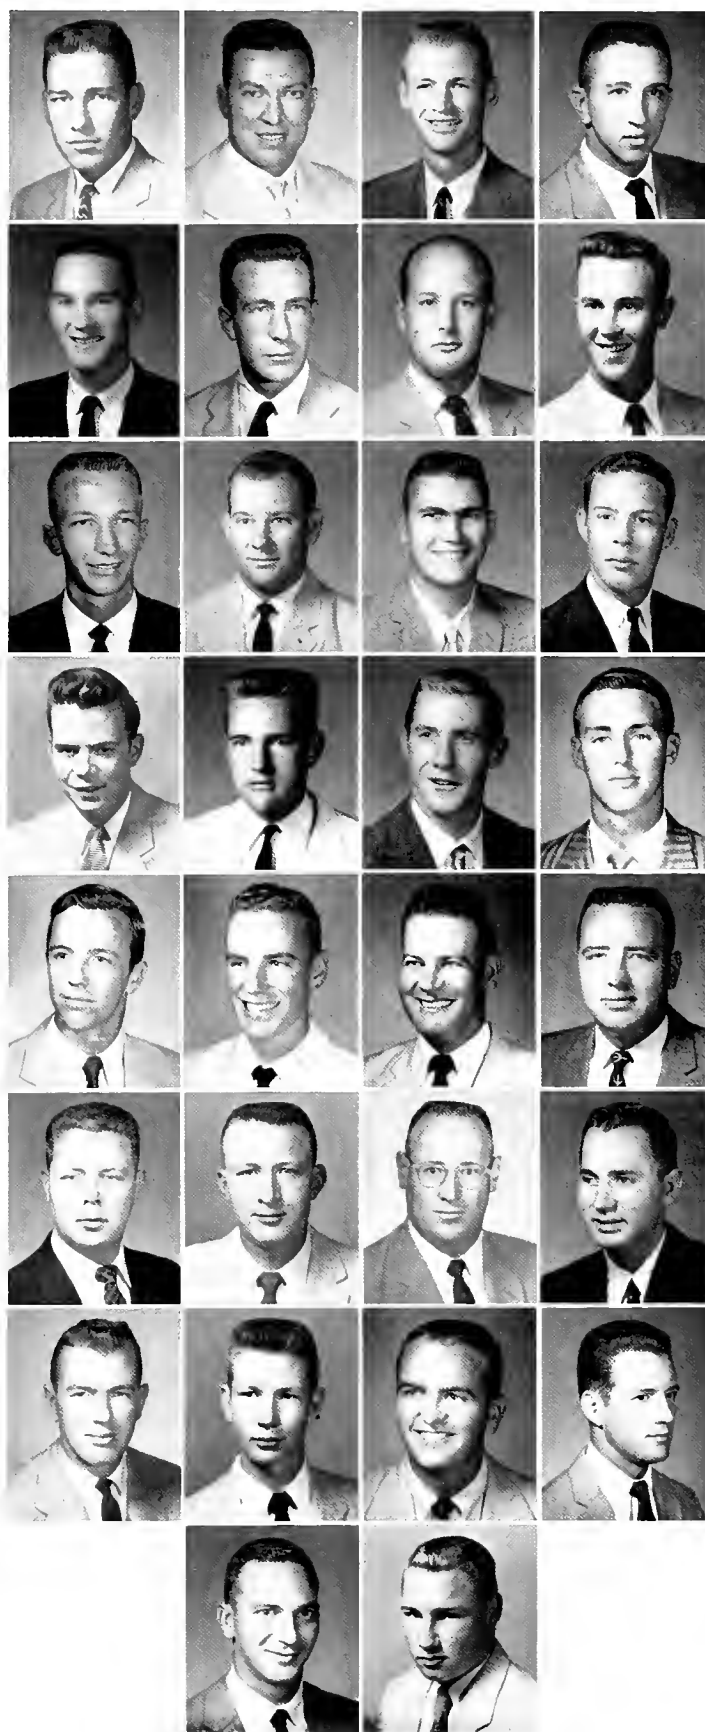

Alpha Phi Omega held its biennial National Convention in Austin, Texas from August 29 through September 1, 1959. Delta Chapter was represented by eleven members and two advisors, the largest out-of-state delegation at the convention. We really put Auburn on the map.

ALPHA ZETA

The national honorary agricultural service fraternity, Alpha Zeta, was organized on the Auburn campus to recognize those outstanding in scholarship, extracurricular activities, character, and potentialities as leaders. The objectives of the fraternity are to promote the profession of agriculture and to establish, foster, and develop high standards of scholarship, character, leadership, and spirit of fellowship among its members.

Officers are: Clinton Hardin, President; Oscar Jones, Vice-President; Jerry Caldwell, Secretary; John Huie, Treasurer; Don Canerday, Historian. The Faculty Advisors are Dr. John Deloney, Dr. J. T. Hood, and Prof. D. S. Renoll.

AMERICAN CHEMICAL SOCIETY

The Auburn Student Affiliate group of the American Chemical Society functions in order that undergraduate students might gain some insight into the professional side of their chosen careers. It affords an opportunity for the students of Chemistry and Chemical Engineering to become better acquainted, to secure experience in preparing and presenting technical material before chemical audiences, and to instill a professional pride in Chemistry and Chemical Engineering.

Officers are: Ann Simmons, President; Charles Blau, Vice-President; Virginia Grady, Secretary; Connie Graham, Treasurer.

The American Rocket Society was founded in 1930 to advance the science of rocket and jet propulsion. The object of this professional society is to aid the United States in achieving its maximum level of technical capability in astronautics by increasing levels of motivation, idea production, energy output, and communications exchange. Membership in the Society's Auburn Student Chapter is open to all those interested in any of the broad fields of rocketry or astronautics.

The officers are: Charles R. Wilson, President; Ralph Hoodless, Vice-President; John Gresham, Secretary; Harry Bates, Treasurer.

AMERICAN SOCIETY OF AGRICULTURAL ENGINEERS

The American Society of Agricultural Engineers is a national organization for professional agricultural engineers and students enrolled in Agricultural Engineering. The Alabama Student Branch at Auburn promotes, directly and indirectly, the interest of students enrolled in Agricultural Engineering—particularly since these interests relate to their professional advancement.

FIRST ROW: Frank Baker, B. M. Carr, Luther Floyd Clemons, Howard Dunlap. SECOND ROW: Joel D. Hardee, Gordon Kirby, Rance A. Kirby, John C. Ramsay. THIRD ROW: William R. Thompson, Aubray Abrams, David P. Doss, Ernest W. Nunn. FOURTH ROW: James M. Yeager. NOT PICTURED: R. K. Blackburn, Joe L. Koon.

AMERICAN SOCIETY OF MECHANICAL ENGINEERS

Membership at bimonthly meeting

The Auburn Student Chapter of the American Society of Mechanical Engineers is affiliated with the national ASME. The organization is open to all engineering students who are majoring in mechanical engineering and aeronautical engineering. The purposes of the society are to promote better relations among students and to keep students abreast of the latest developments in engineering. Bi-monthly meetings are held at which speakers are presented; these are industrial leaders and various faculty members. In addition movies are shown occasionally. A student member is entitled to all rights and privileges of membership in the National American Society of Mechanical Engineers.

This year's officers are: A. H. Averyt, Chairman; H. E. Littleton, Vice-Chairman; R. C. Mize, Corresponding Secretary; J. A. Woller, Recording Secretary; R. C. Green, Treasurer.

AMERICAN SOCIETY OF CIVIL ENGINEERS

American Society of Civil Engineers, installed in 1852, is the oldest national engineering society in America. The First Student Chapters were formed in 1920 for the purpose of "advancing the professional sciences of Civil Engineering," and the society. The objectives are: to provide an opportunity for professional contacts, to furnish a chance for broadening personal and public relations, and to encourage social activities.

EPISCOPAL COLLEGE CENTER

The Canterbury Forum, Episcopal College Center.

The Episcopal Church on the Campus seeks constantly to affirm the unity of truth from Christian perspectives in a changing world. The focal point of the religious life of Episcopalians on campus is the Episcopal College Center. Its purpose is to deepen the understanding and commitment of faculty and students participating in its program through worship, counseling, study, service, and fellowship.

The life centers around the worship of God in St. Dunstan's Chapel, particularly in the celebrations of the Holy Communion. Students and faculty gather daily at 7:00 a.m. for this service, and they share a warm fellowship in the breakfast which follows. The Canterbury Forum, Lay-readers, Altar Guild, and other study and service groups provide ample opportunity for a full religious life.

The Center is a self-governed, self-supporting church with students bearing much of the responsibility. Those responsible for leadership in the Center are: The Reverend Merrill A. Stevens, Chaplain; Hartmuth Guenther, Senior Warden; Jim Bailey, Junior Warden; Peggy Kling, Forum President; Hartmuth Guenther, Forum Vice-President; Connie Tebo, Treasurer.

A. V. M. A. AUXILIARY

The Auburn Student AVMA Auxiliary is an organization for wives of members of the Auburn Student American Veterinary Medical Association. It is both an educational and a social organization which meets twice a month during the school year. Certain of its activities have become traditional, such as the annual Christmas party for children of veterinary students and faculty; skit night; and a fashion show in which members who sew model clothing they have made.

Mrs. J. E. Greene, Mrs. R. P. Crawford, and Mrs. T. C. Fitzgerald serve as sponsors. Officers for the year were Anne Purvis, Troy, President; Toby Williams, Chattanooga, Tenn., Vice-President; Gail Woodruff, Brentwood, Tenn., Secretary; Barbara McMillan, Smithsdale, Miss., Corresponding Secretary; Janice Saidla, Auburn, Treasurer; and Lois Taylor, Cleveland, Tenn., Historian

AUBURN VETERAN'S ASSOCIATION

The Auburn Veterans' Association is an organization whose function is to serve the Student Body, the faculty and the veterans of Auburn University.

AVA was organized in the Spring Quarter of 1956 and was granted its charter in the next year. Since that time, the association has been engaged in many activities for the betterment of Auburn.

The AVA arm band can always be widely seen at registration time. Its wearer is an active member of the AVA Registration

Team whose job is to assist students and faculty in the registration processes.

Other AVA sponsored projects include traffic and housing surveys, Book Drive for Korean Universities and the Soap Box Derby during Village Fair each Spring.

Although AVA is primarily a service organization, its activities are also social and they participate in the intramural sports program.

A cordial invitation to membership is extended to all veterans of the Armed Forces enrolled in Auburn.

BAPTIST STUDENT COUNCIL

The B.S.U. always strives to magnify the local church, thus becoming the Connecting Link between the college student and the local Baptist Churches. A person automatically become a member of the B.S.U. when he joins one of the Activities that it sponsors.

The B.S.U. Center is temporarily located at 117 North Gay Street and offers many activities: Recreation, Television, Prayer rooms, Kitchen, library, Sports, Religious Drama, Choir, open houses and Listening Parties. The purpose of the Center is to give the student an opportunity to participate in Christian recreation of the nature he desires.

The permanent location for the B.S.U. Center is 131 North College where a new Center is now being constructed. This center should be open by 1961.

BLOCK AND BRIDLE

The Alabama chapter of the National Block and Bridle Club was organized in order to promote and increase interest among the students of Animal Husbandry and to bring about closer relationships between the students and the men pursuing some phase of this field as a profession.

Annually the club sponsors the Little International Livestock Judging Contest, the Auburn Livestock Judging Team and a Club Banquet.

Membership is open to all students majoring in Animal Husbandry and those interested in the various fields of this profession.

This year's officers are Oscar Jones, President; Jerry Caldwell, Vice-President; Bobby Mattox, Secretary; Joel Hardee, Treasurer; John Howie, Reporter; Bob Murdock, Marshal.

CAISSON CLUB

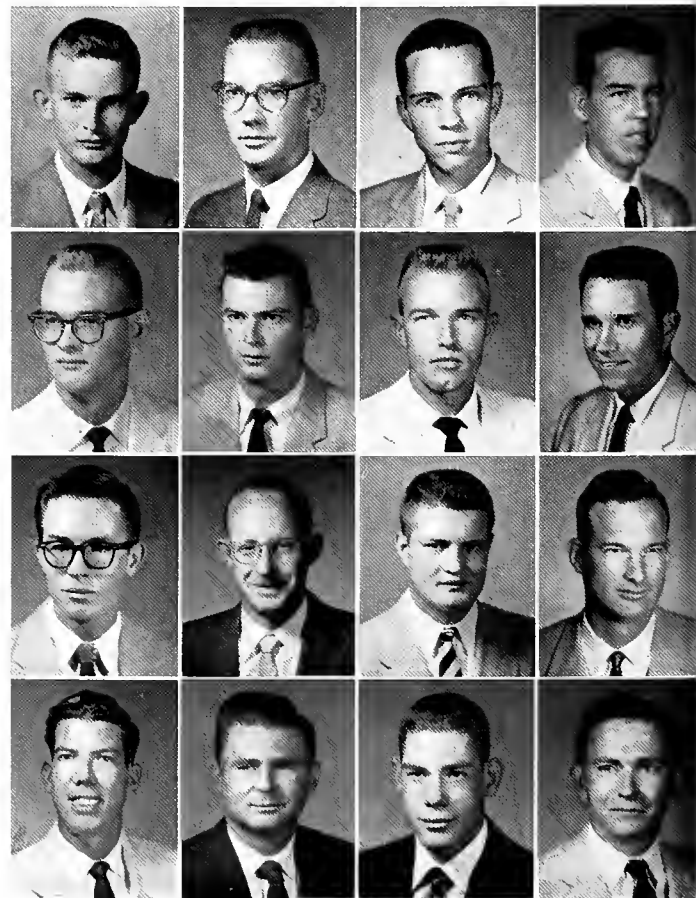

Caissons, Artillery Honor Society, was founded in January, 1948, to foster friendship, cooperation, and good fellowship among the Advanced Artillery Students and the Army instructors. Goals of the society are the development of efficient and dependable Artillery officers for the services of our country and the development of interest in its military affairs.

Fellowship Time

CHURCH OF CHRIST YOUNG PEOPLES' ORGANIZATION

Churches of Christ are independent fellowships which meet throughout the world. There is no organizational structure in any phase of the work above the local church. The only unifying feature is their common objective, that is to restore Christianity to the pattern of the New Testament. Students are invited to join the local church in its dedication toward this goal.

Students at Auburn University who give Church of Christ as their religious preference are encouraged to take part in the program of the Auburn church of Christ. In the absence of a national student organization, the local church provides many activities of interest to the students. In addition to the morning and evening worship hours, each Sunday there is a Bible class for college students before the morning worship and an open forum following the evening worship. The discussion of a variety of interesting subjects is a part of each year's program. Mid-week Bible classes are conducted on Wednesday and Thursday evenings for college students. For fellowship, many different social activities are planned and enjoyed by the students throughout the year.

CWENS

Being tapped for membership into Cwens is the highest honor that can be bestowed on a sophomore girl at Auburn.

This honor society was first established on this campus in 1940 under the name of Owls. In the spring of 1957 Owls received its charter to become Pi Chapter of the National Society of Cwens.

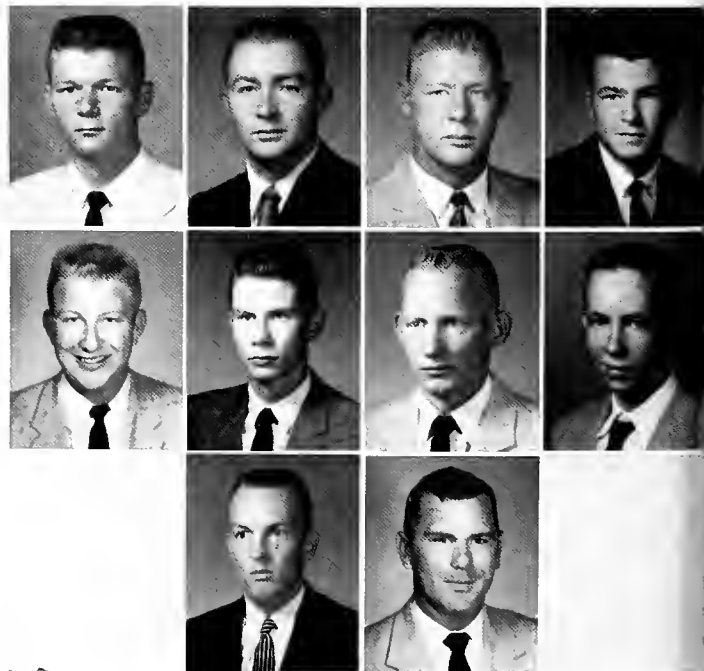

Each Spring Quarter freshman girls who have displayed scholarship ability and campus leadership are tapped for this organization.

The officers are: President, Martha McClinton; Vice-President, Helen Morris; Secretary, Sadie Jean Beaird; Treasurer, Madelyn Karl.

DAIRY SCIENCE CLUB

The objectives of the Dairy Science Club are to provide an informal meeting place for students and faculty members who are interested in Dairy Science and to establish and maintain good relations between students and dairymen throughout the state. The Dairy Science Club establishes and maintains contact between students and outstanding workers in the dairy industry. The club promotes fellowship and scholarship among those at Auburn University who are interested in Dairy Science.

DELTA SIGMA PI

Delta Sigma Pi was founded at New York University School of Commerce, Accounts and Finance, on November 7, 1907. The installation of Beta Lambda chapter, March 21, 1931, raised the chapter roll to fifty-six. Today, this figure is nearly doubled, and Delta Sigma Pi is an international professional Business Administration fraternity which fosters the study of business in universities; encourages scholarship and association of students for their mutual practices; promotes closer affiliation between the commercial world and the students of commerce, and furthers a higher standard of commercial welfare of the community.

ETA KAPPA NU

Eta Kappa Nu is a national engineering honor society which was founded at the University of Illinois in 1904. The association was formed that those in the profession of Electrical Engineering, who possess marked ability and interest in their chosen field, may be recognized. XI Chapter was established at Auburn in 1920.

The officers are: Joe McKay, President; Barney D. Thornton, Vice-President; John Foshee Wilson, Recording Secretary; C. B. Phillpott, Corresponding Secretary; Howard E. Palmes, Treasurer.

RADIO ENGINEERS

INSTITUTE OF AERONAUTICAL SCIENCES

The Institute of Aeronautical Sciences is the representative society in America for engineers and specialists in all the sciences related to aeronautics. The basic mission of the Institute is to facilitate by all available means the interchange of technical ideas among aeronautical engineers in this country and abroad. Its meetings provide an open forum for the testing and evaluation of new ideas.

Student membership was established by the Institute to provide the future engineer or scientist with broad opportunities to engage in activities associated with his future career in aviation.

The Auburn branch of the Institute was established in 1940. Meetings are held bi-weekly at which aeronautical movies are presented, speakers from the airlines, aircraft industry, faculty or students membership pre-

sent papers or discuss developments and problems in the aeronautical field.

Annually I.A.S. members attend sectional conferences such as last year's in Atlanta and Dallas, Texas. At these conferences technical papers were presented by Auburn students in competition with papers from other schools.

Numerous interesting and educational field trips are planned each year to visit such activities as aircraft manufacturers, test facilities, military air bases, and fire power demonstrations. One such trip included a day long cruise on an aircraft carrier to observe carrier flight operations. Other activities included parties, dances, and an annual banquet.

outstanding members of the Veterinary profession and allied fields as guest speakers.

The Chapter's highlight for the year is the annual picnic and barbecue, which is attended by members and their wives and other guests.

The Chapter publishes "The Auburn Veterinarian," which is printed each quarter and contains items of interest to the profession. It is edited by a student group.

The Chapter has a counterpart in the form of the Student American Veterinary Medical Association Aux-

iliary. This organization is made up of the wives of the veterinary students and functions as a coordination unit. Their meetings create friendship among the student wives, offer classes in office management and veterinary lab techniques, and present programs on Home Management and cultural arts. The main projects for the year include a Christmas party for the entire Veterinary School, an annual Spring picnic, and a yearly gift to the Veterinary School.

Working together, these organizations are contributing their best to further the profession.

SOCIETY FOR THE ADVANCEMENT OF MANAGEMENT

The Society for Advancement of Management is the recognized national professional society of management people in industry. S.A.M. is motivated by an unselfish zeal to spread the benefits of scientific management whenever management is required. The Auburn chapter of S.A.M. was first such chapter to have a constitution. The Auburn chapter offers its members frequent tours of industrial plants, discussion meetings and round table discussions. The individual members of S.A.M. are presented with the opportunity for well-developed fields of management, not only taking what the Society offers, but by contributing his own ideas.

Auburn's chapter of S.A.M. ranks second in the nation. This chapter has enjoyed its best year in all respects.

SQUIRES

Squires, a sophomore men's leadership honorary society, was organized at Auburn University and is completely indigenous thereto.

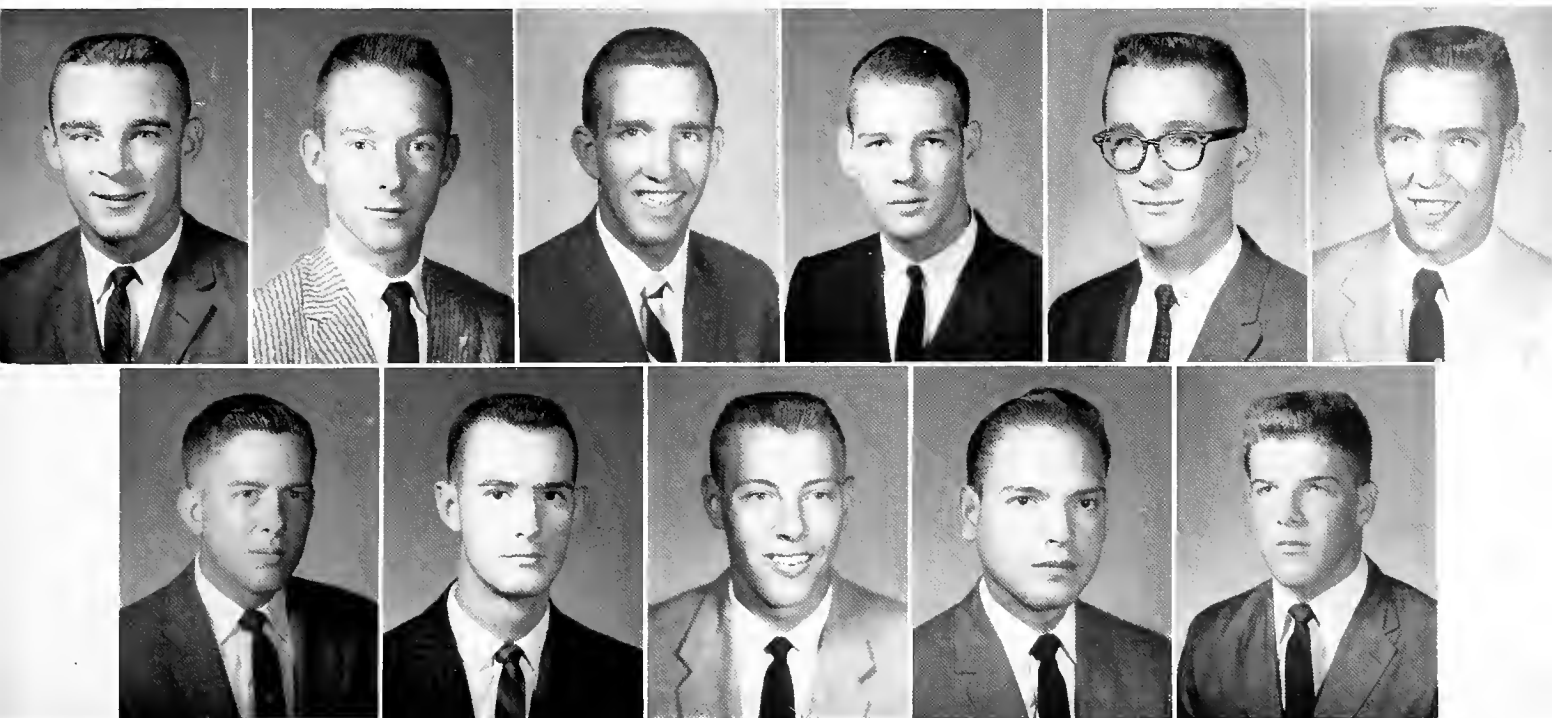

Its fifteen members are chosen each year from the freshman class by Blue Key and Omicron Delta Kappa National Honoraries on the basis of leadership and/or promising leadership in athletics, scholarship, character, student government or student publications. To be tapped for Squires is considered the highest honor that can be bestowed upon a freshman.

The men of Squires, from different fraternities and from independents, work together for the good of the student body and to keep alive the famous Auburn spirit. Their goal is to fulfill the trust shown them by giving of their time, thought and effort to further the aims of Auburn and to preserve ideals of friendly co-operation among the students.

The various activities in which Squires participate are: Hey Day, the day set aside each quarter for the entire student body and faculty to extend a friendly greeting to everyone; assist O.D.K. and Blue Key in their activities by selling tickets and helping in every way to further the aims of the honoraries; annually sponsor a contest to select the most beautiful high school girl to reign as Village Fair Queen and assist in Homecoming activities.

Squires are dedicated to fostering and encouraging a spirit of good fellowship among the students, inspiring loyalty and devotion to the best interests of Auburn and in maintaining the highest standards in character and leadership.

Officers for this year are: President, Stan Sikes; Vice-President, Ed James; Secretary, Bill Lollar; Treasurer, Raymond Sepulveda.

STUDENT COUNCIL OF RELIGIOUS ACTIVITIES

The purpose of the Student Council on Religious Activities is to provide a functional organ for promoting and sponsoring campus-wide religious activities in which operational coordination is needed to give the best benefit to the students of Auburn University.

The Council is composed of the president and another representative from each student religious group and the minister of the faith that group represents. Also on the council are representatives from several student government organizations and from the college administration.

One of S.C.R.A.'s largest tasks each year is the presentation of Religious Evaluation Week. This is a time in which outstanding persons — many times international figures — are brought to the campus to lecture and to discuss various subjects with the faculty and students.

FIRST ROW: Tom W. Gregory, Peggy Kling, JoAnna Davis, Wiley Montana. SECOND ROW: Gordon Perry, Bill Branch, Price Williams, Carolyn Egge, Bill Marks, Tocey Allison, Ray Pendleton. THIRD ROW: Wendell Mitchell, Harold Gully, David Taylor, Fred Bartling, Dr. J. M. Richardson, Ashland D. Shaw, Richard C. Naegele, Benard A. Domning.

The faculty Committee on Religious Life is composed of members appointed by the President of the University. It cooperates with local churches and the Student Council on Religious Activities as well as other faculty groups in sponsoring various activities pertaining to the spiritual life of students and faculty members.

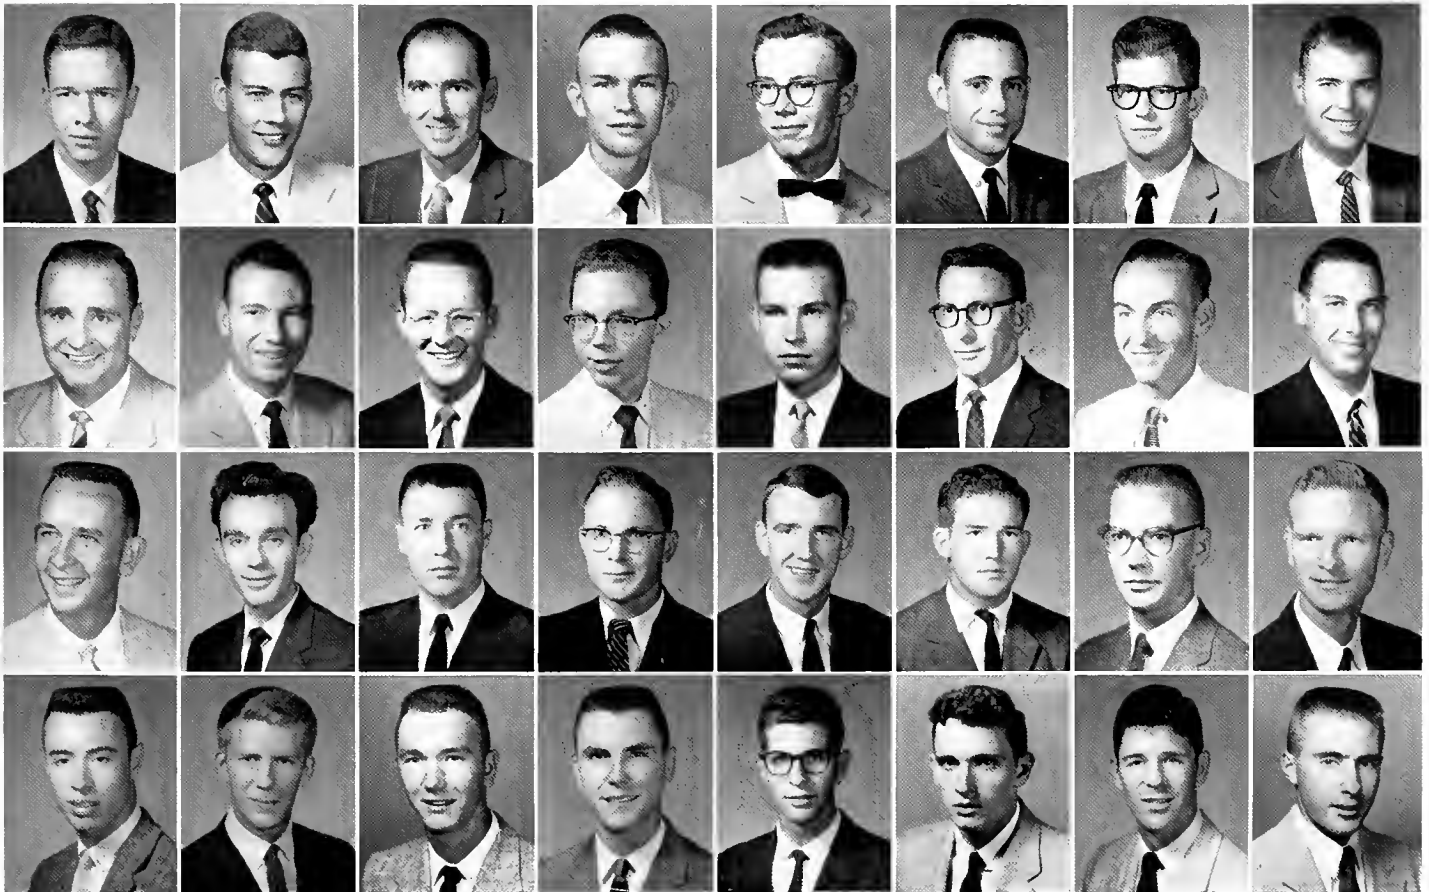

LEFT TO RIGHT: Dr. W. S. Bailey, Dr. J. R. Moore, Dr. Paul Irvine, Harold Grant, Dr. J. S. Dendy, Dr. W. J. Gibbons, Dr. Jerome Kuderna, Dr. Jesse M. Richardson, Mr. Clyde Cantrell.

TAU BETA PI

Tau Beta Pi is a national engineering honor society which was founded at Lehigh University, Bethlehem, Pennsylvania in 1855. It now has 102 undergraduate chapters, and over 102,000 initiated members. Students are elected to membership by the chapters from the top 20 percent scholastically of their engineering classes on the basis of character and service to their schools. Alpha of Alabama was established at Auburn in 1921.

THE YEAR

VILLAGE
WELCOME TO VISITORS

A familiar scene taking place every three months.

A.V.A. lends helping hand to dazed frosh.

REGISTRATION

Registration—a scene of mass confusion occurring four times a year. Experiencing registration must be comparable to a non-English speaking visitor attempting to pass through customs at International Airport. For some it is a time of triumph, particularly when they sneak in on a friend's trial schedule and pull the correct cards at the desired time. For others it is a nerve-racking, exasperating period during which nothing goes according to plans, and an upside down schedule is the day's spoils. All in all, it is a dreaded adventure which, of necessity, must be faced.

Undisputed UMOG of the Auburn campus, Tommy Henderson, is awarded medal and plaque by Pi Beta Phi Vice-President, Katherine Bishop.

UMOG contestants Buddy Pitman, Ray Duncan, Tommy Henderson, Bobby Denman, Buster Meeks, Burt Prater, Kenneth McLeod, and Ray Bozeman.

U. M. O. C.

Contrary to popular opinion, the UMOG is not at all ugly; rather, he is a flowering specimen of manhood, of modest demeanor, and with somewhat of a homely (not comely) appearance about him as evidenced by this year's winner, Tommy Henderson. Tommy grabbed the "ugliest" title from a field of ten other contestants. He was crowned during the half-time ceremonies of the Auburn-Kentucky basketball game. The UMOG contest is sponsored annually by Alpha Phi Omega, and the eleven sororities on campus each enter one ugly man. All proceeds are used toward the betterment of Auburn.

Eager freshmen stand tagged and ready as starting time approaches.

First-place winner, Jack Brewer, enters chute setting new record.

CAKE RACE

Each year late in the fall, Auburn falls witness to a race of gigantic proportions. This is the annual ODK-Wilbur Hutsell Cake Race which winds its weary way across the campus, through the town, and finally, some two and a half miles later, to the finish line in Cliff Hare Stadium. All freshmen are required to participate in this event and to the winner goes a kiss from Miss Auburn and, of course, a cake.

Then, "To the winner go the spoils," and a kiss from Miss Auburn.

Sandy Ross and Coach Hutsell congratulate Jack on a job well done.

Miss Auburn Finalists pose. Molly Sarver, Liz Byers, Norma Taylor, Evelyn Ray, and Sandra O'Kelley represent the "cream of the crop."

Officers-to-be endure the rigors of Steerage initiation with valor.

Chief Dawson of the Campus Security Office, shows that all is not serious in the work of the Campus Police of our school.

No effort will be made to describe the actions of the above group.

All four members of the renowned "Pi Iota Gamma" Sorority demonstrated intestinal fortitude of the highest magnitude in their driving and spirited effort to place in the annual Sigma Chi Derby.

Javad Bazargani, Auburn's representative to the annual International Relations Conference held this year at Emory University.

Delta Tau Alpha's badly battered Bulldog captured first place.

In recent years, the Wreck Team, headed by Auburn's fraternities has been quite successful—as has the Tigers Tech Wrecking!!

A typical pep rally crowd is on hand as the student activities building is filled to overflowing. "Get those hands up for a War Eagle!"

PEP RALLIES

From the Student Activities Building to stadiums across the southeast, the deafening sound of a "War Eagle" can be heard almost any Saturday during football season and, for that matter, any other time when there is an occasion to boost a Tiger team to victory. It is traditionally a time when the Auburn Spirit is at its peak and when all true Auburnites are united to let the opposition know that we will not be defeated. From the first long roll of a "War Eagle" to the fading bars of the Alma Mater, it is a time of excitement for all, a time when loyalty and pride are displayed to their fullest.

It was a cold, windy day in Birmingham, but we were there in force.

"Battle of New Orleans—Tiger Style" a novel creation by Pi Kappa Alpha won the approval of the judges and a trophy for the mantle.

As the Golden Record of API is handed down to Auburn University, Magnolia Dormitories score a victory in the decoration field.

A gladiator scene from old Rome enhances Tau Kappa Epsilon lawn.

The Tiger of Sigma Phi Epsilon throttles gator in giant toyland.

HOMECOMING

Possibly one of the most long awaited events on the Auburn campus is Homecoming. For the fraternities it is a period of feverish last minute struggling as they prepare their decorations for the judging. For the football team it is a time of anticipation as they wait out the last few hours. For all it is a time of excitement as the week end draws near. When the big moment finally arrives no one is really ready, but by then it doesn't matter because old friends are arriving, alumni are pouring in by the droves, and, of course, there is a football game which must be won. And then, just as quickly as it had come, it is gone, and the waiting begins again.

role as escort for the 1959
Homecoming Queen, Miss

SINGING AT AUBURN

Music groups at Auburn range from a Symphony Orchestra to an Opera Workshop. Between the two are octets, glee clubs, choirs, and others. All provide fine entertainment for both the students and townspeople alike. An annual presentation by the Mixed Chorus is a performance of Handel's "Messiah" with accompaniment by the Symphony Orchestra which also presents several individual concerts during the year. The Men's and Women's Octets entertain for local churches and organizations and, on occasion, make appearances throughout the state. In addition to these activities, the Music Department provides a summer music clinic which draws a large number of high school students to the Auburn campus. The concerts and programs that the music groups present to the school and community are of great value and their time and effort is greatly appreciated.

Members of Girls' Octet pause for a picture. FIRST ROW: Ann Walker, Toni Tennille, and Annette Ray. SECOND ROW: Glenda Kay Simms, Sylvia Sanford, Lucille Stephens, Thalia Andrews, Sandra Moody, Dot Rohmer, Mary James Dennis, and director, Bob Richardson.

A U B U R N

A little more than thirty years ago a small group of musicians banded together to provide entertainment for a dance. Thus, the Auburn Knights were first born, and since that time they have been steadily climbing in prestige and popularity until today they are one of the top college bands in the nation. Not only are they in demand by colleges throughout the South but also by various social clubs and organizations. Among the ranks of their successful alumni are men now playing under top name leaders such as Stan Kenton, Woody Herman, and Ralph Marterie.

"The Tender Trap"—Toni Tennille singing and Bobby Boettcher hamming.

Dixieland combo featuring "Punkin," the poor man's Charles Atlas.

"Agnes" concentrates on the most important quarter inch in smoking.

The War Eagle spreads her wings wide in Knoxville at half-time.

The two Barbaras, Bobby, and Gayle lead Auburn Band down field.

Field director George Godwin and troops march during half-time.

AUBURN MARCHING BAND

In Auburn's case it seems that a good band goes hand-in-hand with a good football or basketball team. At least this has proven true this year. Whether the occasion was a major football game or a pep rally, the band was there providing a spirited background of exciting music. Aside from the major marching band, there is an R.O.T.C. band composed of first and second year military students who provide the music for military parades, reviews, and inspections. There is, in addition to the R.O.T.C. band, a Concert Band which provides music ranging from jazz to symphony. We extend to Wilbur Hinton, George Godwin, and all members of the Auburn Band a salute for a job well done.

Little Miss Auburn on parade with her college friends looks lost.

A hat, some fat, and a big bass horn present a picture of contentment.

Samford Hall rests quietly amidst a maze of scaffolding as a summer facelifting is performed on her historic clock tower.

Margaret Moore, Auburn's first annual Rat Cap Queen, displays a well worn cap. Did you really give it that much hard wear?

Equally at home with a deck of cards as with a basketball.

The union desk serves as center for various activities including: an information center; lost and found; the scheduling of meetings.

AUBURN UNION

The varied program of the union includes many interesting and imaginative events at the annual Sadie Hawkins Day, seen here.

The Auburn Union is a facility of major importance on the campus for it provides Auburn students with a center around which a large majority of campus activities are formed. Its accommodations include conference rooms, a cafeteria and snack bar, a game room, lounge, workshop, and offices for the GLOMEARTA, "Plainsman", Village Fair, IFC, and Student Govt. It is a central meeting place for students from small Alabama towns with students from all over the world. It provides auctions, dances, and fine art displays ranging from paintings to antique glassware. It is the melting pot of the Auburn campus. Larry Hanks has served as Superintendent of the Union this year.

Coffee and chat.

Les Elgart and group close out Greek Week in a swinging way.

I.F.C. President, Eddie Kern, with Greek Goddess, Susie Myrick.

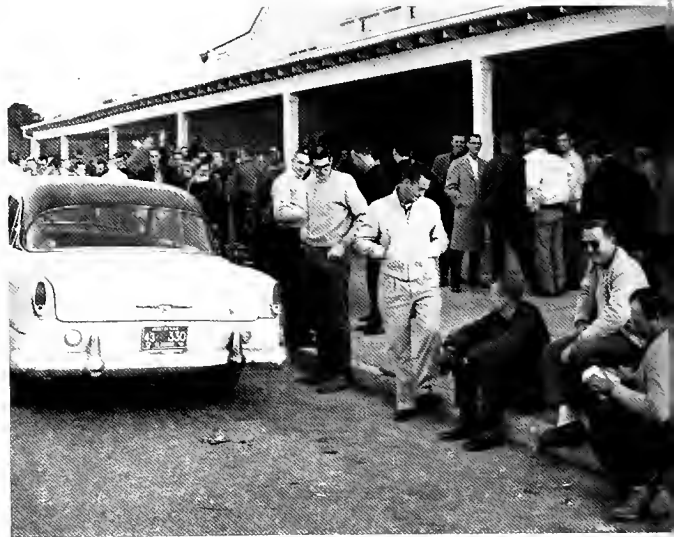

G R E E K W E E K

Greek Week, an annual event at Auburn, brings together representatives from both fraternities and sororities in an effort to create a better relationship between the two through joint projects and social affairs. Greek Week is sponsored by the Inter-Fraternity Council and the Panhellenic Council, and this year Lin Monroe and Harriet Jenkins served as general chairmen. The week featured banquets, panel discussions, dinner exchanges, and the I.F.C. dance on the final night where Les Elgart provided the music and where Susie Myrick was crowned Greek Goddess. The project for this year consisted of painting and repairing a local grammar school.

Auburn sailors who captured first place in the Mobile regatta sponsored by the Southeastern Inter-collegiate Sailing Assoc.

Ticket lines begin to form shortly afternoon, as enthusiastic fans wish to insure themselves of a seat when the Kentucky Wildcats invade the sports arena for an important SEC contest.

Art students sketch favorite object d'art—Toomer's corner.

A grand old gal rides elegantly into bygone days of the South.

Good-bye to the ODK Alabama-Auburn trophy, but just for a year!!

Johnny Rebs march in force on the stronghold of Toomer's Corner.

Phil O'Berry, center, presents trophies to Campus Capers winners. John Hamilton, Wayne Thames, Carolyn Parks, and Linda Ellis.

CAMPUS CAPERS

Tau Kappa Epsilon's hilarious skit, "Frankie and Johnnie—Auburn Style," captures first place honors in the fraternity division.

This year the former events of Skit Night and Sphinx Sing were combined into one big production entitled Campus Capers which proved to be a smashing success. The event is divided into four parts—fraternity and sorority sing and fraternity and sorority skit—with a winner in each division. Pi Kappa Alpha and Tri Delta sang their way to first place while Tau Kappa Epsilon and Alpha Omicron Pi chose to win with a skit. Competition has always proven to be tough for this annual event and the winners deserve congratulations which we heartily extend to them.

Tri Deltas sing themselves into first place in the sorority sing with their renditions of "Bali Hai" and "Tri Delta Moon."

A novel version of "Lil Abner" was featured by the Kappa Deltas.

"All that practice and you STILL can't remember your lines!!!"

An old philosopher takes time out for a smoking session.

SPRING SHOW

Spring Show here at Auburn is an annual event long awaited by all students. The production, staging, and acting is performed entirely by members of the student body, and generally it proves to be a great success. A large majority of the time, Spring Show is produced in the form of a musical. Whatever its theme, Spring Show never fails to entertain. Much work goes into this production, and our hats are off to those who give of their time and talents to make it what it is.

"I know I'm irresistably good-looking, but what shall I say?"

The cast of characters from the production, "Papa Is All," pose.

AUBURN PLAYERS

The Auburn Players play an important role in the activities of Auburn. Their productions ranged from "All My Sons" to "The Boy Friend" along with productions of "Black Chiffon" and "Papa is All." Under the direction of Telfair B. Peet and the assistant direction of Robert Knowles, the Players can be assured of a warm reception wherever they may be, whether on the Auburn campus or on the road. A great amount of time and effort is needed to stage a good play, and the Auburn players have never failed to present a good one. "Break a leg."

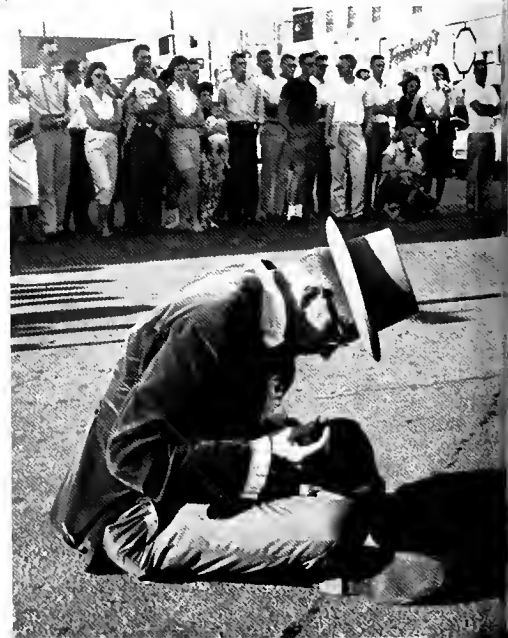

A lighter moment from the tense, exciting drama, "Black Chiffon."

"You might make the Navy, son, but you will never be a Marine."

"If I can just get this dohicky over this thingamajig before I get run over, then I'll have absolutely no complaints at all."

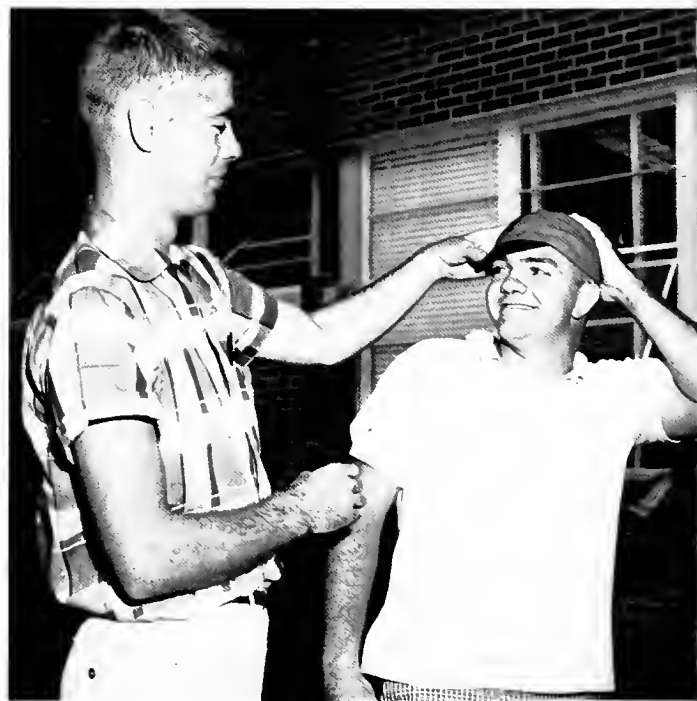

Well now, Boolie, are you reading or just looking at the pictures?

"Listen how loud he screams when I cut him right here with my knife."

As fall quarter begins, "Freshman Voss tries on a rat cap for size."

Village Fair Secretary, Janet Landers, and Chairman, Bobo Starke, appear engrossed in planning for the 1960 Village Fair Program.

VILLAGE FAIR

Each year during the spring a hoard of high school seniors descend upon the Loveliest Village for a first hand look at what Auburn has to offer as a university. This is Village Fair. It is a time, first of all, when our visitors obtain a close look of the school and her students. It is a time of fun too, marked by parades, dances, campus tours, and even a Miss Village Fair contest. Village Fair's chairman this year was Bobo Starke and secretary was Janet Landers. These two along with a host of other committee heads and members produced what we feel was a fine Village Fair and a memorable one for all concerned.

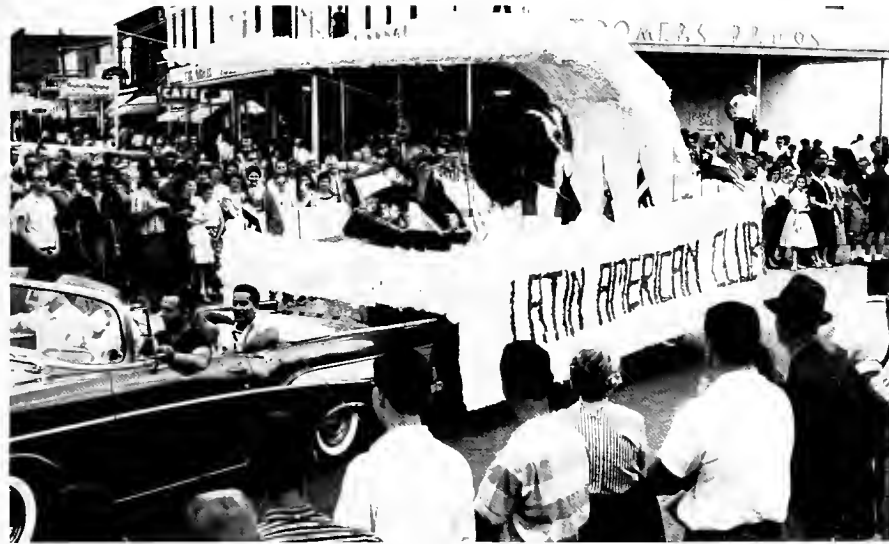

Ann Thomley, Miss Village Fair of 1958, presents a cup to her successor, Peggy Wilson, during last year's festivities.

The winning float of Lambda Chi Alpha as seen in the 1953 parade.

The registration tables are a scene of mass confusion as hundreds of high school seniors arrive for an "introduction to college."

Another outstanding float was designed by the Latin American Club.

AVA's soap box derby proved one of the week's most popular events.

Many gay and brightly colored decorations were spotted on the campus.

Hopeful cheerleaders present a disorderly scene as tryouts begin.

Boolie seems ready to drop out from exasperation as things look bad for the Tigers. Georgia went on to break a long drought by their last-minute score and one point decision over the Plainsmen.

Dr. Pollard, principal guest speaker for Auburn's annual Religious Emphasis Week, and several participants have an informal chat before attending the day's meetings and lectures. Serving as chairman for REW was Tom Gregory.

Miss Alabama and Miss Auburn ride in Birmingham parade before game.

A humorous scene is enacted as the Union pond receives a victim

Barbara and Barbara strut their stuff as George patiently waits.

Toni sings softly to the background music of the Auburn Knights.

Well now, who'd like to be whopped over the head with an umbrella?"

A graduation, a commission, and a snapshot for the family album.

Greek leader Kern makes a study of the Trojan Horse.

How it began . . . A camera and a dummy . . .

ANYBODY FOR SPACE TRAVEL?

Sign on at Douglas for some of the most exciting engineering projects of our time

We're working on many types of missiles, earth satellites, lunar, planetary and solar probes and satellites, manned satellites and manned interplanetary space ships. The Air Force THOR, built by Douglas, has provided the big lift for more space projects than any other vehicle. NIKE HERCULES and NIKE ZEUS—built by Douglas in cooperation with Western Electric and the U.S. Army—are the most potent anti-aircraft anti-missile devices ever created. ANIP, ALBM and DELTA are new projects of critical importance to national security and the conquest of space. There are many more that cannot be discussed. We've built more than 26,000 missiles of all types . . . more than anybody else.

Also, we've packaged more people and cargo in non-earthbound vehicles than any other company. Our latest transports, the DC-8 jetliner and world-champion

weightlifter C-133, are the finest of their kind. And new versions of our A4D carrier aircraft have been re-ordered in quantity.

So you see we've got the practical know-how to turn into reality whatever you can dream up.

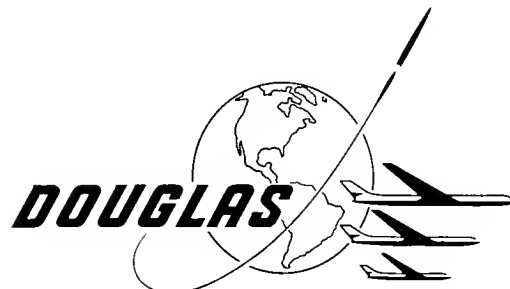

Now, about your future: Expanding opportunities—created in large part by new fields of endeavor—make it possible for you to go right to the top if you have the ability. Almost all Douglas top executives and administrators have advanced from within the company. Many of them are engineers and scientists. Scholarships and fellowships are available for continuing your education in such fine institutions as Cal Tech, U.C.L.A. and others. And we also provide an outstanding program of employee benefits.

For complete information, write to
